1.Wachusett Regional School District Committee

The Wachusett Regional School District Committee, elected by the citizens of Holden, Paxton, Princeton, Rutland and Sterling, is directly responsible to the Massachusetts Department of Education for the operation of the District's Schools in accordance with State Laws and Department Regulations, and to the citizens of the District for the quality of the educational program and responsible stewardship of the District's financial resources.

The Wachusett Regional School District Committee is the policy-making body and has the final authority in all matters relating to the schools. The School Committee determines policy and enacts business only when meeting as a committee in a legally called meeting.

The Wachusett Regional School District Committee recognizes that every child is entitled by law to a free public education designed to meet his or her needs and potential. The Committee recognizes its responsibility to provide an educational environment that will:

- Encourage equal opportunity for intellectual and creative growth for all children.
- Encourage opportunities for physical and emotional growth for all children.
- Encourage opportunities for independent and responsible thought and action on the part of all students.

2. Organizations

2.1.School Improvement and Modernization Council (SIMCO)

The SIMCO is an organization providing an opportunity for teachers, parents, students, and members of the community to become informed and actively participate in the educational process at Glenwood Elementary School. Included in this group are parent, teacher, and community representatives. The council meets monthly to advise and assist the principal in the following areas:

- Setting goals for the school.
- Identifying students' educational needs.
- Reviewing the school building's budget.
- Preparing the school improvement plan.

All meetings are open to the public and parental attendance is encouraged. Notices regarding times and locations of meetings are typically sent home in School Messenger the week prior to each meeting.

2.2.Glenwood Parent-Teacher Organization (P.T.O.)

The Glenwood P.T.O. is a service organization whose main function is providing educational materials and social and cultural events, which will be of mutual benefit for parents, teachers, and children. It promotes a closer working relationship between home and school by encouraging volunteers to participate at school and P.T.O. events.

One of its functions has been to raise funds for enrichment programs, field trips, equipment, and family programs and events. Officers are elected annually and consist of president (or co-presidents), vice president (or co-vice presidents), secretary, and treasurer. Members volunteer to coordinate or assist at events during meetings or through sign-up sheets.

Anyone who is interested in the Glenwood Elementary School is cordially invited to join the Glenwood

P.T.O. meetings, which are held monthly. Notices regarding times and locations of meetings are typically sent in School Messenger the week prior to each meeting. For more information about the Glenwood PTO, log into their website at www.glenwoodtogether@gmail.com.

3. School Health Issues

Students who become ill or injured will be directed to the school nurse, Mrs. Chris Lawton, (ext. 231) for assessment, evaluation, treatment, and/or referral. If the nurse is not available, students are to report to the office. Students are not to leave the building without authorization. Parents will be notified when a child must be sent home. If the parent cannot be contacted, the person indicated on the Emergency Card will be called. It is imperative that the Emergency Card be completed annually and updated as necessary.

3.1. Confidentiality (WRSDC P6650)

The Wachusett Regional School District shall encourage communication between and among school personnel, students, and parents. The Committee recognizes that circumstances may arise when a student with a personal or medical problem may seek help from a member of the faculty or administration. In such instances, the Committee will respect the confidentiality of communications between student and a teacher, counselor, nurse, or administrator; however, it is not the intention of this statement of policy to encourage interference with parental or legal authority.

3.2. School Immunization Law

In accordance with Chapter 76, Section 15, of the General Laws of Massachusetts, parents/guardians of students must provide documentation of immunizations or have on file a religious or medical exemption.

3.2.1. Immunizations

All students must be compliant with immunizations required by Massachusetts regulations (102 CMR 7.09 and 105 CMR 220.00) and established by the Massachusetts Department of Public Health. The only exemptions are for documented religious or medical reasons. (See addendum page A-21)

3.3. Physical Examinations

Massachusetts requires that a physical examination by a healthcare provider be on file with the nurse for Kindergarten entry and every four years thereafter (grades 4 and 8). Students entering the District without records or recent physicals must have a physical examination within the first year. A physical exam is also required prior to tryouts for competitive athletics or cheerleading.

3.4. Mandated Screening Programs

Students in grades K through 10 are tested for various parameters annually according to the chart below. The school nurse does postural screenings for scoliosis with assistance from the physical education staff. Parents will be notified if screening procedures identify possible problems.

Grade	Weight	Height	Vision	Hearing	Scoliosis
Kindergarten	X	X	X (at registration)	X (at registration)	
1	X	X	X	X	
2			X	X	
3	X	X	X	X

6	X	X			X

3.5 Contagious Conditions

Parents are requested to report any incidence of contagious disease or condition to the school nurse. This includes incidence of head lice and scabies. When these conditions are identified, the student will be sent home. Return to school is permitted following treatment and verification by the school nurse that the student is free of disease, lice, nits, or mites. Classrooms will not be checked, but parents may request for a check by the nurse. Only parents of students in the classrooms who have a child identified as having head lice will be notified.

It is suggested that if your child is placed on antibiotics, he/she remains at home for the first 24 hours and/or follows the physician's orders. Children having a fever should remain at home until their temperature is within normal range without the use of analgesics for 24 hours. Students who have episodes of diarrhea and/or vomiting during the school day will be sent home. Students must also wait 24 hours from the conclusion of vomiting or diarrhea before they will be admitted back into school

COVID-19 Checklist For Parents: (updated 6/8/2021)

It is important that the following information pertaining to student illness is reviewed before students start school. As the Center For Disease Control(CDC) and the medical community learn more about COVID-19, it is possible that this guidance will change. The information below is based on the most recent, reliable medical guidance.

Parents whose child has one or more of the following signs/symptoms of illness, that are also associated with Covid-19, should keep their child home from school, It is also recommended that Parents contact their Primary physician for further evaluation:

- Fever of 100.0 F or higher accompanied by chills
- Persistent cough that is not due to another known cause such as chronic cough
- Difficulty breathing or shortness of breath
- New loss of taste or sense of smell
- Sore throat
- Headache in combination with other symptoms listed here
- Muscle aches or body aches
- Nausea, vomiting or diarrhea
- Fatigue in combination with other symptoms listed here
- Nasal congestion or runny nose that is not due to other known causes such as allergies and is in combination with other symptoms listed here

Please refer to the WRSD School Reopening Plan and current CDC / Department of Public Health guidance for when students may return to school.

3.6. Temporary or Permanent Exclusion from School Activities/ Physical Education

Students are expected to participate in all activities of the school program including recess and physical education. If, for health reasons, a child must be excluded for a temporary time from any activity, written verification from the doctor is required. For a long-term exclusion, a physician's note is also required.

3.7. Administration of Medication

The policy for the administration of medication in school is designed to protect the health of the child and the rights of the staff. The following policy and procedure will be followed for administering any medication during school hours. This includes both prescription and over-the-counter drugs. If the medication to be administered falls under the classification of "psychotropic drugs", Guidelines of Massachusetts General Law, Chapter 71 Section 54B, will be followed.

ALL medications (prescription and non-prescription), medication shall be administered by the school nurse provided that:

- The school nurse has on file the "Physician Medication Order/Parent Consent Form" properly completed by the physician. This form states the type of medication and the frequency with which to give it. This form must also be signed by the parent/guardian. Parental permission alone is not acceptable.
- The "Physician Medication Order/Parent Consent Form" must be updated by the physician and parent whenever the medication is changed and the nurse must be notified. All medication should be properly safeguarded in the nurse's office.

3.8. Procedure

The nurse shall have the right, with just and reasonable cause, to refuse the administration of medication.

No child is to transport medication to or from school. All medication must be brought to and from school via the parent or other responsible adult. However, in the case of self-medicating students, students may transport and self-administer upon completion of a written agreement between the parent and the nurse.

- All medication must be submitted in the original pharmacy container with the label intact and including the child's name, physician's name, medication, dosage, and intervals of medication. Please check the expiration date on all medications.
- Cough drops and lozenges are prohibited in elementary and middle schools according to Wachusett Regional School District policy. Because they contain menthol and are considered medication, cough drops require a physician's order and must be taken in the nurse's office.

The Physician Medication Order/Parent Consent Form may be copied from this handbook or picked up from the Nurse's Office at the Glenwood Elementary School.

3.9. Medical Emergencies

In the event of a life-threatening or serious injury or illness, an attempt will be made to contact the

parent or guardian. Emergency Medical Services will be contacted for their assistance, and the student will be transported to the appropriate medical facility for treatment.

3.11.Eye Protection (WRSDC P6613.1)

The Wachusett Regional School District shall require that students, teachers, staff members, and visitors wear protective devices in accordance with Section 55C, Chapter 71 of the General Laws which states: Section 55C. Each teacher and pupil of any school, public or private, shall, while attending school classes in industrial art or vocational shops or laboratories in which caustic or explosive chemicals, hot liquids or solids, hot molten metals, or explosives are used or in which welding of any type, repair or servicing of vehicles, heat treatment or tempering of metals, or the milling, sawing, stamping or cutting of solid materials, or any similar dangerous process is taught, exposure to which may be a source of danger to the eyes, wear an industrial quality eye protective device, approved by the department of public health. Each visitor to any such classroom or laboratory shall also be required to wear such protective device.

4. School Cancellation and Delayed Opening Announcements

A School Messenger call and email will be made by the superintendent to all parents to notify them of school cancellations and delayed opening announcements. Notification of the school cancellations and delayed openings will also be aired on the following radio/television stations beginning at approximately 5:30 a.m.:

WTAG 580	Channel 5	Channel 7
Channel 4	Channel 6	On the WRSD website

During the winter months, bad weather occasionally makes it necessary to delay the opening of school. Delayed openings will be announced on the radio or television stations or website mentioned. If the announcement is for a delayed opening, students or their parents should continue listening to these radio stations for further announcements, in case we change to no school all day. Delays could be up to two hours. Delayed openings do not affect dismissal times.

In an emergency such as a loss of water or boiler breakdown, school may be dismissed earlier than the regular closing time. Additionally, the “Club House” is sometimes cancelled due to weather conditions. Parents should be certain that all Unanticipated Early Dismissal/Cancellation of After School Program Forms are kept up to date, and should inform their children as to what they should do in case of early dismissal. These forms are distributed for completion at the beginning of the school year; if changes need to be made during the school year, parents should contact the school secretary.

Because of requests from the radio stations, we strongly emphasize that no one call the stations or town officials for school cancellations. There will be announcements aired at the times mentioned above if school is cancelled, delayed in opening, or dismissed early.

5. Attendance

Chapter 76, section 1 of the Massachusetts General Laws states that all children between the ages of six and sixteen must attend school. A school district may excuse up to seven day sessions or fourteen half

day sessions in any period of six months.

Education requires good attendance in order to reap its fullest reward. It is imperative that your child has good school attendance. Any day missed splinters the educational sequence which affects school attitudes and overall progress; however, children who are sick and cannot function well should be kept at home.

If your child is going to be out of school for the day, please call the school at 508-886-0399 and leave a message at any time. This is informational as well as a safety check.

