WOODLAND SCHOOL CARES

We **C**ooperate

We **R**espect All

We **E**xhibit Effort

We **S**how Self Control

ANIMALS IN SCHOOL

Animals may be brought into school for justifiable educational purposes with the permission of the teacher and at the discretion of the Principal. Students, under the supervision of the teacher, must exercise reasonable and prudent care in caging and handling. Parent must be present while the animal is in the classroom.

Pets should not be brought to school during dismissal and or drop-off.

ATTENDANCE INFORMATION

Massachusetts's law requires that schools be in session 180 days per year. In accordance with the General Laws of the State of Massachusetts, Chapter 76, Section 1, every child between the minimum ages as established by the Board of Education shall attend a public day school or some other school approved by the school committee for the number of days as required by the Board of Education. Also, Chapter 76, Section 2 states that: Every person having control of a child shall ensure their attendance for the number of days as required by the Board of Education.

The above provisions clearly specify that a student must attend school every day that school is in session unless the student has a legitimate excused absence. It is the parents'/guardians' sole responsibility to see to it that their son/daughter is in school.

The school administration discourages students missing school for family vacations. Clearly, missed teacher presentations, lectures, classroom discussions, laboratory experiments, and such cannot be made up as homework. However, the reality exists that parents do take their children out of school for such trips and these absences will count against the attendance policy. When this occurs, the following procedures will be used:

- The parent(s) / guardian(s) will contact the administration in advance of the planned vacation.
- The student will be held responsible for making specific arrangements with their teacher(s) for assignments. Work will be offered to students upon their return from an absence from school. Please do not expect teachers to prepare student assignments in advance of your child's trip. All work will be offered to the student upon the return of the student to class. Full credit will be given for completed work.

PARENT NOTIFICATION OF CHILD'S ABSENCE

If your child is absent from school, please do the following:

- Call 569-6598 and Press #1 to record your child's absence. Please give your child's full name, the date of the absence and the reason your child is not in school. Your message can be left at any time, however, if you are requesting homework, a call must be placed in the morning. Homework can be picked up in the office at the end of the school day or sent home with another student.
- If the child will be out an extended time, please let us know. Otherwise, a phone call must be made to the school each day your child is absent.
- If a phone call or direct communication was not made, a written note must be sent to the school within 2 days of the absence.
- If your child has been absent due to illness and you have seen your physician, please provide the school with documentation from medical personnel.

Twenty absences per year will be considered excessive and may jeopardize a student's promotional status and may result in filing a 51A – child neglect consultation and/or reporting to the Department of Children and families.

NOTIFICATION OF EXCESSIVE ABSENCE AND APPEALS

1. When a student has been absent five (5) days in a half year or ten (10) days in a year, the parent or guardian will be mailed a notice of this occurrence.
2. When a student has violated the Attendance Policy by being absent ten (10) or more days for any reason other than medical in either half a year or twenty (20) or more days in a year, the parent/guardian will be notified of the impact on academic growth and a mandatory conference (e.g. phone; meeting; etc.) will be scheduled with the Principal and parents.
3. A PARENT/GUARDIAN must notify the Administration of a desire to appeal in writing within five (5) school days of receiving a notice of the attendance violation to request an appeal of failing grades.

The Appeals process will consist of the Principal (or designee) and others at the discretion of the Administration, as deemed appropriate. Parents/guardians may present their appeal for a change of grades at the informal meeting. The parent/guardian will be informed of the date and time of a meeting to address the request. The Appeals Board will consider:

1. Information presented
2. Documentation from medical personnel
3. The overall student attendance record
4. Other information deemed appropriate by the Administration

The decision of the Appeals is final

5. The Appeal may override the Attendance Policy
6. The decisions of the Appeal will be rendered within five (5) school days of the appeals meeting

***FOR MORE INFORMATION ABOUT ATTENDANCE SEE DISTRICT POLICY AT THE BACK OF THE HANDBOOK.**

TARDINESS

Students should be in their classroom at 9:00 A.M. when Woodland School begins. A student must attend school at least half a day to be considered present. A late arriving child should sign in at the office with a parent. The child may then go directly to their classroom. Students who have been tardy for three (3) unexcused times in a marking term will be given a warning and a letter will be sent home. Unexcused tardies will become excused with a medical note from a doctor.

DISMISSAL

If a child needs to be dismissed at any time during the day, a parent must send in a note with their child in the A.M., come to the office, and sign out the child. The student will be called to the office for dismissal. An emergency card is maintained for each child in the school. Students will be released only to the people whose names appear on the emergency card or have been authorized by the parent/guardian.

Children that go to after school programs will need a note sent in at the beginning of the year, or program, to notify the school and will need to follow up with subsequent notes for any changes in students dismissal or routine.

If there is an emergency, a parent or guardian may phone the office during the day with dismissal instructions. Or, if a parent or guardian is picking up a child without prior notification, s/he should report to the office first.

Between 3:05 P.M. and 3:10 P.M., students are moving about the building returning from special classes or preparing for regular dismissal at 3:20 P.M. Please do not request to dismiss a student at this time. Because so many children are in transit, we feel that the safest and most orderly procedure will be for parents to wait until the regular dismissal time at 3:20 P.M.

BLACKBOARD CONNECT PHONE LINE

Families are notified of many school related topics through a phone messaging service called Blackboard Connect. Some examples are unexcused absences, early dismissals and other important school messages.

BUS SAFETY

Kindergarten through Grade 2 Bus Stop Standard Procedure:

Kindergarteners must be met at their bus stop by a responsible adult. If there is no adult present to retrieve a kindergarten student, the child will be brought back to the school. Students beyond the kindergarten level will be released from the bus unless the bus driver has concern for the child's safety. Bus drivers will have the discretion to determine if a child should be returned to the school.

Grades Kindergarten through Grade 2 Bus Stop Exception:

Occasionally, a child's designated bus stop is in a location that requires an adult to drive to the bus stop to retrieve his or her child (e.g. bus drop off is not in the child's own neighborhood – it may be a parking lot of a business). When this is the case for a student in grades Kindergarten through Grade 2 and the adult is not present at the bus stop, the child will be brought back to the school.

Parents must declare standard five (5) day pick-up and five (5) drop-off locations for their children that will remain in effect for the entire school year. Students are only allowed to ride their assigned bus.

Here are some suggestions to help your children use the bus safely. Please review them with your children periodically.

1. Waiting for the bus:
 - a. Children should stay out of the road except when they must cross the street.
 - b. They should not trespass on private property.
 - c. Younger children who are not attending school should not accompany your child to the bus stop without an adult.
 - d. Children should wait in an orderly manner. Rough behavior or running is dangerous.
 - e. As the bus approaches, they are to line up at least 10 feet off the road and should approach the bus only when the driver has opened the door and signaled to the students that it is safe to approach the bus.
2. Riding the Bus:
 - a. Children should listen carefully to the driver's instructions.
 - b. They should get on the bus quickly and be seated. Children may be expected to sit three in a seat.
 - c. Children are expected to help keep the bus clean. Eating on the bus is not allowed.
 - d. Students should keep all parts of their bodies inside the bus.
 - e. Children must remain in their seats when the bus is moving.
 - f. Children should restrict their talking to those children sitting next to them.
 - g. Shouting is not allowed.
3. Camera usage on all buses: Audio and video cameras may be present on our STGRSD school buses.

When the bus driver reports inappropriate behavior, an administrator will speak to the students. If the behavior continues and a second bus warning is issued, the parent will be notified. If a third bus warning is issued the

parent will be notified and the child may be temporarily or permanently removed from the bus. Parents will then be responsible for seeing that the child is transported to school.

CANCELLATIONS AND DELAYS

Closing school because of weather conditions or other emergencies will be broadcast online on the Southwick-Tolland-Granville Regional School District Facebook page, on TV stations WWLP 22 News; Western Mass News CBS 3, ABC 40 and Fox 6; and NECN. Voice and text messages will also be sent via phone to all households via the Blackboard Connect system.

When school opening is delayed, due to inclement weather, the delay is announced over the local radio and television stations, as well as, on the Southwick-Tolland-Granville Regional School District Facebook Page.

1. Busses will run two hours later.
2. School will begin at 11:00 A.M.
3. Lunch will be served at the usual time.
4. Dismissal will be at 3:20 P.M.

CARE OF BOOKS, SUPPLIES AND PUBLIC PROPERTY

Books and supplies are provided at public expense. It is expected that the children will be responsible for the reasonable use of these materials and in the event of loss or damage will pay for full replacement of each item.

Reimbursement is also expected in the event of damage to the buildings, furniture or equipment caused by misconduct or an act, which a given child would be reasonably expected to avoid.

CORI (CRIMINAL OFFENDER RECORD INFORMATION)

The Southwick-Tolland-Granville Regional School District requires CORI checks for the purposes of screening current and otherwise-qualified prospective school-based personnel and volunteers who will have the opportunity for unsupervised contact with children.

DISCIPLINE PROCEDURE

The STGRSD complies with all conditions and procedures outlined in Chapter 222: An act relative to student access to educational services and exclusion from school.

The discipline procedures are designed to cover the general rules and regulations of Woodland School. However, it is not intended to be all inclusive and individual teachers or administration may have their own rules and regulations pertaining to the management of their classes or the school.

In elementary schools most discipline is usually handled by the classroom teachers. If a situation arises that is serious enough for a student to be sent from the room, the student will be sent to the principal's office. The teacher will notify the office that the student is being sent and the reason for his/her removal from the classroom. For more serious infractions, the teacher or administrator will also contact the student's parent/guardian and inform them of the situation.

Below is a list of possible infractions:

19. Police referral

Any student on external or internal suspension will not be allowed to participate in any school activities during period of suspension.

DROP OFF AND PICK UP PROCEDURES

For families transporting their child(ren) to and from school, families will drive down to the school, drive along the last row of parking spots and the transportation department fence, proceed to the end and pull up alongside the curbing. Parents can drop off in the morning 8:45-9:00 AM and pick up in the afternoon, 3:20-3:30 PM. Students will enter school at the main entrance or middle entrance and will dismiss from the main entrance. We will signal when your child can get out of the vehicle in the morning.

Please stay in your car unless your child needs help getting out or into their car seat or seat belt.

We will continue to use Silent Dismissal as our dismissal program to help with parent pick up. This is something newer and there are likely to be kinks to work out at the start of the school year.

On the first day of pick up, you will receive a display tag which will be used for future pick-ups. These tags will help us in notifying the classroom teacher when you have arrived for your child(ren). For families with multiple children, one tag includes all children in a family.

Buses are planned to arrive at the end of parent drop off and pick up time and will proceed forward when there are no more cars in line. Buses will let cars into the line as they arrive.

EMERGENCY DRILLS

Emergency Lock Down and Evacuation drills are held periodically during the school year. **NOTE:** Parents should set up an emergency procedure so that their child knows what to do and where to go if, due to an emergency, they arrive home when a responsible adult is not there.

ENGLISH LANGUAGE LEARNERS PROGRAM (ELL)

Students for whom English is not their primary language have equal rights of access to all courses of study in regular, special, technical and vocational school programs. They also have the right to participate in all school-sponsored activities.

All students entering the Southwick-Tolland-Granville Regional School District who speak a language other than English at home are evaluated for English language proficiency. If services are recommended, parents are advised of their choices. They have the right to accept or reject the services available.