Parents will be notified by letter from the school principal when a student has 5 or more unexcused absences during the year. A meeting may also be scheduled with the building principal, the parent/guardian, and the student to develop an action plan to improve the student's attendance. (Please see addendum A-5 for additional information)

5.1. Absences, Tardiness, Early Dismissal

A note is required after a child has been absent, when he/she is tardy, or when the parent desires the child to be dismissed early.

5.2. Late Arrival Policy

Due to the fact that children must be in their seats ready to learn at 9:10, if a pupil arrives at school after 9:08 a.m., he/she must proceed to the Main Office accompanied by a parent/guardian where a tardy slip (which will be presented to the teacher by the pupil) is issued.

5.3. Early Dismissal Policy

Early dismissal (before 3:40 p.m.) of pupils can be arranged through the office. Please see that your child brings a note stating reason for dismissal and the time he/she is to be dismissed. The child should then be picked up at the office at the early dismissal time. If a parent wishes to pick up a child at the regular dismissal time, please send a note with the child in the morning. Please do not call for dismissal except in the case of an emergency. Please do not ask for dismissal after 3:15.

5.4. Before School Drop -Off

- Students should not be dropped off prior to 8:55 a.m.
- Vehicles should enter school property and proceed to the entrance at the rear of the building, and continue to pull forward until they are the first vehicle in line in front of the entrance.
- A faculty member will open the doors at 8:55 a.m., and students may begin to disembark by walking around the **front** of the vehicle one at a time.
- For the safety of our students no student should be dropped off at the back entrance if a staff member is not present.
- Vehicles should then proceed off the property by continuing around the building and exiting up the main driveway.
- Faculty will be outside until 9:08. All students arriving after 9:08 must report to the office accompanied by a parent.
- For the safety of our students we ask that all cars remain in the line and do not pass other cars in front of them.
- **DROP-OFF FOR CLUBHOUSE:** Vehicles should enter school property and proceed to

the entrance at the rear of the building. Parents must accompany their child/children into the cafeteria drop off children with childcare workers.

5.5. Dismissal Time Pick-Up

- All pick-ups at dismissal time (including the Recreation Department's "Club House Program") should be at the rear of the building.
- PICK-UP FOR CLUBHOUSE: Vehicles should enter school property and proceed to the entrance at the rear of the building. Parents must enter the building, sign out their child/children, and exit the building together via the rear of the building.

5.6. Alternate Student Transportation (WRSDC P6562)

The school will not dismiss your child to another person unless advised to do so by you in writing; this is done at the discretion of the principal.

Children will not be allowed to go home with another child without a written note from a parent. Convenience bussing is not allowed. In cases of day care, consideration will be given providing space is available.

If children are to be sent home by other than normal means, a note is required.

5.7. Vacations during School Time and Make-up Assignments

Family trips/vacations should not be taken when school is in session; they should instead coincide with school vacation periods. As per the Massachusetts Department of Elementary and Secondary Education (DESE), students who are absent for reasons other than medical ones for the MCAS testing will be recorded as "failing" the test and the school's test performance record will be affected accordingly.

The DESE further points out that students who are absent from school for reasons other than illness or family emergency are "truant." As per the DESE, schools are not required to plan for work for student absences other than illness or family emergency or to make up instruction or work for students who are absent for other reasons.

Students who have been absent or who are doing poorly in a subject must assume the responsibility for making up work. If a student is absent for illness or family emergency for a prolonged period of time, he/she will be given an adequate amount of time to make up the work missed. Upon return to school, a student who is absent for any other reason will have one day for every day of absence to make up and submit all work missed during the absence.

It is recommended that parents request class assignments for a sick child to work on at home if absence exceeds more than one day. These assignments can be picked up in the school office. This can prevent a child from being overwhelmed by having to make up missed schoolwork while trying to keep up with current assignments when he/she returns to school.

Please avoid scheduling vacations or appointments during testing. The MCAS testing schedule is determined by the State of Massachusetts and notification will be sent home as soon as possible.

6. General Information

6.1. Media Center

The library has reading and reference materials. Children are allowed to take up to two books at a time for a period of up to two weeks. It is the responsibility of the children to see that the books are properly taken care of at home, or while in their possession. There is a charge for lost books; see page for more on “Care of School Books.”

6.2. Art

Art is an important integrating force with respect to other subject areas such as, reading, math, science, and social studies, and emphasis is placed on one or more objectives at a time. Students will learn techniques and concepts as well as hands-on experience working with different materials.

6.3. Music

As with art, music has a dual philosophy to its approach:

A comprehensive and sequential music education stands alone in its own right. Music is one of the ways in which children are known to learn; it helps them develop multicultural understanding and the skills needed for reading, writing, and listening. Experience in listening to a wide variety of music is provided along with musical programs, as scheduling allows, and recorder lessons are taught in grade three.

6.4. Physical Education

Classes are scheduled out-of-doors in good weather and in the gym during periods of cold and inclement weather. The program provides a range of activities allowing for all the children to participate, both as individuals and as part of a team.

Sneakers are a must for gym classes. For safety purposes, children will not be allowed to participate in gym class without sneakers. Parents will be notified if a child is not prepared for gym class on multiple occasions. As for other dress, the children wear their regular school clothes. It is recommended that clothing be able to provide full freedom of motion without exposing skin. Wear a belt if necessary. Low hanging pants, tank tops, and shirts that expose skin when arms are raised overhead should be avoided. A sweatshirt or jacket is recommended for outdoor physical education.

6.5. Chapter 766

Chapter 766 is a Massachusetts Law that became effective in September 1974. It is designed to assist individuals between the ages of three and twenty-one with identified disabilities who require specialized instruction. For further information, please contact the school psychologist.

6.6. Child Study Team (CST)

The Child Study Team is composed of an administrator, the school psychologist, and the referring teacher. Other staff may be asked to participate as well. The purpose of CST is to help when challenges arise with either academic learning or inappropriate behavior. The Team makes recommendations for classroom accommodations or additional assessment. If accommodations are recommended, it reconvenes at a later date to assess the effectiveness of those recommendations. Referral to CST does not mean an automatic referral for special education evaluation. Parents will be notified about the recommendation to CST, but their involvement is not required at this level of intervention.

6.7. Special Education Room

The Resource Room Program offers support for children with identified disabilities who have difficulty

learning in the regular classroom. Resource room teachers receive support from several instructional aides and coordinate the evaluation of students who are experiencing learning problems. In addition, they occasionally conduct individual and small group classes and often prescribe specific learning approaches to be used by regular classroom teachers with whom they co-plan and co-teach classes.

6.8. Speech and Language Therapy

Students with speech, voice, and language difficulties may receive services as indicated by an Individual Educational Plan (IEP). A speech and language therapist is available to work primarily with children who have been evaluated under special education laws.

6.9. Home Tutoring

Home Tutoring is available for extended student absence due to illness and/or serious injury, or for children with a Chronic Illness Plan. Parents needing this service should contact the school principal or Central Office.

6.10. Report Cards/Progress Reports

Report cards are issued four times a year: November, February, April, and June. Final report cards and progress reports (grades 3- 5) will not be issued until the last day of school. Parents wishing report cards to be mailed home must notify the office.

6.11. Parent/Teacher Communication

Parents and teachers may communicate effectively in a number of ways (e.g., phone, letter, e-mail, etc.). However, as a result of a need/concern/issue, a parent or teacher may request a conference to discuss the issue. Parents and teachers should arrange for such a meeting at a mutually convenient time contiguous to the school day. Voicemail may be left for individual teachers by calling the main number.

6.12. Audio, Video, and/or Stenographic Recording of Meetings (WRSDC P3813)

The Wachusett Regional School Committee prohibits the audio, video, and/or stenographic recording of parent/teacher conferences and/or Team meetings conducted in Wachusett Regional School District facilities. Exceptions to this policy will be made only where a parent/guardian or student is able to demonstrate that either the audio, video and/or stenographic recording of the meeting or conference is necessary to ensure the parent's/guardian's or student's full understanding of the proceedings or to otherwise accommodate a parent's/guardian's or student's documented disability.

Requests by a parent/guardian or student for authorization to audio, video and/or stenographic record a meeting or conference shall be submitted in writing to the Superintendent of the Wachusett Regional School District no less than three (3) business days prior to said meeting/conference. The Superintendent's decision on any such request shall be final.

6.13. Cell Phones/ Electronic Devices, Etc.

Students may not bring cell phones, smart watchers, IPOD's, iPads, or other devices using headphones, or similar items to school or on the bus because they disrupt the educational process. Exceptions to the rule may be made only when items in question are used for classroom activities or for medical reasons and when administrative approval is obtained. Students may not take pictures cannot on the bus or in school. Laser pointers are not allowed at school and will be confiscated. Inappropriate use of laser pointers will be considered a violation of the weapons policy.

6.14. Homework

Glenwood has a structured homework practice. We ask that all students read for 20 minutes nightly and all students practice their math facts nightly. Projects may be assigned throughout the year as well. Parents who wish to give valuable assistance to the education of their child can do so by encouraging him/her to practice their math facts and read nightly.

6.15. Student Transfers

Please inform us if you are moving, and let us know the last day (date) that your child will attend Glenwood Elementary School. We will also need your new address and the name of the next school your child will attend. Certain release forms must be signed by the parents so that school records may be forwarded to your new school. Your child will need a transfer card to present at the Principal's Office at the new school. Records will not be given to parents for transit, but will be sent to the school upon request.

7. Miscellaneous Information

7.1. Financial Assistance

Occasionally, money is collected from students to cover expenses related to field trips, special programs, etc. Financial constraints should never prevent participation of students in educational programs of the school. Any family needing assistance in this regard should contact the principal and all such contact will remain confidential.

7.2. Hot Lunch Program

Hot lunches, including milk, are available throughout the year. For those wishing to bring a cold lunch, milk is available. A child may buy more than one carton if he/she chooses. Alternate sandwiches and salads are also available. Annual lunch and milk fees shall be provided at the start of the school year. *Hot lunches begin the first day of school. Lunch and breakfast will be free for the 2021-2022 school year!*

7.3. Free/Reduced Hot Lunch

Free hot lunch or partial payment is considered under special request. Forms for this will be sent home to parents the first week of school. The forms must be filled out completely in order to be processed. As financial situations do change, these forms are always available at the office.

7.4. Snacks During Recess

Snacks may be eaten prior to or after outdoor recess. All snacks purchased from the cafeteria must be eaten in the cafeteria. Gum chewing and peppermint candies may be allowed during State mandated testing depending on teacher preference at Glenwood Elementary School providing parents have supplied the gum or peppermints during this time period. Eating and chewing gum are not allowed on the school bus.

7.5. School Evacuation/Critical Incident Drills

The Rutland Fire Department conducts school evacuation drills regularly to ensure the safety of all persons in the event of fire, disaster, or critical incident. Students are instructed to understand signals, find the nearest exits, use proper procedures for leaving the building, locate assigned areas in which to assemble, and to use proper procedures for returning to the building. Glenwood will also have at least 2 Alice Drills per year.

7.6. School Bus Evacuation Drills

School Bus Evacuation Drills are held twice annually in conjunction with the school bus contractor, Police Department Safety Officer, and the Registry of Motor Vehicles.

7.7. Personal Attire

We take pride in the appearance of our students; consequently, we expect them to dress and groom themselves neatly in attire suitable for each school day.

Hoods, bandannas covering the full head, and hats/caps, except those worn in relation to required religious practice or with prior administrative approval, are not acceptable attire within the school building.

Clothing or footwear that presents a safety hazard, such as in time of evacuation and on the playground, will be discouraged. Students are allowed to wear flip flops in appropriate weather. High heels are not acceptable.

Any apparel that makes reference to drugs, alcohol, tobacco, sex, profanity or violence or apparel with offensive words or pictures are not considered appropriate school attire.

In grades 3-5, the following are not acceptable school attire during school and school activities:

Spiked bracelets or necklaces, “choker–style” necklaces, wallet chains, any chain worn as a belt or worn around the neck that may cause injury or do bodily harm.

Items that are distracting, revealing, or educationally disruptive (including sunglasses, mesh, see-through clothing, bare midriffs, running shorts, “low rider” slacks, and short shorts). A good rule of thumb for shorts is that when students extend their arms at their sides, the shorts should approximate the tips of the fingers. All shirts/dresses must have straps- strapless shirts/dresses are not allowed.

Makeup of any kind is not allowed at Glenwood.

Hats are never allowed in the building.

The administration reserves the right to determine the appropriateness of clothing. Students who dress in a manner which is not appropriate to the school setting may have to wait until a parent is contacted to arrange for appropriate clothing to be delivered to school before the student can rejoin the academic setting.

7.8. Bicycle/Scooter Policy

Children in Grades 4 and 5 are allowed to ride their bicycles or scooters to and from school but are not allowed to ride or play with them on school grounds during school hours. **A note from home giving permission to ride to and from school is required.** The students should walk the bicycle or scooter to and from the proper area (i.e., bicycle rack). The privilege of riding bicycles to school will be taken away at any time if the child does not follow safety procedures or is being harmful to other students. State law requires all children below the age of sixteen wear a helmet while riding. Students will not be allowed to ride a bicycle or scooter home if they are not wearing a helmet. Bike/scooter riders will be

dismissed after traffic has cleared. Bikes and scooters must be walked on and off school property. For safety reasons, children should refrain from riding bikes or scooters during inclement weather.

7.9. Parties/Recognitions

Occasionally teachers will arrange for small parties for a special occasion. Birthdays may be recognized at the discretion of both the teacher and the parent. Due to the number of food allergies present in school, parents may send in non-food items for their child's birthday recognition. The school committee's policy states that no outside food can be brought into school other than a student's personal snack or lunch. For example, special pencils, erasers, or small post-it pads are items that students would treasure much longer than a cupcake. Please make arrangements with your child's teacher before sending in any nonfood items for birthday recognition.

Teachers can organize activities, asking students to bring in their own personal snack in a bag.

7.10. Gift Giving

Students may donate gifts that supply the classroom or school with items such as markers, glue sticks, books, etc. in lieu of personal gifts to mark any occasion. Books may be donated to the school library.

7.11. Lost Articles

The school will not assume responsibility for any items brought to school by students that are lost or stolen. A Lost and Found Table is maintained at the school. Unclaimed clothing will be donated to Good Will once a month.

Pupils are encouraged to turn in any article found to the Lost and Found Table. Items coming to school, including lunch boxes, book bags, coats, hats, boots, and mittens should be clearly labeled with the student's first and last name.

7.12. Care of School Books

Schoolbooks, textbooks library books, etc. are loaned to students. The student is responsible for the care of these books and must pay for any which are lost or damaged. Textbooks are to be kept covered at all times as directed by the classroom teachers.

Books that are lost or damaged must be paid for in total, including shipping costs. Final report cards may be withheld at the discretion of the principal if such books are not paid for in full.

7.13. School Telephone

Students will be permitted to use the telephone with permission of the teacher, the school secretary, or the principal.

Students will not be called to the telephone except in a case of an emergency. Similarly, messages to students will be delivered in an emergency.

7.14. Student Photographs

As a service to parents, school photographs are taken bi-annually (usually in the fall and spring) at all grade levels. Information regarding fees and packages available is typically sent home prior to photographs being taken.

7.15. Wachusett Regional School Committee Policy on Students Publications (P6515)

The Wachusett Regional School Committee recognizes and supports student publications and other literary activities that give students an experience in journalism. The District will maintain a level of objectivity deemed to be in the best interest of the communities. To this end, the following procedures have been drafted and put into effect:

- No school publication will accept advocacy or advertising that is political, religious, or discriminatory in nature.
- All advertising is subject to review and approval by the principal or a designee relative to content and appropriateness.
- Final editorial control and approval of all materials intended for publication are the responsibility of, and may be subject to the approval of, the school principal.
- The Student Publications policy shall be referenced in the student handbook.
- A statement indicating the editorial control by the school principal regarding all advertising will be included on order forms or other similar correspondence.

7.16. School-to-Home Communication

School-related and group-sponsored notices are periodically sent home with the students, but school-related notices such as the school newsletter, notices from the Glenwood P.T.O., notices from the principal, are sent home as the need arises.

To the extent possible, school-wide notices are sent home on a weekly basis to each family through School Messenger.. All school-wide notices are sent home in a weekly School Messenger email, through classroom emails and/or on teacher web pages. You must notify the secretary if you cannot receive the email messages.

7.17. Field Trips

There are two types of field trips:

Classroom - These field trips are planned in conjunction with an area of study and may be walking or bus trips.

General - These field trips are planned to include more than one class and are generally bus trips.

All field trips are chaperoned by classroom teachers, parents, and sometimes other staff. All chaperones are required to ride the bus with students and have an up to date CORI.

7.17.1. Field Trips Involving Late Night or Overnight Travel (WRSDC P3321.1)

The Wachusett Regional School District encourages field trips, which enhance the students' educational experience. In accordance with Massachusetts General Laws, Chapter 71, Section 37N, if field trips involve late night or overnight travel, the following must be met:

a. Field Trip Approval Process

Advance approval by the Superintendent and/or designee will be required for any student trip involving late night or overnight travel (in concurrence with P3321 Policy Relating to Education Field Trips).

- The approval process will be completed prior to engaging students in fundraising activities or other preparations for the trip.
- Overnight trips must offer significant educational benefits to students that clearly justify the time and expense of the trip. Such trips must be appropriate for the grade level and must meet Time

on Learning requirements of the Massachusetts Department of Education.

- Teachers and other school staff will be prohibited from soliciting privately run trips through the school system. The trip approval process applies only to school-sanctioned trips; trips will not be approved that are privately organized and run without school sanctioning.
- Policies and procedures for trip approval will take into account all logistical details involving security arrangements, emergency management and communications protocols, transportation, accommodations, itinerary, fundraising required of students, the educational value of the trip in relation to its costs, and recommendation of the principal.

b. Transportation

- The use of vans or private automobiles for trips planned to include late night or overnight student travel should generally be avoided. Should the use of vans be necessary for overnight travel, prior written authorization from the Superintendent and subsequent approval by the School Committee must be obtained. Such trips should generally use commercial motor coaches. No student drivers will be allowed at any time.
- Trips planned to include late night or overnight student travel will involve pre-trip checks for companies, drivers, and vehicles. Companies must have liability insurance on drivers.
- School officials will ensure that the selected carrier is licensed for passenger transportation by the Federal Motor Carrier Safety Administration (FMCSA). The District should not contract with any carrier that has an FMCSA safety rating of “conditional” or “unsatisfactory.”
- The contract with the carrier must prohibit the use of a subcontractor unless sufficient notice is given to the District to allow for verification of the subcontractor’s qualifications.

c. Trip Scheduling

- Overnight accommodations will be made in advance with student safety and security in mind. Hiring independent security is recommended when appropriate.
- Field trips during school time must meet the Massachusetts Department of Elementary and Secondary Education Time on Learning requirements.
- Trip itineraries must leave enough time for drivers to rest in conformity with federal hour-of-service requirements and common sense. Student vehicular (bus and auto) travel between the hours of midnight and 6:00 a.m. is prohibited.
- If majority of students of a particular class are participating in a field trip, the school will provide appropriate substitute activities for any students not participating.

7.17.2. Fundraising

The amount of time to be devoted to fundraising should be reasonable and commensurate with students’ obligations for homework, after-school activities, and jobs. Group fundraising activities are preferred.

7.17.3 Student Supervision

- Students shall be accompanied by a sufficient number of chaperones, taking into account trip scheduling and logistics. All chaperones, including parents and volunteers, must have a current CORI/criminal record check on file with the Wachusett Regional School District’s Superintendent’s Office. Faculty and staff of the school will serve as chaperones whenever possible.
- A chaperone must always be present whenever students are on the bus.
- All participating students must submit a signed parent/guardian permission form. Such forms shall include eligibility requirements and appropriate authorization for emergency medical care

and administration of medication.

- When away from school, all school rules will apply to the trip.
- Infringement of rules may result in a student's immediate expulsion from the trip. In such cases, parents will be financially responsible for transportation home.
- All chaperones are expected to travel on the bus with the students.

7.18. No Smoking Policy

As required by Massachusetts Education Reform legislation, smoking is not permitted by any person at any time, anywhere on school property (building or grounds).

7.19. WRSD Policy (6631) Relating To Pupil Services Non Discrimination

The Wachusett Regional School District does not discriminate on the basis of race, color, sex, religion, age, national origin, sexual orientation, gender identity or disability, in the operation of the educational programs, activities, or employment policies; further, no person will be excluded from or discriminated against in the admission to its public schools, or in obtaining the advantages, privileges, and courses of study of such public schools on account of race, color, sex, religion, age, national origin, sexual orientation, gender identity or disability.

Refer to Addendum and #16 for WRSD policies regarding Behavior and Discipline.

8.1. Introduction to Glenwood Elementary School Community Pledge

To ensure a good social and educational climate, it is important for each student to understand that acceptable standards of behavior will be expected at all times. Discipline will be administered when any individual's actions interfere with the right of a teacher to teach and the right's of a student of learn.

A student is reminded that any teacher or staff member in our school has the right to correct any unruly individual at any place and at any time.

To ensure the safety of all students who ride in buses, it may occasionally be necessary to revoke the privilege of transportation from a student who abuses this privilege. Parents of children whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders or damages properties will be notified that their children face the loss of transportation privileges. Notification of this policy shall be contained in the Student Handbook.

1. Children will be instructed as to the proper procedure for boarding and exiting from a school bus and in proper and safe conduct while aboard.
2. Emergency evacuation drills will be conducted at least twice a year to acquaint student riders with procedures in emergency situations.
3. All vehicles used to transport children will be inspected periodically for conformance with state and federal safety requirements.
4. Classroom instruction on school bus safety will be provided.

8.4. Wachusett Regional School District Bus Discipline Procedures and Consequences

The code below classifies unacceptable behavior into three levels. The examples are not exhaustive but illustrative. Additionally, all consequences are dependent upon the severity and frequency of the misbehavior. The administration reserves the right to consider extenuating circumstances in determining disciplinary action.