Instruction for English Language Learners (ELL) is provided for all students who have a limited proficiency in English. Services are tailored to the individual language and educational needs of the student. For further information contact the ELL Coordinator.

ETHICS LAW

The Southwick-Tolland-Granville Regional School District discourages gifts to classroom teachers in accordance with M.G.L. c. 268A, section 3.

REQUIREMENT REGARDING MASK WEARING

Effective immediately, all public school students and staff in all grades are required to wear masks indoors in schools, except when eating, drinking, or during mask breaks. By federal public health order, all students and staff are required to wear a mask on school buses. Masks should cover an individual's nose and mouth.

Students and staff who cannot wear a mask for documented medical reasons, and students who cannot wear a mask for documented behavioral reasons, may be exempted from the requirement. Exemptions must be approved by the school principal in consultation with the school nurse/ school physician or 504 process.

Mask Compliance:

Positive behavioral interventions, conferencing between families and school administration and progressive discipline will be used to address student non-compliance with this policy. Only after these steps are taken may a student be removed from the school building until such time as they can comply with the requirement or the requirement is lifted.

Note: The mask requirement will be in place until at least October 1, 2021, and is subject to change thereafter.

HANDBOOK ACKNOWLEDGEMENT FORMS

Each parent, guardian or the student him/herself (if over 18 years old) must sign the handbook acknowledgement form, indicating that he/she has received and read a copy. If the signed acknowledgement form is not received by the second week in September, then the school district will nonetheless presume that the parent, guardian or student him/herself (if over 18 years of age) has received and read this document.

KINDERGARTEN REGISTRATION

Kindergarten registration takes place in the spring. Parents of prospective kindergarten students are requested to contact Woodland School. To be eligible for Kindergarten, a child must be five years old by September 1st of the year entering. A birth certificate, proof of residency, records of immunizations and a physical examination form, including lead results, from the doctor must be presented at the time of registration. Transfer students may enter school any time during the year upon presentation of proper transfer records.

LOST AND FOUND

It is strongly urged that the parent put their child's name on all outer clothing. The "Lost and Found" is located in the dining room. Please do not hesitate to come in and check for lost articles. The large quantities lost each year make it necessary to dispose of items to a local charity periodically.

MEDICAL INFORMATION

School Nurse and Health – The school nurse is available to work with you to accommodate your child's health needs while at school. From cuts, bumps and stomach aches, to chronic health conditions, the nurse is here to assist your child in remaining healthy and productive in school. Feel free to contact the school nurse with any questions, concerns or to obtain necessary forms.

Activity Limitations – If your student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations, must be provided to the school so appropriate arrangements can be made, if necessary.

Emergency Form - Each fall parents will receive a Student Health and Emergency Form. It is essential that the form be completed annually and that the information is current at all times. Medical conditions such as allergies, asthma, epilepsy, diabetes, etc. should be indicated on the form. Please update any changes throughout the year. This form can be downloaded from the District website under Departments, then selecting Health Services.

Field Trips – Permission forms for field trips are sent home by the students' teachers prior to the field trip. Please complete the form as soon as possible. You must write any medication your child may need in the large box on the Field Trip Form and indicate if you give the teacher permission to administer the medicine on the field trip. Be sure to write any medical condition in the box, also (i.e. diabetes, migraine headaches, motion sickness, reactions to bee stings, etc.). If your child needs to take any medicine, a Physician and Parent Med Consent Form must be on file with the nurse. (This form can be found on the District website under Departments, then select Health Services.) Medications to be taken on the field trip will be delegated to a teacher to administer. It can take some time to make necessary arrangements for your child's safe enjoyment of a field trip. Your cooperation is essential. Please discuss field trips with the school nurse at any time.

Dental Survey - The school dentist examines Kindergarten and fourth grade students. A report is sent home after the exam.

First Aid will be administered for minor injuries received during the school day. When a student becomes ill or is seriously injured, the parent is notified immediately. If a parent cannot be reached in an emergency, the child will be transported to the hospital.

Homebound Tutoring - Parents who expect their child to be absent for an extended period of time due to illness or accident, should contact the Student Services Department about home tutoring.

Immunizations – By law, The Massachusetts Department of Public Health requires that all students be fully immunized prior to school entry. The Massachusetts school immunization requirements are on the District's website. Physicians are aware of these requirements, as well as, the required time intervals between doses. (Please note that each state has slightly different timetables for immunizations. If your child's pediatric practice is in another state, make sure your child is compliant with Massachusetts requirements.) The State Department of Public Health mandates the school nurse to review the time intervals between the doses of specific vaccines. If the intervals between doses are outside of the Department of Public Health guidelines, an additional dose of vaccine may be required. Parents will be informed individually if this is necessary. Every child must be properly vaccinated to attend school in Massachusetts. Exemptions may be accepted for medical or religious reasons, and must be made in writing. Children who are homeless are allowed to enter pending verification of immunization.

Enforcement:

1. The school administration (principal, superintendent), in consultation with the school nurse, has the responsibility to refuse school admittance to students who have not received the required immunizations or who are not, otherwise, exempted. Unimmunized, or partially immunized students, whose private physicians certify in writing they are in the process of receiving the required immunizations, shall be allowed to attend school, provided they receive the required immunizations when scheduled. They will be regarded as being in compliance with the law, as long as, they are actively pursuing the receipt of immunizations.
2. It is the responsibility of the school nurse to review the records and inform the parent/guardian if the student is not in compliance. If the parent/guardian has difficulty obtaining the necessary immunizations, a choice of possible resources will be offered. Please refer to M.G.L. Chapter 76, Section 15, any student found to be in non-compliance with the immunization requirements is subject to immediate exclusion from school and shall not be readmitted until the parent or guardian satisfies the requirement of the statute or, in the alternative, provides evidence to substantiate an exemption as described above.

Medical and Dental Appointments should be made, whenever possible, during non-school hours.

Medication Policy – The Southwick-Tolland-Granville Regional School District follows the laws and regulations of the Massachusetts Department of Public Health in the formulation of medication policies to ensure the health and safety of children who need medication during the school day. The following forms must be on file in your child's health records before any medication can be administered at school or on a field trip.

The forms are available from the nurse or may be downloaded from the District website.

1. A signed consent by parent or guardian to give the medicine.
2. A signed medication order completed by your child's licensed prescriber (physician, nurse practitioner, etc.)

The policies include over-the-counter medicine such as acetaminophen, cough drops and ointments. Medicines must be in a pharmacy or manufacturer-labeled container. Students are not permitted to transport any medicine to or from school. Medicines must be delivered to the school. **It is necessary to obtain new orders and parental permission every year.** Any medications not picked up by the last day of school will be destroyed.

The school nurse may not administer any medications, including over the counter medications, without proper orders and consents. Students are not allowed to carry medications in school, and may be referred for disciplinary action if found with medication. Please plan ahead to meet your child's medication needs. The school nurse is available to help you, if needed.

Our school physician has provided medical directives for our students. See bottom of the Student Health and Emergency Form.

Physical Examinations – State law requires physical examinations of all school children within a year before entry into school, and at intervals of either three or four years thereafter. The Southwick-Tolland-Granville Regional School District requires physical examinations in Grades K, 4, 7 and 10, and for all new students, and because your child's physician has a comprehensive knowledge of the health status of your child, private physician examinations are strongly encouraged. If the school nurse has concerns about a student's health, she may require a student to have an exam to attend school. An exam within a year of entry into school is acceptable.

Mandated Health Screenings – The Massachusetts Department of Health mandates health screenings that are performed during the school year. These include height, weight, vision, hearing and postural or scoliosis screenings. For any vision, hearing or postural screening outside normal limits, a referral will be sent home for further testing.

You have an option to not have your child participate in one or all screenings. You must however, make your decision to “OPT Out” of a screening in writing and send it to your child’s school nurse. Otherwise, your child will be automatically screened as per Massachusetts Department of Public Health (DPH) Regulations. “Opting out” only applies to screenings and DOES NOT apply to physical exams. The “OPT Out” option must be made annually (it does not carry over from year to year). The mandated health screening requirements may be located on the District’s website.

Wellness Policy – Our District Wellness Policy addresses nutrition standards, nutrition education, physical activity and other school-based activities designed to promote student wellness. It also includes an evaluation component. The complete policy is available on the District website.

When to Keep a Child Home – It is sometimes difficult to decide when a child should remain home from school. Here are some guidelines:

1. Child has vomiting or diarrhea.
2. Fever 100 degrees or higher, to remain home until fever free for 24 hours without the use of fever medications.
3. 24 hours after starting antibiotics, especially after conjunctivitis or strep throat.
4. Child with any contagious illness.
5. Excessive fatigue after illness.
6. When your child’s doctor recommends rest at home following an illness, injury, or surgery.
7. After an injury or surgery when narcotic pain medication is still necessary.

Remember to obtain a note for school if your child misses school for any appointment with a doctor, dentist, orthodontist, or mental health provider.

POWDER MILL AND WOODLAND SCHOOLS’ PARENT-TEACHER ORGANIZATION: PAWS

The Powder Mill and Woodland Schools’ (PAWS) Parent Teacher Organization meetings are held monthly. If you are new to either school or even if you are already familiar with P.T.O. we encourage you to attend our meetings and become active in our school community.

PARENTAL CONCERNS/COMPLAINTS

It is not unusual for questions and/or concerns to arise during the course of a school year. Building a partnership between parents and teachers is the first step in ensuring quality education for our students. Calling or meeting with your child’s teacher is the best and most productive way of addressing any issue.

If you have a concern about your child’s performance, his or her classroom or academic program, you should contact the following people in this order:

- Speak with the teacher first. Your child’s teacher is the person most familiar with your child and the most knowledgeable when it comes to curriculum and grade level concerns. The teacher may also recommend meeting with additional school personnel if appropriate.
- If you are not satisfied with the solutions suggested by your child’s teacher, contact school administrators. They will meet with you and the teacher to find a mutually acceptable solution to your problem.
- If, after meeting with your child’s teacher and the Woodland Administration, you are unable to satisfy your concerns, you may contact the Superintendent of Schools.

PHYSICAL RESTRAINT

The Southwick-Tolland-Granville Regional School District complies with the Department of Education (D.O.E.) restraint regulations, 603 C.M.R. 46.00 et seq., as required by law. These regulations apply not only while attending school, but also at school-sponsored events and activities, whether or not on school property. Copies of this law are available at <http://www.doe.mass.edu/lawsregs/603cmr46.html>, and in the office of the principal.

In Southwick-Tolland-Granville Regional School District schools, we use non-violent restraint such as redirection, escorts to quiet areas, talking to students and other such methods. Physical restraint is only used as a last resort.

PRESCHOOL SCREENING

The Preschool Team offers screening of three and four year old children at least once a month for Southwick, Tolland and Granville families. We also do screenings as the first step in a special needs referral throughout the year. Children are screened in the areas of vision, hearing, speech and language development. Preschoolers, who display some developmental delays based on screening results, are then followed up with a referral from Special Needs in accordance with Chapter 766.

The STGRSD Preschool Program is for students with disabilities. Public schools are required to offer free and appropriate educational services for children ages three to five (and older) who have a disability by state and federal requirements under the Individuals with Disabilities Education Act (IDEA).