Therefore, a choice to use an alternative form of transportation other than the school bus shall be at the risk of the parent and the student.

Procedures for requesting alternate transportation to and from school shall be contained in the student handbook. K-8 students will be required to present written permission notice to the school from parent/guardian when using alternate means of transportation.

In case of emergencies, oral notification will be an acceptable alternative with the administration making a written record of the notification.

8.5. Sexual Harassment

In compliance with federal law and the laws of the Commonwealth of Massachusetts, it is the policy of the Wachusett Regional School Committee to provide an educational and work environment free of sexual harassment. Refer to the addendum for additional information regarding this subject. (See Addendum A-7 for additional information)

8.6. Special Education Discipline

All students are expected to meet the standards of behavior as set by the Wachusett community. Chapter 71B of the Massachusetts General Laws and I.D.E.A. 1997 require that additional provisions be made for students who have been found by an evaluation team to have special needs and whose program is described in an Individual Education Plan (I.E.P). The following additional requirements apply to the discipline of special needs students:

1. The I.E.P. for every special needs student will indicate if they can meet student management policies or if modifications are needed.
2. The principal (or his designees) will notify the Special Education Office of any special needs students who have been suspended. The Director of Special Education will keep these

suspensions on record.

When it becomes known that a special needs student will be suspended for more than ten days in a school year:

- (a). services will be provided in order to ensure that the student receives FAPE, and
- (b). a functional behavioral assessment will be conducted and a behavioral intervention plan will be implemented, and
- (c). the team will conduct a manifestation determination in order to decide whether the infraction related to the student's disability, and if the team finds that the behavior is a manifestation of the disability, the District may not suspend the student.

8.7. In-School Suspension

The student will be isolated from the student body under the supervision of the administration. Students will be expected to complete assignments given by the classroom teachers. The amount of suspension time may range from one class to five days and may include recess and lunch.

8.8. Out-of-School Suspension Exclusion/Expulsion and Due Process

In certain circumstances, it may be necessary to suspend students from attending school. These instances involve serious disruptions of the school community or when other forms of discipline do not appear to be effective. For the duration of an out-of-school suspension, students may not visit the campus or attend any school-related events. At the conclusion of an out-of-school suspension, a student's parent(s) or guardian must make an appointment with an administrator to reach agreement on conditions for the student's readmission to the Wachusett school community.

8.9. Exclusion/Expulsion

Exclusion/expulsion will be used as a disciplinary measure in extreme and chronic behavioral situations, such as possession and/or use of weapons assault, sale of an illegal substance, use of an illegal substance, or other serious offenses.

8.10. Disciplinary Due Process

1. **SHORT TERM DISCIPLINARY SANCTIONS:** A student will be given oral notice of the offense with which he/she is charged and an opportunity to respond prior to the imposition of any disciplinary sanction that might result in the student's suspension from school for ten (10) consecutive school days or less. In the event that the Principal determines that the student will be suspended from school, the student's parent(s)/guardian(s) will be notified by telephone and in writing.
2. **LONG TERM DISCIPLINARY SANCTIONS:** Prior to the imposition of any disciplinary sanction that might result in a student's suspension for more than ten (10) consecutive school days or expulsion, the parent(s)/guardian(s) will be given written notice of a hearing at which they may be represented by an attorney at their expense and may examine and present witnesses and documentary evidence. Following this hearing, the decision maker (Principal/School Committee) will issue a written decision. The parent(s)/guardian(s) will have the right to appeal any decision imposing a long-term exclusion from school. Where the student is excluded in accordance with M.G.L. c. 71 §37H, the student shall have ten (10)

days from the effective date of the exclusion to file a written appeal with the Superintendent of Schools. For exclusions imposed pursuant to M.G.L. c.71 §37H1/2, the student shall have five (5) days from the effective date of the exclusion to file a written appeal with the Superintendent. For exclusions imposed by the School Committee in accordance with M.G.L. c.76 §17, the student shall have the right to file a written request for reconsideration by the Committee within ten (10) days of the effective date of the exclusion. Pending the outcome of any such appeal, the disciplinary sanction imposed shall remain in effect. M.G.L. c. 76 §17, M.G.L. c. 71 §37H, M.G.L. c. 71 §37H1/2

3. **STUDENTS WITH DISABILITIES:** Students who have been identified as students with disabilities in accordance with the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act or who the school has reason to believe might be eligible for special education services are entitled to additional procedural protections when a disciplinary exclusion is considered. In many cases, a student with a disability will be entitled to services identified by the student's Team as necessary to provide the student with a free appropriate public education during periods of disciplinary exclusion exceeding ten (10) school days in a given year. For additional information regarding the rights of students with disabilities in the context of school discipline, please contact the Principal or the Director of Special Education.

10. Notice to Parents of Rights of Exemption: Human Sexual Education

Wachusett Regional School District has developed a K-12 Comprehensive Health Curriculum Framework, which was approved by the Wachusett Regional School Committee in October 1996. This framework is available in all of the District's schools. This program was developed by members of the professional staff and reviewed by members of the community. The overall goal of the course is to promote the health and well being of our students and to help them make wise and informed decisions throughout their lives.

Sex education is part of the health education curriculum beginning in Grades 4 and 5, including puberty and male and female anatomy, followed progressively through the grades by such topics as dating; relationships and communication skills; pregnancy; birth control; abortion; homosexuality; prevention of HIV/AIDS and other sexually transmitted diseases; and prevention of sexual abuse. Specific curriculum outlines for particular grade levels will also be available for review. If you would like to review these materials at the school, you are welcome to do so. Please call to arrange a convenient time.

During instructional time, students will be able to ask questions, which will be answered factually and in an age-appropriate manner. Each student's privacy will be respected, and no one will be put on the spot to ask or answer questions or reveal personal information. Material will be presented in a balanced, factual way that makes clear that people may have strong religious and moral beliefs about issues such as birth control and abortion and that these beliefs must be respected.

Under Massachusetts General Law and School Committee Policy, you may exempt your child from any portion of the curriculum that primarily involves human sexual education or human sexuality issues. To receive an exemption, simply send a letter to the principal requesting an exemption for your child. No student who is exempted from this portion of the curriculum will be penalized. An alternative assignment may be provided to students who are exempted.

Refer to Wachusett Regional School Committee Policy 3313.1

- The District shall limit student use of email to District supervised programs.
- Each school shall include within the student handbook procedures, rules and responsibilities pertaining to student Internet access, which are age appropriate.

15. Policies Relating to Education

15.1. Online Education Policy (P3311.31)

The Wachusett Regional School Committee supports technology as a tool for learning and supports online education as a viable methodology for delivery of direct instruction. Online education should provide an opportunity for students to accelerate the curriculum, to complete the curriculum and to provide learning opportunities in areas not available to the student due to scheduling conflicts or uniqueness of offering. Online education should also be promoted as a tool for staff development.

Consideration for online education may include:

- The course is not offered at the school.
- Although the course is offered at the school, the student will not be able to take it due to an unavoidable scheduling conflict.
- The course will serve as a supplement to extend instruction to those students who would be unable to attend classroom instruction.
- Students who have been expelled from the regular school setting but who are eligible for continued educational services.
- In unique situations where there is consensus among student, teacher and administrative staff that, due to the differentiating needs of the student whether it be to accelerate and reinforce learning or for advanced learning opportunities, the student would require an additional service.
- Requests for taking online courses may come from the student, the teacher or the parent. The school principal, in consultation with staff, shall make the final determination as to the acceptability of the course and upon approval, shall fund the course from the school budget, subject to availability of school funds. Consideration by the principal and school staff should include the educational workload of the student, the eligibility of the student to take such a course, equitable access and prerequisites.
- Provision for monitoring and assessment of the progress of students who are provided with online learning opportunities should be included in the implementation plan. The school should establish standards and criteria of performance along with a mechanism of assessment for any student involved in the online education program.
- Students and parents should be made aware annually of this policy.

15.2. Non-Discrimination of Educational Materials (P3450)

The Wachusett Regional School District is committed to ensuring equal educational opportunities for all students, and does not discriminate on the basis of disability, race, color, sex, religion, age, national origin or sexual orientation.

A search without warrant (non emergency) of a student's school locker or articles carried upon the student's person may be conducted if there is a reasonable suspicion that the search is necessary to protect the health and/or safety of students and staff, or to detect a violation of school rules. Such a search may be conducted if school authorities suspect that a student possesses such items as, but not limited to, weapons dangerous instruments, stolen goods, narcotics, hallucinogenic drugs/chemicals, amphetamines, barbiturates, marijuana, unregistered drugs, controlled substances, alcoholic beverages, or evidence of cheating, or other academic misconduct.

Students scheduled to attend after-school disciplinary sessions on the day of a practice or game must attend the disciplinary session before being able to participate in the athletic activity. Students who are serving a suspension (internal or external) on the day of a practice or game are not allowed to participate in the athletic program activity on that day.

Complaint Procedure:

If you feel that someone has sexually harassed or is sexually harassing you, you should file a complaint by following the steps outlined below:

1. Speak or send a note to any employee of the school district whom you trust, (i.e., nurse, psychologist/counselor, teacher, principal, assistant principal, superintendent, etc.). You can also speak to your parents who can then notify the superintendent, principal or assistant principal. Remember that the complaint procedure does not start until school/District personnel receive the complaint.
2. Within two school days of receipt of the verbal complaint, the employee will notify the principal/superintendent, and your parent/guardian will be notified of the pending complaint.
3. If you have not or do not want to put the complaint in writing, the employee will do so. This should be done no later than two (2) school days after you have talked, or given the note, to the employee. The complaint has to be put in writing to make sure that the employee fully and correctly understands the issue(s). A copy of the complaint, in writing, will be reviewed with you and your parent/guardian to ensure accuracy, before it is shared with the subject of the complaint.
4. The employee will refer the written complaint to the principal/superintendent. The principal/superintendent or his/her designee may speak with you to get more information. In any case, the principal/superintendent or his/her designee will speak to the person who is alleged to have sexually harassed you (called the "respondent") to obtain information as well.
 - a. If the principal/superintendent feels that the complaint can be resolved without a formal investigation, he/she may use the informal procedure.¹ The informal procedure simply attempts to resolve the situation and can be done in many ways. Examples are:
 - The principal/superintendent or his/her designee may have a conversation between you and the respondent where you can tell the respondent that the behavior bothers you and must stop.
 - The principal/superintendent or his/her designee may have you write a letter to the respondent saying that the behavior bothers you and must stop.
 - The principal/superintendent or his/her designee may have separate conversations with you and the respondent

¹ Even if the principal/superintendent thinks that the informal procedure is acceptable, you or the respondent may ask that the formal procedure be used, rather than, or after, the informal procedure.

Examples of possible resolutions are as follows:

- Verbal statements of apology;
- Letters of apology;
- Assurances that the offensive behavior will end;
- Disciplinary action.

The informal procedure will be completed within five (5) school days from the date the principal/superintendent receives the complaint. The principal/superintendent or his/her designee will notify you, your parent/guardian, and the respondent of the results of the informal procedure. Resolution of the situation may or may not occur as a result of the informal procedure. If all the parties involved in this informal procedure feel that a resolution has been achieved, this discussion will remain confidential and no further action will be taken. If any of the parties feel that resolution has not been achieved, the following formal procedure will be used.

Investigative deadlines may be extended under extenuating circumstances such as illness.

Formal Procedure:

1. The formal procedure is used when any one of the following occurs:
 - a. You, your parent/guardian, or the respondent ask that the formal procedure be used;
 - b. The principal/superintendent or his/her designee decides that the formal procedure should be used; or
 - c. You, your parent/guardian, or the respondent feels that the informal procedure was not helpful or adequate and one of the parties request, within five (5) school days, that the formal procedure be used.
2. The formal procedure will be completed within twenty (20) school days of the complaint being filed with the principal/superintendent, or if the informal procedure was used, within twenty (20) school days of the request to start the formal procedure.
3. The principal/superintendent or his/her designee shall investigate the complaint and complete a written report, which will include:
 - All facts and circumstances of the incident;

Other Resources:

Individuals also have the right to seek a remedy from the Massachusetts Commission Against Discrimination (MCAD), One Ashburton Place, Boston, MA 02108, (617) 727-3990, and/or the Regional Office of Civil Rights for the United States Department of Education, 222 John W. McCormack Building, Boston, MA 02109, (617) 223-9662.

Retaliation:

No one may retaliate against you for filing a complaint. Further, no one may retaliate against any student, employee, or any other person because they provided information or helped in the investigation. If any person feels that he/she has been subjected to retaliation, he/she should file a complaint with the principal/superintendent.

Considerations To Remember:

- A. A man/boy, as well as a woman/girl, may be the victim of sexual harassment, and a woman/girl, as well as a man/boy, may be the harasser.
- B. The victim may be the same or opposite sex as the harasser.
- C. The victim does not have to be the person at whom the unwelcome sexual conduct is directed. The victim may also be someone who is affected by such conduct when it is directed toward another person. For example, inappropriate attempts at humor or the sexual harassment of one girl (or boy) may create an intimidating, hostile, or offensive environment for another girl (or boy) or may unreasonably interfere with an individual's educational performance.

Reference to this policy shall be included in all student handbooks.

Policy 6435 WEAPONS

The Wachusett Regional School District shall prohibit possession and/or use of any kind of weapon; weapons will not be tolerated on school premises or at school-related or school-sponsored activities and events.

For the purpose of this policy, "weapon" includes, but is not limited to, firearms, knives, or any other devices, or objects used to inflict or to threaten bodily harm.

1. Any weapon found in a locker or other storage space which is assigned to a student and which has a lock or other security device may be considered to be the property of the student assigned

to the locker or other storage space for the purpose of disciplinary action under the Student Discipline Code. Any student found to be in possession of a weapon on school premises or at a school-sponsored event may be subject to expulsion from school by the principal.

2. Violations of this policy may lead to expulsion under the provisions of Massachusetts General Law Chapter 71 Section 37H. Procedures for enforcement shall be contained in the Student Discipline Code.
3. In addition to the school discipline indicated in the Student Discipline Code, provided in paragraph B., appropriate criminal action shall be undertaken in accordance with the provisions of Massachusetts General Law Chapter 269, Section 10.
4. The weapons policy and regulations shall be implemented in accordance with the due process provisions of the Massachusetts General Laws and the Code of Massachusetts Regulations of the Department of Education, and the Student Discipline code.

Policy 6437 PROMOTING CIVIL RIGHTS AND PROHIBITING HARASSMENT, DISCRIMINATION AND HATE CRIMES

The Wachusett Regional School District is committed to providing our students equal educational opportunities and a safe learning environment free from harassment, discrimination and hate crimes. The District will not tolerate unlawful or disruptive behaviors at school or school-related activities including curricula, instructional programs, staff development, extracurricular activities and parent involvement. The District will promptly investigate all reports and complaints of harassment, discrimination and hate crimes and will take prompt, effective action to end such behaviors including, when appropriate, referral to law enforcement agencies.

The Wachusett Regional School District prohibits all forms of harassment, discrimination and hate crimes related or unrelated to race, color, religion, national origin, ethnicity, sex, sexual orientation, age or disability. The District will not tolerate retaliation against those taking action consistent with this policy. Threats or acts of retaliation, regardless of how they are expressed, are serious offenses that will subject the violator to significant disciplinary or other corrective actions.

Harassment:

Harassment is oral, written, graphic, electronic, or physical conduct on school property or at school-related activities relating to an individual's actual or perceived race, color, national origin, ethnicity, religion, sex, sexual orientation, age, or disability that is sufficiently severe, pervasive or persistent so as to interfere with or limit a student's ability to participate in or benefit from the District's programs or activities by creating a hostile, humiliating, intimidating, or offensive educational or work environment. For purposes of this policy, harassment shall also mean conduct that, if it persists, will likely create such a hostile, humiliating, intimidating, or offensive educational environment. A single incident may, depending upon its severity, create a hostile environment.

Student and Staff Responsibilities

All students and staff members, as members of the WRSD community, are responsible for complying with this policy and ensuring that he/she does not harass, discriminate or perpetuate a hate crime against another person on school grounds or at a school-related activity. Further, each student and staff member is responsible to make sure that he/she does not retaliate against any person who reports or files a

complaint, or who helps someone report or file a complaint, or for cooperating in the investigation of a report of complaint.

Reporting Harassment, Discrimination or Hate Crimes

Students can report any case of harassment, discrimination or hate crimes to any adult in the school who is then responsible to inform the building principal or designee. The school principal or designee is responsible for receiving reports and complaints of violations at the school level. At the District level, the District Equity Coordinator is responsible for receiving and addressing reports or complaints of violations of this policy.

Any member of the school community who is informed of or believes that harassment, discrimination, retaliation or a hate crime has occurred or may have occurred at school or in a school-related activity must promptly report the incidents to the building principal or designee, or the Title VI Coordinator, Title IX Coordinator, Equity Coordinator or Superintendent. In situations where a student or other person is uncomfortable reporting the incident to a designated official, he/she may report it to a trusted school employee who must promptly inform a designated official.

Upon receipt of a written or oral report or complaint, the principal (or designee) and the Equity Coordinator will promptly notify each other of the facts alleged and any initial action taken. If and when a report or complaint involves physical injury, the principal or designee will promptly report the incident to the Superintendent. All complaints or reports must be documented on the District's "Reporting/Complaint Form". If the complainant or reporter is unwilling or unable to complete the form, the designated official who receives the oral complaint or report will promptly prepare the written report using the reporter's or complainant's own words. The designated official will also summarize any initial action taken. If the complaint occurs at the school level, the designated official will promptly provide the principal with the completed Reporting/Complaint Form with a copy to the District Equity Coordinator.

A report or complaint involving a principal should be filed with the District Equity Coordinator or Superintendent. A report or complaint involving the Equity Coordinator should be filed with the Superintendent. A report or complaint involving the Superintendent should be filed with the School Committee.

Reporting Other Incidences

Under General Laws Chapter 119, Section 51A for purposes of reporting child abuse and neglect to the Department of Children and Families (DCF). Under MGL119, Sec. 51A, a school staff member who has reasonable cause to believe that a student under the age of 18 is suffering physical, sexual, or emotional abuse or neglect by a parent, guardian, school staff member or other caretaker must immediately report the abuse or neglect either directly to the Department of Children and Families (DCF) or to the person designated by the school to accept those reports, who then promptly reports to DCF.

The principal and/or Superintendent will report to local police certain forms of sexual harassment and conduct that may constitute a crime.

The principal and/or Superintendent may report physical injury, destruction of public property, potential hate crimes and other acts of a serious criminal nature to local police for investigation.

Protection Against Retaliation

The District will take appropriate steps to protect from retaliation persons who take action consistent with this policy, or who report, file a complaint of, or cooperate in an investigation of a violation of this policy. Threats or acts of retaliation, whether person-to-person, by electronic means, or through third parties, are serious offenses that will subject the violator to significant disciplinary and other corrective action.

Ensuring Safety During Investigation

The designated official, in consultation with the District Equity Coordinator, will take any step he/she determines is necessary and/or advisable to protect, to the extent practicable, the complainant, witnesses, and other individuals from further incidents or from retaliation pending the outcome of the investigation.

Determination of Proceedings

Upon receipt of a complaint or report, the District must determine whether to undertake formal or informal proceedings to resolve the complaint or report. Upon receipt of a complaint or report, a designated official will attempt to identify and obtain cooperation from the victim(s). Where the designated official does not obtain the identity or cooperation of the alleged victim(s), the District will proceed with an investigation and then proceed to formal or informal proceedings to the extent possible.

Informal proceedings will commence when criteria for Formal Proceedings are not met. In these cases, a designated official, in consultation with the Equity Coordinator, may apply either the Student Code of Conduct or initiate an Informal Proceeding, which strives to resolve the report or complaint through non-disciplinary corrective action, although the designated official may also determine that disciplinary action is appropriate and necessary.

Formal proceedings will commence when the designated official, in consultation with the District Equity Coordinator determines that:

- the allegation is serious enough that it appears to place the complainant or any other person at physical risk;
- the incident has resulted in a criminal charge;
- the incident involves a referral to the Department of Children and Families (DCF);
- the allegation involves a serious form of harassment, discrimination or retaliation;
- there is a pending Formal Proceeding against the subject of the complaint;
- the subject of the complaint has previously been found to have violated this policy after Formal Proceedings, or
- that a formal proceeding is otherwise appropriate under the circumstances,

the designated official must then commence a Formal Proceeding.

Formal Proceedings-Investigation

The designated official will separately meet in a timely manner with the complainant and the subject of the complaint, and, if a student, with their parent(s) or guardian(s), to tell them about the formal process, explain the prohibition against retaliation, and determine the remedy the complainant seeks. The

designated official will also explain that the investigation will be kept as confidential as possible, but that the District cannot promise absolute confidentiality, and may not be able to withhold the complainant's identity from the subject of the complaint, since such a promise could interfere with the District's ability to enforce its policy, conduct a fair and thorough investigation, or impose disciplinary or corrective action.

Following a prompt and thorough investigation, the designated official, in consultation with the District Equity Coordinator, will determine whether the allegations have been substantiated, and whether the policy, or, if the subject of the complaint is a student, the Student Code of Conduct has been violated. The designated official, in consultation with the District Equity Coordinator, will prepare a written report that includes the investigative findings, the investigative steps taken, and the reasons for those findings. These findings will specify whether the allegations have been substantiated, whether the policy, or if the subject of the complaint is a student, the Student Code of Conduct, has been violated, and any decision or recommendation for disciplinary and corrective action.