The STGRSD Preschool Program is open to a limited number of peer role models/partner slots on a first-come-first-serve-basis. Peer partners are required to be toilet trained. Once slots are full, a wait list is created. Please note transportation is not provided for peer partners.

PROHIBITED ARTICLES

Dangerous weapons, including, but not limited to, a gun or a knife or controlled substances are prohibited. Also prohibited: tobacco products, fireworks, laser pointers, knives, toy guns, skateboards, CD players, hardballs, toys, stuffed animals, handheld gaming systems, chewing gum and anything else that disrupts the educational process. Toys attached to backpacks can be dangerous for students getting on and off the bus. Therefore, these are also prohibited. The school cannot assume responsibility for valuable articles brought in by the children or parents. In general, toys, handheld games, electronic devices, etc. should not be brought to school unless requested by the teacher.

PUBLICITY AUTHORIZATION AND RELEASE

The Southwick-Tolland-Granville Regional School District and Woodland School may release and publish, student work, photographs, motion pictures, video images or other likeness of your child in connection with any and all news releases, public relations or promotional materials or announcements, advertisements, web pages or otherwise, concerning your child's academic honors, sports activities, participation in school-sponsored musical, dramatic or dance-performances, or any other purpose in connection with your child's attendance at Woodland School. If you have any objections to the Publicity Authorization and Release policy, please write to the building principal and your son/daughter will be exempt from this policy.

RECESS

Out-of-doors recess is part of the school program. Children are expected to come to school properly clothed for weather conditions. During inclement weather, and/or when the temperature is below 20°F, recess is held indoors. A written parental request for exclusion from recess will be honored for a reasonable length of time. Extended exclusions require a physician's written statement.

It is strongly recommended that flip flops not be worn to school. The children often twist ankles and stub toes when wearing these on the playground. If they are worn to school, the children are not allowed to use the playscape.

REPORT CARDS - CONFERENCES

Parent/Teacher Conferences are held twice each year. Dates are noted on the school calendar. Report cards are issued four times each year in all grades.

SCHOOL COUNCIL

School Council - The Woodland School Council consists of parents, teachers, administrators, and community representatives, who work together each year as an advisory board to the Principal; the goal of the Council is to continually improve education at Woodland School. The group meets each month. An election for parent representatives is held at the April/May PAWS PTO meeting. Member elections are held every two years. Please refer to the Principal for a current membership list.

SCHOOL LUNCH PROGRAM

The U.S. Department of Agriculture has extended school meal waivers through the end of the 2021-2022 school year, allowing the continuation of universal free school meals at any school district throughout the state.

During the school year, when there is a scheduled half-day of school (e.g., Collaboration Day), we will offer either a hot or cold lunch option to any student. These bagged lunches are served with an entrée, fruit, vegetable and milk. Students will be asked to order in the morning and their bagged lunch will be available at dismissal. Please see the menu for a schedule of hot meals offered.

Students who would like to have breakfast can pick up a bag at the beginning of any grade level hallway and take it directly to their classroom. **Students should not share any food they bring from home.**

Any questions regarding the school lunch program should be directed to the Food Service Director, Matthew Lillibridge, by emailing mlillibridge@stgrsd.org

GUIDELINES FOR CLASSROOM CELEBRATIONS

The School District Administration has developed and implemented a protocol in an effort to minimize the risk of exposure to allergens that pose a threat to students. The Southwick-Tolland-Granville Regional School District recognizes the increasing prevalence of student allergies and the life-threatening nature of allergies for many students. As a result snacks made at home may not be shared with the students in classrooms.

For any in school celebrations, only wrapped, store-bought foods with the ingredients listed on the label will be distributed. The school principal in collaboration with the school nurse, may make an exception to this in order to approve curriculum based food activities. Alternate activities are strongly encouraged for celebrations. Our mission is to teach students that food shouldn't always be the focus and there are other ways to celebrate. We can have fun without food.

Additionally, some children are allergic to latex balloons. Therefore, latex balloons will not be allowed at school. However, mylar/foil balloons are safe and acceptable.

SPECIAL NEEDS SERVICES

Children with disabilities are provided with a range of services to meet their educational needs. Eligibility for services is determined through an evaluation process in accordance with Massachusetts Chapter 766 Regulations.

Consultation teams have been set up at the four schools in order to explore options and strategies to meet the needs of children who are having academic or social/emotional difficulties. These teams are comprised of Administration, Counselors, Regular and Special Education Teachers. They may refer a child for a special education evaluation if a disability is suspected.

Parental permission must be obtained in order to proceed with an evaluation. Parents are invited to meet with the professionals who evaluate their child and to participate in decision making about their child's educational plan.

Each school offers special education services to help address the individual needs of children with disabilities. These include Speech and Language Therapy, Occupational and Physical Therapies, Vision and Hearing Services, instruction in a Resource Room setting, and assistance within the general classroom. The participation of disabled students in school activities and programs is encouraged, as is their inclusion in appropriate academic classes.

Questions about available services may be addressed to the Principal or to the Director of Student Services.

TITLE I

Title I is a federally funded program designed to support non-proficient students in reading and mathematics. A Reading Recovery Program is available to students in first grade who are most at-risk of failing to learn to read.

Instruction is designed to meet the individual needs of students. Progress Reports and Parent Conferences are in conjunction with the regular classroom schedule.

Parents are encouraged to become involved in the program through at-home reading incentive programs, parent workshops and meetings.

The Federal *No Child Left Behind* Act of 2001 requires school districts that receive federal Title I funding to notify parents of their right to know the professional qualifications of the classroom teachers who instruct their child. As a recipient of these funds, Southwick-Tolland-Granville Regional School District will provide you with this information in a timely manner if you request it. Specifically, you have the right to request the following information about each of your child's classroom teachers:

- Whether the teacher meets the state qualifications and licensing criteria for the grades and subjects he or she teaches.
- Whether the teacher is teaching under emergency or provisional status because of special circumstances.
- The teacher's college major, whether the teacher has any advanced degrees, and the field of discipline of the certification or degree.
- Whether paraprofessionals provide services to your child and, if so, their qualifications.

Others work in our Library helping children checkout books each week and re-shelving those that are returned. For those parents who cannot come to school, there are often projects that can be completed at home. If you would like to be a part of this exciting program, please contact your classroom teacher or call us at the School Office at 569-6598. You must complete a CORI form to be a volunteer or chaperone.

If the response by the ADA Coordinator does not satisfactorily resolve the issue, the complainant and/or his/her designee may, within 15 (fifteen) calendar days after the receipt of the response, appeal the decision to the School Committee or their designee.

Within 15 (fifteen) calendar days after the receipt of the appeal, the School Committee or their designee will meet with the complainant to discuss the complaint and possible resolutions. Within 15 (fifteen) calendar days after the meeting, the School Committee or their designee will respond in writing, and where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by the ADA Coordinator, appeals to the Southwick-Tolland-Granville Regional School Committee or their designee, and responses from the ADA Coordinator and School Committee will be kept by the Southwick-Tolland-Granville Regional School District for at least (3) years.

Staff Complaints and Grievances

The Southwick-Tolland-Granville Regional School Committee encourages the administration to develop effective means of resolving differences that may arise among employees and between employees and administrators; reduce potential areas of grievances; and establish and maintain recognized channels of communication between the staff, administration, and School Committee.

It is the committee's desire that grievance procedures provide for prompt and equitable adjustment of differences at the lowest possible administrative level, and that each employee be assured opportunity for an orderly presentation and review of complaints and concerns.

Channels established will provide for the following:

- a. Teachers and other school employees may appeal a ruling of a principal or other administrator to the superintendent.
- b. All school employees may appeal a ruling of the Superintendent to the School Committee, except in those areas where the law has specifically assigned authority to the principal and/or the Superintendent and committee action would be in conflict with that law.
- c. All hearings of complaints before the Superintendent or committee will be conducted in the presence of the administrator who made the ruling that is the subject of the grievance.

The hearing shall be held at a time and place mutually convenient to all parties. The hearing procedure will follow appropriate due process procedures, including:

1. the opportunity for the aggrieved party to present the grievance in any suitable manner;
2. the right of the aggrieved party to an impartial hearing officer;
3. the right of the aggrieved party to be represented by counsel or an advocate at the aggrieved party's expense;
4. the right of the aggrieved party to a prompt decision.

Use of this grievance procedure is not a prerequisite to the pursuit of other remedies.

These rules shall be construed to protect the substantive rights of the interested persons to meet appropriate due process standards and to assure that The Southwick-Tolland-Granville Regional School District complies with the ADA and implementing regulations.

No aggrieved party will be subject to coercion, intimidations, interference, or discrimination for registering a complaint or for assisting in the investigation of any alleged complaint within the context of this grievance procedure.

Revised: 11/5/2018, 8/18/2020

The Southwick-Tolland-Granville Regional School District is committed to maintaining and promoting an educational environment free from all forms of discrimination, including harassment. The civil rights of all school community members are guaranteed by law, and the protection of those rights is of utmost importance and priority to the District. Discrimination, including harassment, on the basis of race, color, religion, national origin, ethnicity, genetic information or testing, sex, sexual orientation, gender identity, age, pregnancy, pregnancy related condition, or disability (hereinafter "membership in a protected class") will not be tolerated. Retaliation against any student or other individual who has complained of discrimination, including harassment, or individuals who have cooperated with an investigation of such a complaint, is also unlawful and will not be tolerated. The District will promptly investigate, remedy any harm, seek to prevent recurrence of such conduct, and will also develop procedures to accomplish this end. This policy applies to conduct directed toward persons associated with the educational community by all other persons associated with the educational community including, but not limited to, students, District employees, the School Committee, school volunteers, and independent contractors.

- B. Harassment: Oral, written, graphic, electronic, or physical conduct relating to a person's actual or perceived membership in a protected class that is sufficiently severe, pervasive or persistent so as to interfere with or limit that person's ability to participate in the District's programs or activities by creating a hostile, humiliating, intimidating, or offensive educational environment.

Harassing conduct based on a person's protected status may include, but is not limited to:

Degrading, demeaning, insulting, or abusive verbal or written statements;
Taking personal belongings, taunting, teasing, name-calling, or spreading rumors;

- C. Sexual Harassment: Conduct on the basis of sex that satisfies one or more of the following:
- i. A school employee conditioning education benefits on participation in unwelcome sexual conduct (i.e. quid pro quo); or
 - ii. Unwelcome conduct that a reasonable person would determine is so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's education program or activity; or
 - iii. Sexual assault (as defined in the Clery Act as: any sexual act directed against another person, without consent of the victim, including instances where the victim is incapable of giving consent), dating violence, domestic violence, or stalking (as defined in the Violence Against Women Act as: engaging in a course of conduct directed at a specific person that would cause a reasonable person to: (1) Fear for the person's individual safety or the safety of others; or (2) Suffer substantial emotional distress.).