The designated official will promptly notify the complainant and the subject of the complaint in writing to let them know whether the complaint has been substantiated. If the complaint is substantiated, the designated official will also promptly notify the complainant of any non-disciplinary corrective action imposed to protect him/her from future policy violations. If the complaint is substantiated and the offender remains a student in the school, the designated official will meet with the offender and his/her parent or guardian, to describe the disciplinary and/or corrective action imposed, the school's expectations for future behavior and the potential consequences for retaliation or future violation of the policy. If the complainant is dissatisfied with the investigation or outcome thereof, the designated official shall inform the complainant of his/her right to file a complaint with the Massachusetts Department of Elementary and Secondary Education and/or the United States Department of Education's Office for Civil Rights.

If the District's investigation results from a third party report, the designated official will inform that person that the District has taken steps consistent with the policy, while not providing information about any disciplinary action imposed or any other information that would violate applicable state and federal confidentiality laws or student record regulations.

Violations

Where a violation of the policy has been reported by a third party, and an alleged victim fails to cooperate with the investigation, or denies the incident occurred, disciplinary and corrective action may be precluded or limited, depending upon circumstances and availability of information from other sources.

False Reports

Any person making false charges of harassment, discrimination or the occurrence of a hate crime is subject to disciplinary action.

Discipline

If a student has been found in violation of this policy, the District will impose disciplinary measures and/or corrective action to end and prevent further occurrences of the complained of action(s). The District will take into account harm suffered by the victim(s) as well as any damage to school or District

property. The nature of any action taken must comply with District and school disciplinary policies. Any disciplinary or corrective action shall conform to the due process requirements of federal and state law.

Action concerning students may include a written warning; classroom or school transfer; suspension (short or long-term); exclusion from school-sponsored functions, after-school programs and/or extra-curricular activities; limited or denied access to parts or areas of the building; exclusion, expulsion or discharge from school; adult supervision on school premises; parent conferences; an apology to the victim; awareness training; empathy development awareness programs; counseling or any other action authorized by and consistent with the Student Code of Conduct and/or school disciplinary code. The District complies with federal and state laws and regulations pertaining to the discipline of students with disabilities.

Oversight

The District has designated the Supervisor of Pupil Personnel Services as the District Equity Coordinator. The Equity Coordinator will, under the supervision of the Superintendent of Schools, ensure the successful administration of and compliance with this policy. Information including the name of the Equity Coordinator, his/her mailing address, telephone number and email address will be posted prominently in the District office as well as all school buildings within the District.

For the purpose of this policy, whenever the term bullying is used it is to denote either bullying or cyber-bullying.

D. Investigation / Procedures

1. Investigative Procedures for Potential Bullying or Retaliation:

Each school is required to investigate in a timely manner and determine whether or not bullying and /or retaliation has occurred. This requires a determination as to the nature of the incident (bullying v. peer conflict). Once determined, outreach to the target and family shall occur concurrently with a commitment to addressing the needs of the target, identifying and educating bystanders, and providing consequences for aggressors.

Steps to be taken will include:

- a. Determine the nature, chronicity, and severity of the presenting situation.
- b. Identify aggressor(s), target(s), and bystanders
- c. Provide a safety and comfort plan for the target(s)
- d. Identify whether or not the bullying has occurred on or off campus
- e. Immediately remind the alleged student aggressor, target, and witnesses of the importance of the investigation, their obligation to be truthful and that retaliation against someone who reports bullying or provides information during a bullying investigation is strictly prohibited and will result in disciplinary action
- f. Have timely conversations with all individuals involved
- g. Establish a timetable for following up with parents, especially parents of target(s)
- h. Inform parents, guardians and all relevant adults of initial investigation following confidentiality requirements
- i. Collect and document data

E. Consequences from Findings:

Upon the principal or designee determining that bullying or retaliation has occurred, the law requires that the district use a range of responses that balance the need for accountability with the need to teach appropriate behavior M.G.L. c. 71 § 370(d)(v). Skill building approaches include offering individualized skill-building sessions based on our district's anti-bullying curricula, providing relevant educational activities for individual students or groups of students, in consultation with our counselors and psychologists, implementing a range of academic and non-academic positive behavioral support to help students understand pro-social ways to achieve their goals, meeting with parents and guardians to engage parent support and to reinforce the anti-bullying curricula and social skills building activities at home, adopting behavioral plans to include a focus on developing specific social skills, and making a referral for evaluation. If the principal or designee decides that disciplinary action is appropriate, the disciplinary action will be determined on the basis of facts found by the principal or designee, including the nature of the conduct, the age of the student(s) involved, and the need to balance the plan and with the school's or district's code of conduct.

The federal Individuals with Disabilities Education Act (IDEA) and Section 504, which should be read in cooperation with the state laws regarding student discipline, govern discipline procedures for eligible students with disabilities protected by these laws.

If the principal or designee determines that a student knowingly made a false allegation of bullying or retaliation, the student shall be subject to disciplinary action. Consequences for bullying or retaliation should be immediately and consistently applied and must be delivered in a non-hostile manner. Consequences may be disagreeable or uncomfortable but should not involve revenge or hostile punishment.

Consequences should consider these specific issues:

- a. Nature, severity, and chronicity of the behavioral impact on the target
- b. Degree of physical, psychological, social harm on the target
- c. Student's age, development and degree of maturity
- d. Surrounding circumstances and context in which the incident(s) occurred
- e. Prior disciplinary history and continuing patterns of behavior

- f. Relationship between and among the parties involved
- g. Context in which the alleged incident(s) occurred
- h. The need to balance accountability with the teaching of appropriate behavior.

The appropriate range of consequences, subject to due process where appropriate, may include, but are not limited to:

- c. Referral to outside agency
- d. Reassignment of classes

Notice will be consistent with state regulations of 603 CMR 49.00, including 49.05 paragraph 4:

and the Federal Family Educational Rights and Privacy Act Regulations, 34 CFR Part 99, as set forth in 603 CMR 49.07.”

The principal or designees will notify the parents/guardians of the acts the district has taken to prevent further acts of bullying and retaliation through consequences and instructional activities, as discussed above. Moreover, the school will notify the parents/guardians about the range of services, including, but not limited to, counseling both individually and in group settings, that are specifically designed to address issues of bullying and retaliation.

Notice to law enforcement: At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or designee has a reasonable basis to believe that criminal charges may be pursued against the student aggressor, the principal will notify the local law enforcement agency. Notice will be consistent with the requirement of 603 CMR 49.00.

- All use of social media tools must comply with District acceptable use policies, inclusive of but not limited to Policy 6532 Videotaping and Photographing of District Students and Policy 6531.2 BYOD (Bring Your Own Device).
- All staff and student online communication is subject to state and federal laws, such as the Family Educational Rights and Privacy Act (FERPA), and District policies governing communication
- All staff and student online communication is subject to policies ensuring safe environments for students and staff free from bullying, harassment, and other forms of unwanted communication that threaten well-being and productivity
- Staff and District administration are encouraged to collaborate in developing social media tools
- Staff social media accounts used to communicate with current WRSD students will be established using District email accounts and will remain separate from any personal staff social media accounts
- Educational social media accounts maintained by staff members shall not contain personal information
- District staff shall not subscribe to students' personal postings in social media platforms not controlled or monitored by District staff

Policy 6531.2 BYOD (Bring Your Own Device)

The Wachusett Regional School District is committed to providing opportunities for students to utilize technology in order to:

- Gather and evaluate internet resources
- Create and share digital content
- Develop digital literacy
- Participate in a productive and respectful online environment

As part of this commitment, school administrators and teachers may allow students to use personally-owned devices and access school wireless networks to enhance instruction and learning. Permission to use such devices will be granted only when sufficient network resources are present. School administrators and teachers shall determine the extent to which the use of personal devices is permitted. However, such personal devices shall not be required by the District. Should students not have access to personal devices, or should they choose not to bring in their own devices, access will be made available by the District to complete assignments.

Access to District networks is a privilege which may be revoked at any time. Students must have explicit permission to use personal devices each time they are used. Students should assume that personal devices may not be used unless told otherwise. When explicit approval has NOT been granted, all devices must be turned off and put away. Recording audio, video or photographic images without the subjects' permission is not allowed in school at any time. (reference Policy 6532 *Videotaping and Photographing of District Students*). The use of personal devices in school is subject to the District's acceptable use policy regarding computers. This policy is outlined in each school's student handbook. In accordance with the Children's Internet Protection Act (CIPA), the District will filter all internet content available to students. Any attempt to access inappropriate material will result in disciplinary action.

Student Responsibilities

- Device Security - As with any personal property, it is the student's responsibility to ensure that any personally-owned device is safe and secure. The District is not liable or responsible for damage, theft, or loss of any student-owned device or any information stored on a student-owned device.
- Network Security – Student devices shall have up-to-date antivirus protection. Computers or other devices infected with malicious software or lacking proper virus protection will not be allowed on school networks.
- Technical Support - The District does not have the resources to provide technical support for privately owned devices. Accordingly, District technology personnel will NOT attempt to troubleshoot or repair student-owned computers or other devices.
- Cellular Data Charges - Cellular devices may incur usage fees from cellular providers for texting or when accessing the internet without being properly connected to the school's internal wireless network. The District is not responsible for any charges related to texting or internet usage on student-owned devices.

Policy 6562 ALTERNATE STUDENT TRANSPORTATION

It shall be expected that bus students will go to and from school by the same means on a daily basis. A parent or high school student may choose an alternate mode of transportation over which the school system has no authority. Therefore, a choice to use an alternative form of transportation other than the school bus shall be at the risk of the parent and the student.

Procedures for requesting alternate transportation to and from school shall be contained in the student handbook. The high school student will be responsible to inform parent/guardian on taking a late bus or alternate means of transportation

K-8 students will be required to present written permission notice to the school from parent/guardian when using alternate means of transportation.

In case of emergencies, oral notification will be an acceptable alternative with the administration making a written record of the notification.

All high school students applying for a parking sticker and using a personal vehicle to transport other students will be required to carry personal liability insurance on the vehicle in the amount of \$100,000 - \$300,000.

Policy 6611 STUDENT IMMUNIZATIONS

The Wachusett Regional School District is required, pursuant to MGL c.76 section 15 and its associated regulations, 105 CMR 220.000, to keep an immunization record on file for each student enrolled in the school or system. The record must contain, at a minimum, the month and year of each immunization, and be signed by the healthcare provider. Immunization histories must be up to date for each child according to Immunization Guidelines published by the Commonwealth.

The Massachusetts School Immunization Law, M.G.L. c. 76 Section 15 provides that: *“no child shall, except as hereinafter provided, be admitted to school except upon presentation of a physician’s certificate that the child has been successfully immunized against diphtheria, pertussis, tetanus, measles, and poliomyelitis and such other communicable diseases as may be specified from time to time by the Department of Public Health.”*

Pursuant to the Massachusetts School Immunization Law quoted immediately above:

No unimmunized student shall be admitted to, or be allowed to remain in school, unless they can satisfy these requirements:

- A. A medical exemption is allowed if a healthcare provider submits documentation to school that an immunization is medically contraindicated; or
- B. A religious exception is allowed if a parent submits a signed statement to the school stating immunizations are contrary to his/her sincere religious beliefs.
- C. Students who fall under McKenney-Vento Homeless Assistance Act of 2001.