Massachusetts General Laws Ch. 119, Section 51 A, requires that public schools report cases of suspected child abuse, immediately orally and file a report within 48 hours detailing the suspected abuse to the Department of Children and Families. For the category of sexual violence, in addition to Section 51A referrals these offences and any other serious matters shall be referred to local law enforcement. Schools must treat seriously all reports of sexual harassment that meet the definition of sexual harassment

II. Responsibilities of all Persons Associated with Educational Community

Each member of the educational community is personally responsible for ensuring that his/her conduct does not in any way harass or discriminate against any other person that he/she has contact with in the performance of his/her duties or studies or while acting as a member of the school community. In addition, each member of the educational community is required to fully cooperate in any investigation of alleged discrimination, including harassment. Further, District employees are obligated to intervene and stop any discrimination, including harassment they witness and to immediately report to the appropriate party

IV. Procedure for Reporting Discrimination and Harassment

The following complaint procedure has been established to ensure prompt and effective investigation into allegations of discrimination, including harassment.

A person who believes that he or she had been discriminated against, including being harassed may, to the extent that they feel comfortable, immediately:

1. confront the harasser(s) or person believed to be discriminating against him/her;
2. state the conduct that he/she objects to;
3. indicate that he/she finds such conduct offensive, intimidating and/or embarrassing;
4. insist that the person(s) engaging in the conduct stop the conduct immediately; and/or
5. report the conduct immediately to the Civil Rights Coordinator(s);

If the individual with the concern is not comfortable with such a confrontation, or feels that such a confrontation is unsafe and/or otherwise inappropriate, he/she should instead report the situation to the Civil Rights Coordinator(s). Reports/complaints are to be filed within ninety (90) days after the conduct complained of occurred or within the time the individual reasonably becomes aware of the conduct. (Note: this filing period may be extended for good cause.) Reports/complaints filed after ninety (90) days will still be accepted, however, it is important to know that the investigation may be impeded due to the passage of time after the conduct or occurrence. The report can be written or oral and should consist of the following:

1. the specific conduct objected to,
2. the date(s) and time(s) such conduct took place,
3. the name(s) of the alleged harasser(s) or person believed to be discriminating against them,
4. the location(s) where the conduct occurred,
5. the name(s) of any witness(es),
6. action sought to remedy the situation, and
7. any other details or information requested by the designated official.

The individual can contact the Civil Rights Coordinator(s) to file a report/complaint as well as to seek assistance in the filing of a report/complaint. If a report/complaint is filed, the person should provide the Civil Rights Coordinator(s) with any documentation (emails, notes, pictures, etc.) or other information in support of the allegation of discrimination, including harassment.

V. Investigation of Complaints

Upon receipt of a report or complaint, the Civil Rights Coordinator(s) should conduct a prompt investigation. The investigation must allow for the complainant, the subject of the complaint, the alleged harasser, and any other appropriate party to provide information, including witnesses or other evidence, relevant to the consideration and resolution of the complaint. The Civil Rights Coordinator(s) will also endeavor to promptly interview and obtain detailed written statements from potential witnesses. If further documentation or information is necessary, the Civil Rights Coordinator(s) will notify the appropriate party, asking that the information be provided within ten (10) school/working days.

The District will take interim steps, as necessary, to ensure the safety and well-being of the complainant and the alleged harasser while the investigation is being conducted. Interim measures are available even if the complainant does not file or continue to pursue a complaint. The Civil Rights Coordinator(s) shall

notify the complainant and the alleged harasser of specific types of interim measures available, which may include measures to avoid contact with the other party, allowing employees to change work situations as appropriate, or prohibiting contact between the parties pending the results of the District's investigation. At any time, a complainant or the alleged harasser may request either orally or in writing to the Civil Rights Coordinator that specific interim measures be taken pending the outcome of the investigation.

A written determination regarding the complaint and any resolution will be provided by the Civil Rights Coordinator to the complainant and the alleged harasser within thirty (30) school/working days of the complaint. The determination of whether the District's antidiscrimination policy has been violated will be based upon a preponderance of the evidence standard.

The complainant or the alleged harasser may request reconsideration of the determination and/or resolution of a complaint by notifying the Superintendent in writing or verbally within seven (7) school/working days of receipt of the written determination of the Civil Rights Coordinator. The Superintendent or his/her designee will respond to such request with notice to both parties within (30) thirty school/working days of receipt of the request for reconsideration; his/her decision is final.

If a violation is found to have occurred, the District will take steps to prevent recurrence of the violation and correct its discriminatory effect on the person(s) affected. Such steps may include appropriate disciplinary action, counseling, development of a safety plan and other remedies, as appropriate.

VI. Consequences of Violating Policy - Discipline & Discharge

Any employee who violates this policy will be subject to disciplinary action consistent with the contractual provisions governing his/her employment. In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

Any student who violates this policy will be subject to disciplinary action which may range from detention, suspension from schools, or expulsion from school. (Note: students with disabilities will be subject to the applicable disciplinary procedures set forth in the Students' Rights and Responsibilities District handbook, which adhere to Individuals with Disabilities Education Act and Section 504 of Rehabilitation Act of 1973.) In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

VII. Confidentiality

Investigations of discrimination, including harassment complaints shall be conducted in such a manner as to disclose information only to those with a need to know or those who may have information pertinent to the investigation. Please note, some level of disclosure may be necessary in the course of conducting interviews in connection with investigation of any complaint under this policy. The District shall endeavor to keep such information as confidential as it can without compromising the thoroughness of the investigation.

VIII. State and Federal Authorities

In addition to the process described above, the complainant may, at any time, file a complaint with the U.S. Department of Education Office for Civil Rights, Massachusetts Commission Against Discrimination, Massachusetts Department of Elementary and Secondary Education, or other appropriate federal or state agency charged with enforcement of state and federal laws prohibiting discrimination, including harassment based on membership in a protected class.

IX. Procedure for Reporting and Investigating Harassment on the Basis of Sex

Notice: The school is considered to have actual knowledge of a sexual harassment complaint if notice of sexual harassment or an allegation of sexual harassment is provided to a Title IX Coordinator, any school official, or any school employee. The School will investigate every formal complaint (which may be filed by a complainant or by a school's Title IX Coordinator). If the alleged conduct does not fall under Title IX, then a school may address the allegations under the school's code of conduct and can still provide supportive measures. The school is required to investigate the allegations in a complaint, send written notice of the allegations to both parties upon receipt of a formal complaint, and investigate under specified procedures. Schools are required to investigate every formal complaint and respond meaningfully to every known report of sexual harassment.

Reporting: Any person may file a report of sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), at any time either in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. However, if a person files a false complaint in bad faith, knowingly and intentionally, they will be subject to discipline.

Investigations: The School will investigate and adjudicate formal complaints of sexual harassment using a grievance process that incorporates due process principles, treats all parties fairly, and reaches reliable responsibility determinations. The school's grievance process will:

- Give both parties written notice of the allegations, an equal opportunity to select an advisor of the party's choice (who may be, but does not need to be, an attorney), and an equal opportunity to submit and review evidence throughout the investigation;
- Use trained Title IX personnel to objectively evaluate all relevant evidence without prejudgment of the facts at issue and free from conflicts of interest or bias for or against either party;

- Protect parties' privacy by requiring a party's written consent before using the party's medical, psychological, or similar treatment records during a grievance process;
- Obtain the parties' voluntary, written consent before using any kind of "informal resolution" process, such as mediation or restorative justice, and not use an informal process where an employee allegedly sexually harassed a student;
- Apply a presumption that the respondent is not responsible during the grievance process (often called a "presumption of innocence"), so that the school bears the burden of proof and the standard of evidence is applied correctly;
- Use the preponderance of the evidence standard for all complaints of harassment on the basis of sex, regardless of whether the complaint is against students or district employees;
- Ensure the decision-maker is not the same person as the investigator or the Title IX Coordinator (i.e., no "single investigator models");
- Parties may submit written questions for the other parties and witnesses to answer;
- Protect all complainants from inappropriately being asked about prior sexual history ("rape shield")
- Send both parties a written determination regarding responsibility explaining how and why the decision-maker reached conclusions;
- Effectively implement remedies for a complainant if a respondent is found responsible for sexual harassment;
- Offer both parties an equal opportunity to appeal;
- Protect any individual, including complainants, respondents, and witnesses, from retaliation for reporting sexual harassment or participating (or refusing to participate) in any Title IX grievance process;
- Make all materials used to train Title IX personnel publicly available on the school's website or, if the school does not maintain a website, make these materials available upon request for inspection by members of the public; and
- Document and keep records of all sexual harassment reports and investigations for at least seven years.

Record Keeping for Sexual Harassment Complaints

Schools must create and maintain records documenting every Title IX sexual harassment complaint. Records relating to complaints of sexual harassment must be kept in accordance with the records retention schedule. Such records include: records of a school's investigation (including complaints (formal and informal), notices, the determination, investigative report, disciplinary measures or remedies, etc.); records of any appeals and materials associated with the appeal; records of any supportive measures taken in response to a complaint of sexual harassment (even if the complainant does not file a formal complaint); records of any informal resolution process; all materials used to train Title IX Coordinators, Investigators, decision makers, and those facilitating an informal resolution. The training materials must be kept on the School's website.

Retaliation is prohibited.

Any person who experiences retaliation for exercising their rights under Title IX can file a retaliation complaint with the Title IX Coordinator. The school will keep the names/identity of parties and witnesses confidential unless such disclosure is required under another law, or is necessary to conduct a thorough grievance procedure.

Supportive Measures

When alleged sexual harassment is reported, the Title IX Coordinator must inform the victim to their right of supportive measures even if not formal complaint is filed. The school must consider the alleged victim's wishes with respect to supportive measures. Supportive measures for those involved in the sexual harassment complaint process may include: counseling, extending deadlines, modifications of work and/or class schedules, school escort services, increased school security and/or monitoring, mutual restrictions on contact between the individuals involved through a safety plan.

Supportive measures will be kept confidential whether they are provided to the alleged victim or accused person to the extent the confidentiality will not interfere with the supportive measure offered.

The Southwick-Tolland-Granville Regional School District is committed to providing a safe environment in schools during the ongoing COVID-19 pandemic. Maintaining a safe environment is critical to the District's ability to returning students and staff to a full-time classroom learning experience.

According to public health experts, one of the best ways to stop the spread of coronavirus and to keep members of our school community safe is the use of face masks. Therefore, using the guidance and recommendations from the Center for Disease Control (CDC), the Department of Elementary and Secondary Education (DESE) and the Massachusetts Department of Public Health (DPH), the District has established the following requirements which will remain in place until further notice.

A face mask that covers the nose and mouth must be worn by all individuals in school buildings and on school transportation.

In addition, masks will not be required for anyone who has a medical, behavioral or other challenge making it unsafe to wear a face mask. A written note from a physician is required for a requested exemption. Parents may not excuse their child from the face mask requirement by signing a waiver.

Additionally, face masks will not be required when appropriate social distancing is enforced:

- during mask breaks.
- while eating or drinking.
- during physical education classes.
- while outside.

Exceptions to this policy under certain circumstances, such as for students with medical, behavioral or other challenges who are unable to wear masks, must be approved by the building principal in consultation with the school nurse or local Board of Health. Face shields or physical barriers may provide an alternative in some instances.

A student's mask is to be provided by the student's family. Staff members are responsible for providing their own face mask. However, the district will supply disposable face covering for individuals who arrive at a building, or board school transportation, without one.

If students are in violation of this policy, the building principal will consult with the parent/guardians to determine whether an exception is appropriate. If an exception is not appropriate the principal will follow progressive discipline as outlined in the handbook.

Violations of this policy by staff will be handled in the same manner as other violations of School Committee policy.

Visitors in violation of this policy will be denied entry to the school/district facility.

For the purposes of this policy, neck gaiters and bandanas do not constitute a face mask. This policy will remain in place until rescinded by the School Committee.

CODE: BUS STOP PROCEDURE FOR ELEMENTARY STUDENTS

Category: Students

Adopted: 5/17/16

File No.: EEAED

Revised: 11/05/2018

K – 2 Bus Stop Standard Procedure:

The health and safety of young children is a primary concern of the Southwick Tolland Granville Regional School District. Therefore, no Preschool, Kindergarten or Special Needs Child (as identified) will be left at a bus stop unless there is a responsible adult present who will assume all responsibility for the child. A parent/guardian may submit a note to dismiss a child to an older sibling or to another adult. If there is no sibling or responsible adult present to retrieve the child, the child will be brought back to the school. Students beyond the kindergarten level will be released from the bus unless the bus driver has concern for the child's safety. Bus drivers will have the discretion to determine if a child should be returned to the school.

Grades K-2 Bus Stop Exception:

Occasionally, a child's designated bus stop is in a location that requires an adult to drive to the bus stop to retrieve his or her child (e.g., bus drop off is not in the child's own neighborhood – it may be a parking lot of a business). When this is the case for a student in grades K-2 and a responsible adult is not present at the bus stop, the child will be brought back to the school; unless a parent/guardian submits a note to dismiss a child to an older sibling or to another adult who will assume all responsibility for the child.

In the event no parent or designee is at the bus stop the procedure will be:

1. The bus driver will contact the district and may bring the child back to the school
2. The school will call the parent/guardian or emergency contact
3. If the parent has not been reached after a reasonable amount of time, the police will be notified.
4. The police and/or school personnel will remain with the child until a responsible adult/guardian is reached.

Recordings may be used as evidence in the discipline/prosecution of students, staff and the public. Recordings used for said purpose shall be retained by the District until the final resolution of any discipline/prosecution, including the time period for appeal or a court ordered retention period (if any). Recordings not used for discipline, law enforcement or court action will be erased and the recorded media reused at the direction of the Superintendent or designee. CODE: FOOD ALLERGY POLICY

Category: UPPOORT SERVICES

Adopted: 10/2/07

File No.: EFAB

Revised:

The Southwick-Tolland-Granville Regional School District recognizes the increasing prevalence of student allergies and the life-threatening nature of allergies for many students. The school district administration has developed and implemented a policy and protocol to minimize the risk of exposure to allergens that pose a threat to students, to educate all members of the school community on management of student allergies, and to plan for the needs of students with allergies. The schools are committed to working with allergic students and their parents to address the students' emotional and social needs in addition to their health needs.

Food allergies can be life threatening. The risk of accidental exposure to foods can be reduced in the school setting if schools work with students, parents, and physicians to minimize risks and provide a safe educational environment for food-allergic students.

Family's responsibility

-Notify the school of the child's allergies each new school year.

-Work with the school team to develop a plan that accommodates the child's needs throughout the school including classroom, in the cafeteria, during school sponsored activities, and on the school bus, as well as a Food Allergy Action Plan.

-Provide written medical documentation, instructions, and medications as directed by a physician, using the Food Allergy Action Plan as a guide. Include a photo of a child on a written form.

-Provide properly labeled medications and replace medications after use or upon expiration.

-Encourage parents to have allergic child wear Medic Alert necklace or bracelet.

-Educate the child in the self-management of their food allergy including:

- safe and unsafe foods
- strategies for avoiding exposure to unsafe foods
- symptoms of allergic reactions
- how and when to tell an adult they may be having an allergy-related problem
- how to read food labels (age appropriate)

-Review policies/procedures with the school staff, the child's physician, and the child after a reaction has occurred.

-Provide emergency contact information

-Parents are strongly encouraged to inform the bus or van driver, and any substitute driver when possible, about their child's allergy.

School's responsibility

- Be knowledgeable about and follow applicable federal laws including ADA, IDEA, Section 504, and FERPA and any state laws or district policies that apply.
- Review the health records submitted by parents and physicians.
- Include food-allergic students in school activities. Students should not be excluded from school activities solely based on their food allergy.
- Assure that all staff who interact with the student on a regular basis (including bus, van, and substitute drivers) understand food allergy, can recognize symptoms, knows what to do in an emergency, and works with other school staff to eliminate the use of food allergens in the allergic student's meals, educational tools, arts and crafts projects, or incentives.
- All staff members who interact with the student on a regular basis will be trained on the management of student allergies. The training will address prevention efforts, information about common allergens, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan. The training will be provided annually at the start of the school year.
- Appropriate staff members will be trained regarding the administration of an Epi-pen, as outlined in the Department of Public Health regulations. All staff members will be informed of the location of the Epi-pens.
- Work with the district transportation administrator to assure that school bus/van driver training includes symptom awareness and what to do if a reaction occurs.
- Enforce a "no eating" policy on school buses. Exceptions will be provided for those students with diabetes who may need a snack to treat a hypoglycemic episode or for circumstances where students are traveling for long periods of time. Students will be informed of this policy at the beginning of each school year, and said policy will be included in each school handbook.
- Discuss field trips with the family of food allergic child to plan appropriate strategies for managing the food allergy.
- Follow federal/state/district laws and regulations regarding sharing medical information about the student.
- Take threats or harassment against allergic child seriously.
- Substitute teachers, when applying for employment, will be provided information on the management of student allergies. This information will address prevention efforts, information about common allergies, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan.
- An Individual Health Care Plan and Allergy Action Plan that addresses management will be developed for each student with an allergy. A copy of the Allergy Action Plan will be provided to the classroom teacher and substitutes for all preschool to grade 5 students and to all core subject teachers for middle school students. The protocol will address how much information about student allergies will be provided to other personnel, such as specialists, as needed. The implementation of the District protocol and of the individual plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

Student's responsibility

- Should not trade food with others.
- Should not eat anything with unknown ingredients or known to contain any allergen.

-Should be proactive in the care and management of their food allergies and reactions based on their developmental level.

-Should notify an adult immediately if they eat something they believe may contain food to which they are allergic.

Classroom management procedures

-Appropriate accommodations may be made in the classroom.

-Procedures will address education of parents and student and planning for special events involving food. The protocol will allow for age-appropriate classroom rules. For preschool to grade 4 students, the classroom teacher, in collaboration with the nurse and with input from parents of the food allergic child, will develop classroom specific protocol regarding management of food in the classroom.

Kitchen and cafeteria procedures

-All kitchen staff will only use latex-free gloves

-The school kitchen will prepare all products in a manner that will minimize the risk of cross contamination of foods. The preparation area and all utensils will be washed in hot, soapy water immediately after the completion of the task.

-All food products will be clearly labeled as to ingredients.

-Peanut/nut-free table (or areas of tables) will be provided as needed and will be clearly identified. Allergy tables are to be positioned in a manner that minimizes the isolation of allergic students. When feasible, other students will be encouraged to sit at allergen-free tables if appropriate measures are in place to minimize cross-contamination of the allergen-free tables.

-The staff on lunch duty will ensure that the allergen-free table(s) and chairs will be washed before lunches begin and after each group finishes. The same tables will be used each day and will be clearly marked as allergen-free. Volunteers and/or substitutes will be informed which tables are allergen-free.

-Staff and volunteers on lunch duty shall monitor the students' compliance with the food allergy protocol at allergen-free table(s). They should also be aware of any bullying or teasing behavior toward a food-allergic student and report any such incidents to the administrator.

-Students will be discouraged from sharing any food or utensils throughout the cafeteria.

Procedure for handling epinephrine

-Each school must maintain a current supply of epinephrine by auto-injector (Epi-pens) and must comply with all Department of Public Health regulations for administration, storage, and record-keeping concerning epinephrine.

-The school nurse shall register with the Department of Public Health, and shall train other school personnel to administer epinephrine in accordance with 105 CMR 210.

-All staff members will be informed of the location of the Epi-pens.

Emergency response procedures

-All staff members supervising students with life-threatening allergies must have means of communication to call for assistance.

-The school nurse or another school staff member trained to administer epinephrine in accordance with 105 CMR 210 must be available in each school during the school day and must accompany food allergic student on field trips. The protocol must provide for the management of anaphylaxis in individuals with unknown allergies, including an authorization for administration of epinephrine by the school nurse signed by the school physician.

The implementation of the District protocol and of the individualized plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

CODE: UNPAID MEAL CHARGE POLICY

Category: Support Services

Adopted: 5/21/2020

File No.: EFDA

Revised:

The School Committee is committed to providing students with healthy, nutritious meals each day so they can focus on school work, while also maintaining the financial integrity of meal programs and minimizing any impact on students with unpaid meal charges (i.e. purchases of meals made against an account with an insufficient balance). However, unpaid meal charges can place a significant financial burden on the School District, as the school nutrition operation is intended to be a self-supporting program within the District and operational deficits must be funded by the general fund or other financial resources of the District. The purpose of this policy is to ensure compliance with federal reporting requirements of the USDA Child Nutrition Program, as well as provide oversight and accountability for the collection of outstanding student meals account balances.

The provisions of this policy pertain to regular priced school meals only.

Meal Charges and Balances

Students will pay for meals at the regular rate approved by the School Committee and for their meal status (regular, reduced-price, or free) each day. Payment options will be delineated in student handbooks and provided to parents of incoming students. All students will be assigned an account by the School Nutrition Office. After a student's account reaches zero or enters the negative, the student's parent/guardian will be notified by e-mail or phone call that funds must be deposited to avoid interruption to meal purchases. Student's with balances at or below \$0.00 will not be allowed to purchase "a la carte" items including, but not limited to, a second entrée, snack, ice cream, or an additional beverage. For students in grades Pre-K through 6, the student will still be allowed to purchase a qualifying reimbursable meal, and that meal will continue to be charged to the student's account at the standard meal rate based on their meal status. For students in grades 7 through 12, the student will be allowed to purchase a qualifying reimbursable meal until the student's meal account reaches the negative value equivalent to five (5) regular qualifying reimbursable meals. Students in grades 7 through 12 with account balances at or below the negative value equivalent to five (5) regular qualifying reimbursable meals who attempt to purchase meals shall be denied at the point of sale.

Payments

Parents/guardians are responsible for all meal payments to the School Nutrition Program. Notices of low or deficit balances will be sent directly to parents/guardians via email or regular postal mail at regular

intervals during the school year. At no time shall any staff member give payment-due notices or account statements to students unless a student is known to be an emancipated minor who is fully responsible for themselves, or is over the age of 18. If parents/guardians have questions or concerns regarding student purchases and/or account balances, they should contact the School Nutrition Office.

Parents/guardians must pay for meals in advance. Further details are available on the District's website and in student handbooks. Sufficient funds should be maintained in student accounts to minimize the possibility that a student may be without a sufficient balance on any given day. At the conclusion of the school year any remaining funds for a particular student, whether positive or negative, will be carried over to the next school year.

All school cafeterias will utilize computerized point-of-sale register systems that maintain records of all monies deposited and spent for each student and those records shall be available to parents through an online account or by speaking with the school's kitchen manager or the Director of School Nutrition. The point-of-sale system shall be designed to prevent direct identification of a student's meal status. Parents/guardians will receive notification of low-balance accounts via email or regular postal mail on a weekly basis, if applicable. For accounts with persistent negative balances, parents/guardians will be contacted by phone by the School Nutrition Office. Accounts that remain at a negative balance for 30-days or more will be referred to the District's Business Office for further collection efforts.