Do note: Unimmunized students (including those with medical, religious exemptions, and those who fall under McKenney-Vento) who are otherwise exempt from the immunization law may be subject to exclusion from school if there is exposure to certain communicable childhood diseases, as specified in 105 CMR 300.200.

Do note: Philosophical exemptions are not allowed in Massachusetts *even if* signed by a physician. The documentation regarding the above qualified exemptions will be kept in the students’ files at school.

Policy 6613.2 ATHLETIC HEAD INJURY AND CONCUSSION POLICY

The safety of students is a high priority for the Wachusett Regional School District. Students who sustain head injuries while in extracurricular athletic activities and those involved in their treatment must follow the protocol based on 105 C.M.R 201.000

(<http://www.mass.gov/eohhs/docs/dph/com-health/injury/105-cmr-201.pdf>) found online on the high school and middle schools’ websites as well as in the student handbooks.

Students who have sustained a head injury must be appropriately evaluated according to the protocol. In order to resume athletic activity, a medical clearance and authorization form must be submitted indicating that the student has recovered. Return to academics will be consistent with the protocol.

District administration, athletic staff, and nursing staff will review the protocol annually to ensure that it is current and reflects best practice. The School Committee will review and revise this policy as needed, but at least bi-annually.

Policy 6616 INSURANCE

The Wachusett Regional School District shall require each student participating in intramural programs and/or athletic teams to provide evidence of an active accident or health insurance policy covering the student.

Policy 6619 LIFE-THREATENING ALLERGIES

The Wachusett Regional School District is committed to providing a safe and healthy school environment for all students that is inclusive of school-wide practices that will minimize the risk of exposure to allergens that pose a threat to students while participating in all elements of the school day. School-wide practices along with identified accommodations, as deemed necessary by school personnel, parents/guardians and/or the student's physician, will provide all students the opportunity to participate fully in all school programs and activities. The successful management of this policy will require a partnership among the parents/guardians, the student, and all school personnel involved with the education, extra-curricular activities and the transportation of the student.

When it is determined by a physician that a student from the Wachusett Regional School District has a life threatening allergy and must have an Epinephrine Auto Injector, a 504 meeting will be convened to determine eligibility and the student's ability to successfully access all facets of the curriculum including extra-curricular activities. In the event that eligibility is determined, the 504 Plan will be communicated to professional staff of the building and all other school personnel who will have responsibility for the student throughout the course of the school day including but not limited to: teachers, bus drivers, playground monitors, cafeteria workers, substitute teachers and/or substitute nurse, and before and after school program monitors. In keeping with the 504 guidelines, this plan will be reviewed and revised annually.

At the start of every school year, the District health offices will provide allergy awareness training to staff in each building. All staff will learn how to minimize exposure to food and environmental allergens and to recognize the symptoms of anaphylaxis, the life threatening reaction that may occur with allergen exposure. Whenever it is possible to do so safely, the administration of the Epinephrine Auto Injector will be done by the certified school nursing staff or health care staff. Because a certified nurse or health care person may not be available to respond, staff will be trained on the administration of an Epinephrine Auto Injector. Whenever a new teacher or staff member is hired, the school nurse at his or her assigned school will provide that individual with Epinephrine training within five (5) days of beginning work. All staff and teachers must timely complete the Epinephrine administration training. The Superintendent will ensure that the District physician provides each school health office with the

medical orders necessary to maintain a supply of all medications, including epinephrine as well as the ability to administer the epinephrine as necessary.

At the start of each school year, the health office will provide a list of all students who have life-threatening allergies to building administration, the main office secretary, the teachers, coaches, cafeteria staff, playground monitors, before and after school monitors, and the bus company. In an ongoing basis, the health office will maintain, update, and distribute a revised list of students with life threatening allergies. All coaches and paid co-curricular personnel must provide evidence that they have received their yearly training to administer an Epinephrine Auto Injector immediately upon the start of their employment or when requested by the District. If such personnel have not been trained to administer an Epinephrine Auto Injector, they must immediately request training through the District health offices. Volunteers leading co-curricular activities are encouraged to receive training.

In response to the presence of food-based allergies, parents/guardians may not send outside food/candy/drink to share in the classroom. As part of a District-wide initiative to discourage the use of food as a reward, both teachers and parents/guardians are encouraged to recognize and celebrate students by methods that do not involve food. For this same reason, any projects or classroom activities should also avoid the use of food items. Traditional school-based celebrations (i.e. the 8th grade cookout, etc) may be permitted with the permission of the Superintendent's office. Precautions will be taken to ensure the safety and well-being of all students.

The District's Policy for Bullying Prevention and Intervention, as well as all Student Handbook policies pertaining to the support of a safe and healthy school environment, should make reference to the safety and well being of those students with food and life threatening allergies.

Policy 6621 TRANSPORTATION SAFETY AND SECURITY PROCEDURES

The Wachusett Regional School District and its staff share with students and parents the responsibility for student safety during transportation to and from school. The authority for enforcing District requirements of student conduct on buses will rest with the principal.

To ensure the safety of all students who ride in buses, it may occasionally be necessary to revoke the privilege of transportation from a student who abuses this privilege. Parents of children whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders or damages properties will be notified that their children face the loss of transportation privileges. Notification of this policy shall be contained in the Student Handbook.

1. Children will be instructed as to the proper procedure for boarding and exiting from a school bus and in proper and safe conduct while aboard.
2. Emergency evacuation drills will be conducted at least twice a year to acquaint student riders with procedures in emergency situations.
3. All vehicles used to transport children will be inspected periodically for conformance with state and federal safety requirements.
4. Classroom instruction on school bus safety will be provided.

Policy 6631 NON-DISCRIMINATION

The WRSDC policy of nondiscrimination will extend to students, staff, the general public, and individuals with whom it does business. No person shall be excluded from or discriminated against in admission to a public school of any town or in obtaining the advantages, privileges, and courses of study of such public school on account of race, color, sex, religion, national origin, sexual orientation, gender identity, or disability. If someone has a complaint or feels that they have been discriminated against because of their race, color, sex, religion, national origin, sexual orientation, gender identity, or disability, their complaint should be registered with a compliance officer.

The compliance officer's name and contact information may be obtained through the Superintendent's office or the District website.

Policy 6910 STUDENT RECORDS

The Wachusett Regional School District shall:

1. Take all reasonable precautions to preserve the confidentiality of a student's records.
2. Make available for inspection all school records of a student upon request of the parent or legal guardian.
3. Make available for inspection all school records of a student upon his or her request provided that the student is fourteen (14) years of age or older or upon entering the ninth grade.
4. Disseminate, to parents and students, State Regulations on Student Records and this policy annually.

Regulations:

The State Board of Education has adopted regulations pertaining to student records that are designed to ensure parents' rights of confidentiality, inspection, amendment, and destruction of student records, and to assist school authorities in their responsibilities for the maintenance of student records.

The regulations apply to all information kept by the District on a student in a manner such that he or she may be individually identified. The regulations divide the record into the transcript and the temporary record. The transcript includes only the minimum information necessary to reflect the student's educational progress. This information includes name, address, course titles, grades, credits, and grade level completed. The transcript is kept by the school system for at least sixty years after the student leaves the system.

The temporary record contains the majority of the information maintained by the school system about the student. This may include such things as standardized test results, class rank, school sponsored extra-curricular activities, and evaluations and comments by teachers, counselors, and other persons. The temporary record is destroyed seven years after the student leaves the school system.

The following is a summary of major parent and student rights regarding their student records:

Inspection of Record - A parent, or a student who has entered the ninth grade or is at least fourteen (14) years old, has the right to inspect all portions of the student record upon request. The record must be made available to the parent or student within ten (10) days of the request, unless the parent or student consents to a delay. In the event the parent/student requests copies of a student record, the District may charge the parents/student for said copies at the District rate.

Confidentiality of Records - No individuals or organizations are allowed to have access to information in the student record without specific, informed, written consent of the parent, legal guardian, or student of legal age. Exceptions include only those state agencies that specifically are authorized to request student information.

According to federal law, the District is required to release the names, addresses, and telephone listings of students to military recruiters and institutions of higher learning upon request for recruitment and scholarship purposes without prior consent. Parents and eligible students have the right to request that this information not be released without their consent by notifying their school building office in writing. At the beginning of each school year, parents of incoming freshmen and parents of students new to Wachusett Regional High School will be mailed a form to complete, indicating their choice to give or withhold their consent to release information.

The District Administration shall not release a student's social security number or date and place of birth to anyone except as required by law.

Amendment of Record - The parent and student have the right to add relevant comments, information, or other written materials to the student record. In addition, the parent and student have the right to request that information of the record be amended or deleted. The parent and student have a right to a conference with the school principal to make their objections known. Within a week after the conference, the principal must render a decision in writing. If the parent and student are not satisfied with the decision, the regulations contain provisions through which the decision may be appealed to higher authorities in the school system.

Destruction of Records - The regulations require that certain parts of the student record, such as the temporary record, be destroyed a certain period of time after the student leaves the school system. School authorities are also allowed to destroy misleading, outdated, or irrelevant information in the record from time to time while the student is enrolled in the school system. Before any such information may be destroyed, the parent and student must be notified, and have an opportunity to receive a copy of any of the information before its destruction.

Consistent with the Education Reform Act, the District will transfer a student's record to a new school outside the Wachusett Regional School District without prior consent required from the parent or eligible student.

I: LEADERSHIP

The WRSD Leadership is committed to implementing the district's Bullying Prevention and Intervention Plan and in conjunction with community efforts, to promote and ensure a safe and positive teaching and learning environment.

District leaders, community leaders, teachers, parents, guardians, and student leaders, have a primary role in teaching students to regard one another in a respectful, civil, and dignified manner to create an environment that improves and sustains the emotional and behavioral health of all students. These stakeholders will promote understanding and respect for diversity and differences in all venues through modeling respectful behavior and promoting and sustaining a commitment to programs that are focused on supporting social-emotional development at all grade levels.

The WRSD will provide age-appropriate anti-bullying educational experiences for all students in the district. As a school district, WRSD will enhance student achievement by creating and maintaining an educational environment where all students feel safe. In the unlikely event that a student feels uncomfortable, the school culture will strongly support student communication of their concerns to teachers, staff, administrators, parents or guardians.

A. Public Involvement in Developing the Plan

As required by M.G.L. c. 71, § 37O, the Wachusett Regional School District Bullying Prevention and Intervention Plan was developed in consultation with school staff, professional support personnel, administrators, community representatives, local law enforcement agencies, parents and guardians.

Prior to the presentation of this plan to the School Committee, a final draft of the plan will be made available on the WRSD website for Public Comment. The plan will be reviewed biennially (every 2 years).