Refunds

Refunds of account balances for withdrawn and graduated students require a written request by the parent/guardian. Parents/guardians of graduated students also have the option to transfer funds to a sibling's account or to donate the balance to another student's account with a written request to the Director of School Nutrition.

Delinquent Accounts/Collections

Accounts that remain in a delinquent status may result in a student's loss of access to extra-curricular school services, especially those that are fee based. Graduating seniors may lose the ability to participate in certain graduation-related activities.

The Superintendent of Schools shall ensure that there are appropriate and effective collection procedures and internal controls within the School District's Business Office that meet the requirements of law.

If a student is without a lunch and his/her meals account is in a delinquent status on a consistent basis, the school administration may investigate the situation more closely and take further action as necessary. If evidence of financial hardship exists or is suspected, parents/guardians will be encouraged to pursue eligibility for free or reduced price meals for their child. Each school handbook shall contain detailed instructions for parental assistance.

Policy Communications

This policy shall be communicated to all related staff and families at the beginning of each school year and to families transferring to the District during the school year.

As required by law, the school committee will annually prior to March 1 determine the number of school-age children of limited English-speaking ability residing in the city. Whenever there are more than 20 such children of one language group (excluding children in parochial schools) the school committee will provide a program in transitional bilingual education.

Any child whose primary language is other than English and who has difficulty performing ordinary class work in English may participate in these classes. The classes will consist of students of approximately the same age and level of educational attainment. Classes may also be offered in preschool and summer school programs.

Within 10 days after a student's enrollment in the transitional bilingual educational program, the student's parents or guardian will be provided with, in both English and their native language, the following information:

1. A clear statement of the purpose, method, and content of the transitional bilingual education program.
2. A statement of parental rights, which include:
 - a. visits to the transitional bilingual classes
 - b. conferences with school personnel
 - c. right to withdraw the student at any time upon written notification to the school authorities

The offering of this program makes it necessary to provide sufficient numbers of bilingual teachers and aides to implement it. The school committee will make every effort to recruit and develop a highly qualified and motivated staff to carry out this program.

Revised: 5/21/2019

Purpose

The School Committee recognizes the need for students to be prepared to contribute to and excel in a connected, global community. To that end, the District provides ongoing student instruction that develops digital citizenship skill sets for using technology as a tool. Information and communication technology are an integrated part of our curriculum across subjects and grades in developmentally appropriate ways and are aligned with the Massachusetts Curriculum Frameworks and standards, including seeking knowledge and understanding; thinking critically and solving problems; listening, communicating, and interacting effectively; and engaging and competing in a global environment.

Availability

The Superintendent or designee shall implement, monitor, and evaluate the District's system/network for instructional and administrative purposes.

All users shall acknowledge that they understand that using digital devices, whether personal or school owned, as well as the school District network is a privilege and when using them in accordance with School District guidelines users will retain that privilege.

The Superintendent or designee shall develop and implement administrative guidelines, regulations, procedures, and user agreements, consistent with law and policy, which shall include but not be limited to the following:

- Digital devices, software, and networks shall be used in school for educational purposes and activities.
- The District will comply with all relevant privacy laws relating to personal information that is disseminated using the District's system/network (including home/mobile phone numbers, mailing addresses, and passwords).
- Individuals will show respect for themselves and others when using technology including social media. (CROSS REF: IJNDD Policy on Social Media)
- Users shall give acknowledgement to others for their ideas and work.
- Users shall report inappropriate use of technology immediately.
- The Network is the property of the STGRSD and its storage systems are therefore subject to inspection by the administration at any time. As such, users should be aware that routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the STGRSD Empowered Digital Use District Policy, and/or the law. System users should not have an expectation of privacy to the contents of their personal files on the Network.
- If there is suspicion that a user has violated the Empowered Digital Use District Policy or the law an individual search will be conducted. The nature of the investigation will be in the context of the nature of the alleged violation.

These procedures shall be reviewed annually by District administration together with students and teachers and shall provide a springboard for teaching and learning around topics such as Internet safety, digital citizenship, and ethical use of technology.

Parent/Guardian Notification

The STGRSD Empowered Digital Use Policy establishes expectations for appropriate behavior when using District technology. There is a wide range of material available on the Internet, some of which may not be in concert with the particular values of the families of students. It is not practically possible for the STGRSD to monitor and enforce a wide range of social values in student use of the Internet. Further, the District recognizes that parents/guardians bear primary responsibility for communicating their particular set of family values to their children. The District will encourage parents/guardians to specify to their children what material they believe is and is not acceptable for their children to access through the Network. The District will utilize an Empowered Digital Use Form to inform students about what type of materials and behaviors are acceptable and expected. STGRSD will also provide students with instruction about personal safety and well-being while using the Internet and technology through the Massachusetts Digital Literacy and Computer Science curriculum.

District Limitation of Liability

The STGRSD makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through its Network will be error free or without defect. The District will not be responsible for any damages users may suffer, including but not limited to loss of data, interruptions of service, or physical, psychological, or monetary damages. The District is not responsible for the accuracy or quality of the information obtained through or stored on the system. The District will not be responsible for unauthorized financial obligations arising through the use of the system.

Revised:

The philosophy of the school committee concerning academic achievement, as well as children's social growth and development, is based on the premise that children have diverse capabilities and individual patterns of growth and learning.

Therefore, the committee feels it is important that teachers have as much and as accurate knowledge of each student as possible in order to assess his needs, his growth, and make instructional plans for him. A sharing of information among parent, teacher, and student is essential.

The committee supports staff efforts to find better ways to measure and report student progress. It will require that:

1. Parents be informed regularly, and at least four times a year, of the progress their children are making in school.
2. Parents will be alerted and conferred with as soon as possible when a child's performance or attitude becomes unsatisfactory or shows marked or sudden deterioration.
3. Insofar as possible, distinctions will be made between a student's attitude and his academic performance.
4. At comparable levels, the school system will strive for consistency in grading and reporting except as this is inappropriate for certain classes or certain students.
5. When no grades are given but the student is evaluated informally in terms of his own progress, the school staff will also provide a realistic appraisal of the student's standing in relation to his peers.
6. When grades are given, the school staff will take particular care to explain the meaning of marks and symbols to parents.

In compliance with the federal McKinney-Vento Homeless Education Assistance Act the STGRSD will immediately enroll homeless students in school, even if they do not have the documents usually required for enrollment, such as school records, medical records or proof of residency. If a homeless child or youth arrives without immunizations or medical records, the parent/guardian will be referred to the STGRSD Homeless Education Liaison. The Homeless Education Liaison will have the responsibility to obtain relevant academic records, immunizations and/or medical records and to ensure that homeless students are attending school while the records are obtained.

It is the policy of the STGRSD that a child is homeless if living in one of the following situations:

- In a shelter, motel, vehicle or campground
- On the street
- In an abandoned building or trailer
- Doubled-up with friends or relatives

If a child lives in any of the situations noted above, the STGRSD Homeless Education Liaison will:

- Help to immediately enroll the child in school
- Assist the child in staying in their old school or the school closest to where they are presently staying
- Put transportation in place to and from school
- Ensure that the child gets automatic free breakfast and lunch
- Ensure the child receives the same services as other students
- Ensure the child is aware of their right to attend classes even while the school and child seek to resolve a dispute over enrollment

CODE: STUDENT ABSENCES AND EXCUSES

Category: Students

File No.: JH

Adopted: 10/4/05

Revised: 10/21/14

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the Principal or designee.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his character. Parents can help their children by not allowing them to miss school needlessly.

Accordingly, parents will provide a written explanation for the absence or tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

Student Absence Notification Program

Each Principal or designee will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

Each Principal or designee shall meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

Dropout Prevention

No student who has not graduated from high school shall be considered permanently removed from school unless the Principal or designee has sent notice to a student, and that student's parent/guardian, who has been absent from school for ten (10) consecutive days of unexcused absence. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if applicable.

The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within the ten (10) day timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days.

The Superintendent or designee may proceed with any interview without a parent/guardian present, provided the Superintendent or designee has documented a good faith effort to include the parent/guardian.

The Superintendent or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

CODE: STUDENT RIGHTS AND RESPONSIBILITIES

Category: Students

Adopted: 10/4/05

File No.: JI

Revised:

The school committee has the responsibility to afford students the rights that are theirs by virtue of guarantees offered under the federal and state constitutions and statutes. In connection with rights there are responsibilities that must be assumed by students.

Among these rights and responsibilities are the following:

1. Civil rights – including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension, expulsion, and decisions the student believes injures his rights.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right of privacy, which includes privacy in respect to the student's school records.

It is the school committee's belief that as part of the educational process students should be made aware of their legal rights and of the legal authority of the school committee to make, and delegate authority to its staff to make, rules regarding the orderly operation of the schools.

Students have the right to know the standards of behavior that are expected of them, and the consequences of misbehavior.

The rights and responsibilities of students, including standards of conduct, will be made available to students and their parents through handbooks distributed annually.

CODE: STUDENT CONDUCT

Category: Students

Adopted: 10/4/05

File No.: JIC

Revised: 10/21/14

04/24/2018

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal or designee shall include prohibited actions in the student handbook or other publication and made available to students and parents.

Principals/designee and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal or designee may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

Suspension

In every case of student misconduct for which suspension may be imposed, a Principal or designee shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension

Except for emergency removal or an in-school suspension of less than 10 days, a Principal or designee must provide the student and the parent oral and written notice, and provide the student an opportunity for a hearing and the parent an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal or designee shall provide both oral and written notice to the student and parent(s) in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent present, the Principal or designee must be able to document reasonable efforts to include the parent.

Emergency Removal

A Principal or designee may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's or designee's judgment, there is no alternative available to alleviate the danger or disruption.

The Principal or designee shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal or designee shall: Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice; Provide written notice to the student and parent as required above; Provide the student an opportunity for a hearing with the Principal or designee that complies with applicable regulations, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal or designee, student, and parent; render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal or designee shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension – Not More Than 10 Days Consecutively or Cumulatively

The principal or designee may use in-house suspension as an alternative to a short-term suspension. It is the principal's responsibility to inform the student of the disciplinary charge and to provide the student the opportunity to dispute the charges and explain the circumstances. If the principal determines that the

student committed the offense, the principal must inform the student of the length of the suspension which may not exceed ten days cumulatively or consecutively, in a school year.

It is the principal's, or designee's, responsibility to orally inform the parent of the disciplinary offense, the reasons for concluding that the student committed the infraction and the length of the in-school suspension. The principal must also invite the parent/guardian to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. The principal needs to schedule the parent/guardian meeting for the day of the suspension or as soon as possible, and must document at least two attempts to reach the parent for the purpose of orally informing the parent. Additionally, the principal must send written notice to the student and the parent/guardian about the in-school suspension, inviting the parent to a meeting if such meeting has not occurred, which must be delivered on the day of the suspension.

Principal's or Designee's Hearing – Short Term Suspension of up to 10 Days

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal or designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal or designee should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal or designee shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal or designee shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

Principal's or Designee's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal or designee may rely in making a determination to suspend the student or

not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal or designee, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the Principal or designee shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal or designee should consider in determining consequences for the student.

The Principal or designee shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal or designee shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the Principal or designee and the parent.

If the Principal or designee decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal or designee; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's or designee's decision to the Superintendent or designee, but only if the Principal or designee has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, and shall include the following information: The process for appealing the decision, including that the student or parent must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Principal's or designee's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Principal or designee shall have the right to appeal the Principal's or designee's decision to the Superintendent.

The student or parent shall file a notice of appeal with the Superintendent within the time period noted above (see Principal or designee's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that

would allow the parent and Superintendent to participate. The Superintendent shall send written notice to the parent of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The Superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request. The student shall have all the rights afforded the student at the Principal's or designee's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal or designee, but shall not impose a suspension greater than that imposed by the Principal's or designee's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Expulsion

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal or designee determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student alleged to have committed one of these acts shall be afforded the same due process rights as for a long term suspension. Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal or designee shall inform the student and parent of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal or designee shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal or designee shall notify the parent and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal or designee of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

BUS REGULATIONS

Transportation by school bus to and from school is a privilege for all pupils who qualify according to the Rules and Regulations of the School Committee and the Laws of the Commonwealth of Massachusetts. The school bus is an extension of the school itself and rules regarding behavior are the same as in school. It should be understood that the right of a pupil to transportation to and from school is a qualified right dependent on good behavior. Some of the following regulations are supported by State Law, violations to parts of the following rules are punishable by fines:

1. On roads and highways where there are no sidewalks, students walk on the side facing traffic to and from a bus stop.
2. Students must be on time at pick-up point, the bus stop, five minutes before the regular pick-up time. Dogs should be restrained in homes until after bus leaves in the morning.

6. Students will take their seats promptly on entering the bus and remain in it until they arrive at their destination.
7. Students will ride only on their assigned bus; seats may be assigned by the Bus Driver.

The Principal is responsible for the implementation and oversight of the bullying prevention and implementation plan within his or her school.

Reporting

Students, who believe that they are a target of bullying, observe an act of bullying, or who have reasonable grounds to believe that these behaviors are taking place, are obligated to report incidents to a member of the school staff. The target shall, however, not be subject to discipline for failing to report

Each school shall have a means for anonymous reporting by students of incidents of bullying. No formal disciplinary action shall be taken solely on the basis of an anonymous report.

If the school Principal or a designee determines that bullying has occurred they shall take appropriate disciplinary action and if it is believed that criminal charges may be pursued against the perpetrator, the principal shall consult with the school's resource officer and the Superintendent to determine if criminal charges are warranted. If it is determined that criminal charges are warranted, the local law enforcement agency shall be notified.

The investigation shall be completed as soon as reasonably possible, and the investigator will do his/her best to complete the investigation within fourteen school days from the date of the report. The parents or guardians shall be contacted upon completion of the investigation and informed of the results, including whether the allegations were found to be factual, whether a violation of this policy was found, and whether disciplinary action has or shall be taken. STGRSD Summary for Parents/Guardians for Handbooks

On May 3, 2010, Governor Patrick signed an Act Relative to Bullying in Schools. This new law prohibited bullying and retaliation in all public and private schools, and requires schools and school districts to take certain steps to address bullying incidents.

This plan is updated to reflect M.G.L. c. 71, § 37O as amended by Chapter 86 of the Acts of 2014 and Sections 72-74 of Chapter 38 of the Acts of July 2013, which changed the definition of “perpetrator” to include “a member of a school staff, including, but not limited to an educator, administrator, school, nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional.” The amendment also made the plan applicable to school staff, including but not limited to, the individual listed in the amended perpetrator definition.

These requirements are included in the district’s Bullying Prevention and Intervention Plan (“the Plan”). The Plan includes the requirements of the law, and information about the policies and procedures that the school or school district will follow to prevent bullying and retaliation, and to respond to it when it occurs.

This Plan will be reviewed biennially by the Superintendent and/or her/his designee, as mandated by M.G.L. c. 71, § 37O (5) (d). Consultation will include, at a minimum, notice on the STGRSD website, and a public comment period prior to adoption.

Definition of Terms

In order to work as collaboratively and as efficaciously as possible and to prevent and intervene on all acts of bullying, it is essential for school personnel, students, parents or guardians, law enforcement agencies, and other interested parties to use common language.

Aggressor, as defined in M.G. L. c.71, §37O, is a student or a member of a school staff including, but not limited to, and educator, administrators, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity, or paraprofessional who engages in bullying or retaliation towards a student.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students or a member of a school staff of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

1. Causes physical or emotional harm to the target or damage to the target’s property;
2. Places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
3. Creates a hostile environment at school for the target;
4. Infringes on the rights of the target at school; or

5. Materially and substantially disrupts the education process or the orderly operation of a school.

Cyber-bullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

School Staff includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, and athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

Target is a student against whom bullying, cyberbullying, or retaliation has been perpetrated.

Prohibition against Bullying

Bullying is prohibited:

- on school grounds,
- on property immediately adjacent to school grounds,
- at a school-sponsored or school-related activity, function, or program, whether it takes place on or off school grounds,
- at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school,
- through the use of technology or an electronic device that is owned, leased or used by a school district or school (for example, on a school computer or over the Internet using a school computer),
- at any program or location that is not school-related, or through the use of personal technology or electronic devices, if the bullying creates a hostile environment at school for the target, infringes on the rights of the target at school, or materially and substantially disrupts the education process or the orderly operation of a school.
- Nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is prohibited.

Reporting Bullying

To support efforts to respond promptly and effectively to bullying and retaliation, the STGRSD has policies and procedures in place for receiving and responding to reports of bullying or retaliation. These

policies and procedures will ensure that members of the school community – students, parents, and staff – know what will happen when incidents of bullying occur.

Reporting bullying or retaliation

Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member must be recorded in writing. All employees are required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. The school or district will make a variety of reporting resources available to the school community including, but not limited to, an Incident Reporting Form and each school's telephone number.

Use of an Incident Reporting Form is not required as a condition of making a report. The school or district will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the principal or designee; and 3) post it on the district's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

School staff members must report immediately to the principal or his/her designee if they witness or become aware of bullying or retaliation. Staff members include, but are not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity, and paraprofessionals.

When the school principal or his/her designee receives a report, he or she shall promptly conduct an investigation. If the school principal or designee determines that a violation of the district's anti-bullying policy has occurred he or she shall (i) notify the parents or guardians of the target, and to the extent consistent with state and federal law, notify them of the action taken to prevent any further acts of bullying or retaliation; (ii) notify the parents or guardians of the aggressor; (iii) take appropriate disciplinary action; and (iv) notify the local law enforcement agency if the school principal or designee believes that criminal charges may be pursued against the aggressor.

Professional Development for School and District Staff

The STGRSD will provide ongoing professional development to increase the skills of all staff members to prevent, identify, and respond to bullying.

The School committee recognizes that today's society is different from previous generations. Cell phones and portable communication devices (PCDs) play an important part in employee and student safety and communications. Cell phones and PCDs are defined as current and emerging technologies that are wireless units that send and/or receive electronic communications in an analog or digital data transmission. The possession or use of cell phones and PCDs are prescribed for employees and students as follows:

Employees

1. Employees of Southwick-Tolland-Granville Regional School District are granted permission to possess and use cell phones and PCDs in the official job capacity consistent with their job descriptions.
2. Employees who own a personal cell phone and /or PCD must ensure that the device does not ring or interrupt the academic classroom environment or the job performance of the employee. Employees must take pro-active steps to ensure that the cell phones do not ring during their instructional hours and meetings which are obligations of the job.

Students

1. Students may possess and carry cell phones and PCDs; however, these units must be "off and away" during the academic school day to ensure that disruptions and interference of the instructional and academic climate of the school do not occur. Southwick-Tolland-Granville Regional School District is committed to ensuring the health and safety of all our students. The following concussion policy is in compliance with the MIAA policy and with the Commonwealth of Massachusetts General Law (105 CMR 201): Head Injuries and Concussions in Extracurricular Athletic Activities.

The Athletic Director of Southwick-Tolland Regional High School shall be the person responsible for the implementation of these policies and protocols for all high school athletics.

- Athletic Director
- Certified Athletic Trainers
- Coaches
- Volunteers
- School Physicians
- School Nurses
- Marching band directors
- Intramural supervisors
- Parents of a student who participates in athletics
- Students who participate in athletics

(Parents and students will sign off that they have received the materials at the mandatory information meeting)

Coaches, trainers, and volunteers will be responsible for teaching proper form, technique, and skills that minimize the risk for sports related head injury.

Parents must provide information regarding any prior head injury, including concussions, on the athletics emergency medical form and must inform the school of any head injury or concussion that may occur outside of school. Parents and students must fill out all appropriate forms, including a sports physical examination, in order to be deemed eligible to participate in athletics.

The following procedures will be followed in the event an athlete is suspected to have suffered a concussion:

- The athletic trainer or coach will notify the athletic director and school nurse and fill out the Concussion Reporting Form.

- The school nurse will contact the athlete's teachers and guidance counselor to make any academic accommodations necessary.
- The athlete will only be allowed to return to play after being cleared by the medical provider that diagnosed the concussion, and after completion of the Return to Play Protocol (see "Return to Play Protocol" in the Athletic Handbook) conducted by the athletic trainer.

A copy of this policy will be made available in the STRHS handbook, the STRHS Athletics handbook, and on the school district webpage.

CODE: STUDENT CONDUCT

Adopted: 10/4/05

File No.: JK

Revised: 10/21/14

The Massachusetts General Laws require the School Committee to adopt written policies, rules and regulations not inconsistent with law, which may relate to study, discipline, conduct, safety and welfare of all students, or any classification thereof, enrolled in the public schools of the District.

The implementation of the general rules of conduct is the responsibility of the Principal and the professional staff of the building. In order to do this, each school staff in the District shall develop specific rules not inconsistent with the law nor in conflict with School Committee policy. These building rules shall be an extension of the District policies by being more specific as they relate to the individual schools.

The purpose of disciplinary action is to restore acceptable behavior. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances.

Students violating any of the policies on student conduct and control will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. Most of the situations which require disciplinary action can be resolved within the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

If a situation should arise in which there is no applicable written policy, the staff member shall be expected to exercise reasonable and professional judgment.

CODE: PHYSICAL RESTRAINT OF STUDENTS

Category: Students

Adopted: 12/4/01

File No.: JKAA

**Revised: 11/02/2015;
5/5/20**

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm. The definitions of forms of restraint shall be as defined in 603CMR 46.02.

The use of mechanical restraint, medication restraint, and seclusion is prohibited. Physical restraint, including prone restraint where permitted under 603 CMR 46.03, shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent, or designee, will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent/guardian of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents/guardians in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00,
- A process for obtaining Principal approval for a time out exceeding 30 minutes.

Each building Principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting;

The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint".

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents/guardians of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each Principal, who shall sign a form acknowledging receipt thereof.

PHYSICAL EXAMS

Regular physical exams are important for all children and adolescents, especially those who do not have primary care providers. The objective is to identify and follow up on any health conditions that may interfere with learning. M.G.L. c. 71, s. 57 and related amendments and regulations (105 CMR 200.000-200.920) require physical exams of school children within six months before entry into school or during the first year after entrance, and at intervals of either three or four years after. The Southwick-Tolland-Granville Regional School District requires physical exams for grades kindergarten, four, seven and ten.

In addition, physical examinations are required annually before participation in competitive sports. A student in the Southwick-Tolland-Granville Regional School District must pass a physical examination within thirteen months of the start of each season. Students who meet this criteria at the start of the season will remain eligible for that season. Physical examinations must be performed by a duly registered physician, physician's assistant or nurse practitioner.

ACTIVITY LIMITATIONS

If a student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations must be provided to the school so appropriate arrangements can be made if necessary.

VISION, HEARING, WEIGHT AND HEIGHT

Screenings will be performed annually on each student according to DPH guidelines with recommendations for further evaluation made to parents/guardians as indicated.

POSTURAL SCREENING

Postural screening will be done annually on all students in grades 5-9.

The School Committee recognizes the need for student fees to fund certain school activities. It also recognizes that some students may not be able to pay these fees. No student will be denied access into any program because of inability to pay these supplementary charges.

A school may exact a fee or charge only upon Board approval. The schools, however, may:

- Charge students enrolled in certain courses for the cost of materials used in projects that will become the property of the student.
- Charge for lost and damaged books, materials, supplies, and equipment

Students who are indigent are exempt from paying fees. However, indigent students are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

All student fees and charges, both optional and required, will be listed and described annually in each school's student handbook or in some other written form and distributed to each student. The notice will advise students that fees are to be paid and of the penalties for their failure to pay them. Permissible penalties include the withholding of report cards until payment is made or denial of participation in extra class activities while the student is enrolled in this District.

Any fee or charge due to any school in the District and not paid at the end of the school year will be carried forward to the next succeeding school year, as such debts are considered to be debts of the student to the District and not to a particular school.

3. If a student is 18 years of age or older, he/she alone shall exercise these rights, subject to the following. The parent may continue to exercise the rights until expressly limited by such student. Such student may limit the rights and provisions of 603 CMR 23.00 which extend to his/her parent, except the right to inspect the student record, by making such request in writing to the school principal or superintendent of schools who shall honor such request and retain a copy of it in the student record. Pursuant to M.G.L. c.71, s.34E, the parent of a student may inspect the student record regardless of the student's age.
4. Notwithstanding 603 CMR 23.01(1) and 23.01(2), nothing shall be construed to mean that a school committee cannot extend the provisions of 603 CMR 23.00 to students under the age of 14 or to students who have not yet entered the ninth grade.

Definition of Terms

The various terms as used in 603 CMR 23.00 are defined below:

Authorized school personnel: shall consist of three groups:

1. School administrators, teachers, counselors and other professionals who are employed by the school committee or who are providing services to the student under an agreement between the school committee and a service provider, and who are working directly with the student in an administrative, teaching, counseling and/or diagnostic capacity. Any such personnel who are not employed directly by the school committee shall have access only to the student record information that is required for them to perform their duties.
2. Administrative office staff and clerical personnel, including operators of data processing equipment or equipment that produces microfilm/microfiche, who are either employed by the school committee or are employed under a school committee service contract, and whose duties require them to have access to student records for purposes of processing information for the student record. Such personnel shall have access only to the student record information that is required for them to perform their duties.
3. The evaluation team evaluates a student.

Eligible student: shall mean any student who is 14 years of age or older or who has entered 9th grade, unless the school committee acting pursuant to 603 CMR 23.01(4) extends the rights and provisions of 603 CMR 23.00 to students under the age of 14 or to students who have not yet entered 9th grade.

Parent: shall mean a student's father or mother, or guardian, or person or agency legally authorized to act on behalf of the child in place of or in conjunction with the father, mother, or guardian. Any parent who by court order does not have physical custody of the student, is considered a non-custodial parent for purposes of M.G.L. c. 71, s.34H and 603 CMR 23.00. This includes parents who by court order do not reside with or supervise the student, even for short periods of time.

The term as used in 603 CMR 23.00 shall not include a person about whom a school committee maintains information relative only to the person's employment by the school committee.

The student record: shall consist of the transcript and the temporary record, including all information, recording and computer tapes, microfilm, microfiche, or any other materials, regardless of physical form or characteristics concerning a student that is organized on the basis of the student's name or in a way that such student may be individually identified, and that is kept by the public schools of the Commonwealth. The terms as used in 603 CMR 23.00 shall mean all such information and materials regardless of where they are located, except for the information and materials specifically exempted by 603 CMR 23.04.

The temporary record: shall consist of all the information in the student record which is not contained in the transcript. This information clearly shall be of importance to the educational process. Such information may include standardized test results, class rank (when applicable), extracurricular activities, and evaluations by teachers, counselors, and other school staff.

Third party: shall mean any person or private or public agency, authority, or organization other than the eligible student, his/her parent, or authorized school personnel.

Log of Access: A log shall be kept as part of each student's record. If parts of the student record are separately located, a separate log shall be kept with each part. The log shall indicate all persons who have obtained access to the student record, stating: the name, position and signature of the person releasing the information; the name, position and, if a third party, the affiliation if any, of the person who is to receive the information; the date of access; the parts of the record to which access was obtained; and the purpose of such access. Unless student record information is to be deleted or released, this log requirement shall not apply to:

- (a) Authorized school personnel under 603 CMR 23.02(9)(a) who inspect the student record;
- (b) Administrative office staff and clerical personnel under 603 CMR 23.02(9)(b), who add information to or obtain access to the student record; and

- (c) School nurses who inspect the student health record.

Access of Third Parties. Except for the provisions of 603 CMR 23.07(4)(a) through 23.07(4)(h), no third party shall have access to information in or from a student record without the specific, informed written consent of the eligible student or the parent. When granting consent, the eligible student or parent shall have the right to designate which parts of the student record shall be released to the third party. A copy of such consent shall be retained by the eligible student or parent and a duplicate placed in the temporary record. Except for the information described in 603 CMR 23.07(4)(a), personally identifiable information from a student record shall only be released to a third party on the condition that he/she will not permit any other third party to have access to such information without the written consent of the eligible student or parent.

- (a) A school may release the following directory information: a student's name, address, telephone listing, date and place of birth, major field of study, dates of attendance, weight and height of members of athletic teams, class, participation in officially recognized activities and sports, degrees, honors and awards, and post-high school plans without the consent of the eligible student or parent; provided that the school gives public notice of the types of information it may release under 603 CMR 23.07 and allows eligible students and parents a reasonable time after such notice to request that this information not be released without the prior consent of the eligible student or parent. Such notice may be included in the routine information letter required under 603 CMR 23.10.

As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

 - 2. The parent has been denied visitation, or
 - 3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or
 - 4. There is an order of a probate and family court judge which prohibits the distribution of student records to the parent.
- (b) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to 603 CMR 23.07(5)(a).

- (d) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).

- b. The general provisions of 603 CMR 23.00 regarding parent and student rights, and that copies of 603 CMR 23.00 are available to them from the school.

As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

- (g) A non-custodial parent is eligible to obtain access to the student record unless the school or district has been given documentation that:

with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).

- (k) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. CODE: VISITORS TO THE SCHOOLS

Category: Community Relations

File No.: KI

Adopted: 12/6/05

Revised:

The School Committee encourages parents and guests to visit classrooms to observe and learn about the instructional program taking place in our schools. Such visits can prove most beneficial in promotion of greater school-home cooperation and community understanding of how we carry out the school system's mission and goals.

The following guidelines to classroom and school visits should be followed:

1. For security purposes it is requested that all visitors report to the Principal's Office upon entering and leaving the building and sign a log showing arrival and departure times. Teachers are encouraged to ask visitors if they have registered in the principal's office. Visitors must wear visible "Visitor" badges at all times.
2. The building principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. Under ordinary circumstances, classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.
4. Any student who wishes to have a guest in school **MUST** ask permission of one of the administrative staff 24 HOURS in advance of the proposed visit. If permission is granted, the guest is expected to follow the standards of behavior expected of all students. Upon arrival the guest must register in the office. Any guest who fails to comply with student regulations will be asked to leave the school building and grounds immediately.

DISTRICT PROCEDURES

DISCIPLINE OF STUDENTS WITH DISABILITIES (IEP/504)

Procedures for suspensions of students with disabilities when suspensions exceed 10 consecutive school days or a pattern has developed for suspensions exceeding 10 cumulative days; responsibilities of the Team; responsibilities of the district.

1. A suspension of longer than 10 consecutive days or a series of suspensions that are shorter than 10 consecutive days but constitute a pattern are considered to represent a change in placement.
2. When a suspension constitutes a change of placement of a student with disabilities, district personnel, the parent, and other relevant members of the Team, as determined by the parent and the district, convene within 10 days of the decision to suspend to review all relevant information in the student's file, including the IEP/504, any teacher observations, and any relevant information from the parents, to determine whether the behavior was caused by or had a direct and substantial relationship to the disability or was the direct result of the district's failure to implement the IEP/504 – "a manifestation determination."
3. If district personnel, the parent, and other relevant members of the Team determine that the behavior is NOT a manifestation of the disability, then the suspension or expulsion may go forward consistent with policies applied to any student without disabilities, except that the district must still offer:
 - a. services to enable the student, although in another setting, to continue to participate in the general education curriculum and to progress toward IEP/504 goals; and
 - b. as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, to address the behavior so that it does not recur.
4. Interim alternative educational setting. Regardless of the manifestation determination, the district may place the student in an interim alternative educational setting (as determined by the Team) for up to 45 school days
 - a. on its own authority if the behavior involves weapons or illegal drugs or another controlled substance or the infliction of serious bodily injury on another person while at school or a school function or, considered case by case, unique circumstances; or
 - b. on the authority of a hearing officer if the officer orders the alternative placement after the district provides evidence that the student is "substantially likely" to injure him/herself or others.

Characteristics. In either case, the interim alternative education setting enables the student to continue in the general curriculum and to continue receiving services identified on the IEP/504, and provides services to address the problem behavior.
5. If district personnel, the parent, and other relevant members of the Team determine that the behavior IS a manifestation of the disability, then the team completes a functional behavioral assessment and behavioral intervention plan if it has not already done so. If a behavioral intervention plan is already in place, the Team reviews and modifies it, as necessary, to address the behavior. Except when he or she has been placed in an interim alternative educational setting in accordance with part 4, the student returns to the original placement unless the parents and district agree otherwise or the hearing officer orders a new placement.

6. Not later than the date of the decision to take disciplinary action, the school district notifies the parents of that decision and provides them with the written notice of procedural safeguards. If the parent chooses to appeal or the school district requests a hearing because it believes that maintaining the student's current placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.

Procedural requirements applied to students not yet determined to be eligible for special education.

1. If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:

- a. The parent had expressed concern in writing; or
- b. The parent had requested an evaluation; or
- c. District staff had expressed directly to the special education director or other supervisory personnel specific concerns about a pattern of behavior demonstrated by the student.

The district may not be considered to have had prior knowledge if the parent has not consented to evaluation of the student or has refused special education services, or if an evaluation of the student has resulted in a determination of ineligibility.

2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures consistent with federal requirements to conduct an expedited evaluation to determine eligibility.
3. If the student is found eligible, then he/she receives all procedural protections subsequent to the finding of eligibility.