B. Implementation

Consistent with applicable laws and regulations, all Principals will be implementing, with the support of the Superintendent and/or the School Committee, the following documents/ action plans:

- Receive and investigate reports of Bullying
- Plan intervention support strategies that meet the needs of the targets, aggressors, retaliators, and bystanders involved in the reported incidents
- Choose and implement a Bullying Prevention Curricula that each school will use
- Review, and where necessary, update District student and staff handbooks, and code of conduct
- Lead parent, guardian and family engagement efforts by providing appropriate informational materials for this group
- Collect, analyze, and report on building and district-wide data on past bullying incidents to understand trends and patterns, define the present problem, and create a baseline from which to measure improved outcomes
- Create a Records Retention Plan for incidents

C. Planning & Oversight

The Wachusett Bullying Prevention and Intervention Plan has been developed in collaboration with key stakeholders, including school and district administrators, school-based mental health staff, parents, school committee members, and local law enforcement. The principal or designee is

responsible for the implementation and oversight of the plan, except when a reported bullying incident involves the principal or assistant principals as the alleged aggressor. In such cases, the Superintendent or designee shall be responsible for investigating the report and other related steps, including addressing the safety of the alleged target. If the Superintendent is the alleged aggressor, the School Committee or designee shall be responsible for investigating the report and other steps necessary to implement the plan, including addressing the safety of the alleged target.

II: TRAINING AND PROFESSIONAL DEVELOPMENT

Under M.G.L. c. 71, § 37O the Wachusett Regional School District must provide ongoing professional development for all staff, including but not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities, and paraprofessionals as well as providing opportunities for parent, guardians, and community members to participate in this anti-bullying/ cyber-bullying initiative.

All stakeholders in the Wachusett Regional School District must be made aware of the state anti-bullying law and how it changes the definitions, reporting, investigation, and punishment of bullying incidents. Our School Committee, administrators, and faculty will be responsible for disseminating this information and for projecting how these changes will reflect on cultural changes in our schools as the implementation of M.G.L. c. 71, § 37O moves forward.

A. Annual staff training on the Bullying Prevention and Intervention Plan

School-based annual training for all school staff by the building Principal or designee will include:

- Staff responsibilities under the law
- An overview of the steps that the Principal or his/her designee will follow upon receipt of a report of bullying, cyberbullying or retaliation
- Modeling bystander expectations and reporting procedures.
- An overview of the bullying prevention curricula to be offered at all grade levels at each school in the district. Staff members hired after the start of the school year will be required to participate in this school-based training during the school year in which they are hired unless they can demonstrate participation in an acceptable and comparable program within the last two years.

B. Ongoing professional development.

The goal of professional development is to establish a common understanding of the tools available for staff to create a school climate that promotes safety, civil communication, and respect for differences. Professional development will build upon the skills of staff members to prevent, identify, and respond to bullying incidents. As required by M.G.L. c. 71, § 37O, the content of school-wide and district-wide professional development, will be informed by research and will include information on:

- Effective and developmentally or age-appropriate strategies to prevent bullying;
- Developmentally or age-appropriate strategies for immediate, effective interventions to stop bullying incidents;
- Information regarding the power differential that can take place between and among an aggressor, target, and witnesses to bullying;
- Current research findings on bullying, including information about specific categories of students who have been shown to be particularly at risk for bullying in the school environment;
- Current information on the nature of cyberbullying

Professional development will also continue to address ways to prevent and respond to bullying or retaliation for students with disabilities that must be considered when developing students' Individualized Education Programs (IEPs) and 504 Plans.

Additional areas identified by the Wachusett Regional School District for professional development may include:

- Emphasizing the importance of establishing and maintaining supportive student-teacher/staff relationships in school
- Emphasizing the importance of repairing harm (repairing relationships) in alignment with the Restorative Practices approach
- Teaching tolerance and respect for the diversity and differences that exist among people
- Focusing on building students' social-emotional learning competencies and skills
- Incorporating trauma-sensitive teaching strategies
- Strategies for promoting prosocial bystander actions

C. Written notice to staff

The school district will provide all staff with an annual written notice of The Bullying Prevention and Intervention Plan. Sections related to staff responsibilities will be included in the District Employee Handbook.

III: ACCESS TO RESOURCES AND SERVICES

A key aspect of promoting a positive school climate is ensuring that the underlying social and emotional needs of targets, aggressors, families, and others are addressed.

Below is a summary of strategies aimed to provide supports and services necessary to meet these needs. In order to enhance the district's capacity to prevent, intervene early, and respond effectively to bullying, cyberbullying and retaliation, these services will be available to reflect an understanding of the dynamics of bullying and to provide approaches to address the needs of targets and aggressors.

The Director of Social-Emotional Learning will regularly update and provide to all schools a list of mental health resources available in the community as well as community programs/partnerships that support student well-being. School administrators, staff, and parents will collaborate in determining appropriate referral services.

A. Identifying resources.

WRSD will annually review its capacity to provide counseling and other services for targets, aggressors, and their families. This will include a review of current staffing and programs that foster positive school culture, as well as identifying any gaps in services and resources that need to be addressed. Principals will assess the needs of their individual schools in order to analyze existing resources.

B. Counseling and other services

The District will work collaboratively with school mental health staff and outside agencies to maintain a list of providers that will support schools in developing safety plans for students who have been targets of bullying or retaliation, providing social skills programs to prevent bullying, and offering education and/or intervention services for students exhibiting bullying behaviors. Schools may consider current tools including, but not limited to: behavioral intervention plans, restorative practices, social skills groups, and other related resources and approaches. The district will reference the American School Counseling Association for guidance on these matters.

C. Students with disabilities

As required by M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010, when the IEP Team determines the student has a disability that affects social skills development or that he/she may be vulnerable to bullying or harassment because of his/her disability, the Team will consider what should be included in the IEP to develop the student's skills and proficiencies to avoid and respond to bullying, harassment, or teasing.

D. Referral to outside services

The school district will use a referral procedure for referring students and families to outside services. Referrals must comply with relevant laws and local policies.

E. Student Surveys and Data Collection

At least once every four years, the Wachusett Regional School District will administer a Department of Elementary and Secondary Education student survey to assess school climate and the prevalence, nature, and severity of bullying in our schools.

Additionally, the district will annually report bullying incident data to the Department of Elementary and Secondary Education.

IV: ACADEMIC AND NON-ACADEMIC ACTIVITIES

Wachusett Regional School District seeks to create a safe, respectful and caring school and classroom environment for all students regardless of their race, color, national origin, creed, religion, gender identity, sex, sexual orientation, age, physical appearance, socioeconomic status, family situation or disability. WRSD will lay the foundation for a positive school climate in pre-school and will continue to teach, nurture, and positively reinforce prosocial behavior throughout students' academic experiences.

- Each grade level will be provided developmentally-appropriate and evidence-based curriculum and instruction to teach pro-social skills that support academic success. Engaging Schools identifies these skill sets as follows: ([see Appendix C: Learning & Life Competencies](#))
 1. ***Self-Awareness:*** *The ability to accurately assess my feelings, behavior, interests, values, and strengths through my experiences, and name and describe the benefits of skills, behaviors, and mindsets that help me to be a good student.*
 2. ***Self-Management:*** *The ability to express emotions skillfully, manage my emotions by using strategies, sustain focus and pay attention, and accept help, feedback, correction, or consequences with good will.*
 3. ***Social Efficacy:*** *The ability to listen respectfully, make an effort to understand the emotions, words, and actions of others, and help and support others.*
 4. ***Academic Efficacy:*** *The ability to invest in quality work, organize to learn and study, and set goals and self-assess.*
- The entire school community (e.g. students, teachers, parents, bus drivers, lunchroom staff, janitorial staff, etc.) will work collaboratively to promote a caring and supportive school environment among all of its staff and students.

A. Non-Academic Bullying Prevention Efforts:

- The administration will review student behavioral expectations during assemblies during the first few weeks of school.
- The definition of bullying, cyberbullying, and retaliation and the protocol for handling incidents of bullying will be emphasized.
- Staff presence will be increased in areas where bullying is most likely to occur, such as bus arrival and departure locations, hallways, lunchrooms, recess, and near restrooms.
- A variety of evidence-based prevention programs to promote diversity awareness and respect for self and others will be explored and offered. District schools currently use the following programs: Second Step, Responsive Classroom, MARC (Massachusetts Aggression Reduction Center), and PBIS (Positive Behavioral Interventions and Supports) ([See Appendix B for full descriptions of these programs](#))
- Schools will encourage student involvement in school events and extra-curricular activities to reduce isolation and the likelihood of becoming a target of bullying.
- Schools will promote a culture of kindness and community where students are empowered to speak out against bullying.

B. Academic Bullying Prevention Efforts:

- When possible, Learning and Life Competencies for School Success, including related target behaviors, will be incorporated into classroom activities and instruction, as well as other aspects of the school day ([See Appendix C](#))

V. POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

WRSD will investigate bullying, cyberbullying and retaliation incidents in a fair, timely, and thorough manner while being mindful of personal privacy rights and the stigma that a student may experience from being labeled in some way or another. Verified incidents of bullying, in all of its forms will be dealt with appropriately. Dispositions will begin with education and, when deemed necessary, will move to progressively sterner measures.

All disciplinary actions will balance the need for safety and accountability with the need to teach appropriate behavior and/or lagging social-emotional skills ([see Learning & Life Competencies in Appendix C](#)).

A. Reporting Bullying or Retaliation:

Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member will be recorded in writing.

A school or district staff member is required to report immediately to the principal or designee or to the superintendent or designee when the principal or assistant principal is the alleged aggressor or to the School Committee or designee when the superintendent is the alleged aggressor, any instance of bullying or retaliation the staff member becomes aware of or witnesses.

Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. No disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report.

When reporting in writing, administrators, teachers, students, parents/guardians, school bus drivers, cafeteria workers, playground monitors, and any and all other staff and community members can access the “**Bullying, Cyber-bullying, Retaliation Incident Referral Form**” ([see Appendix A](#)) in the Main Office of the school, guidance/school psychologist’s office, the nurse’s office, and on the Wachusett Regional School District website.

1. Reporting by Staff:

A staff member will promptly report to the principal or designee any instances of bullying or retaliation witnessed by the staff member or that is reported to the staff member by a student, parent, or other individual and then follow up with an **Incident Referral Form**. The requirement to notify the Principal shall not, however, limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with school or district policies and procedures for behavior management and discipline. ([See Appendix A for reporting form](#))

2. Reporting by Students, Parents or Guardians, and Others:

The Wachusett Regional School District believes that it is the responsibility of students, parents, guardians, and others who witness or become aware of an instance of bullying or retaliation involving a student to report it to the Principal or designee.

Any individual who wishes to file such a complaint may request, and shall be provided with, assistance from a school staff member to complete a written report. Students will be provided practical, safe, private and age-appropriate ways to report and discuss an incident of bullying with a staff

member, or with the principal. Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report.

The filing of a false or fabricated complaint of bullying, cyberbullying, or retaliation is strictly prohibited and shall result in disciplinary action [\(See Appendix A for reporting forms\)](#).

B. Responding to Report of Bullying, Cyberbullying or Retaliation- Allegations of Bullying

1. Safety

Before fully investigating the allegations of bullying or retaliation, the principal or designee will take steps to assess the need to restore a sense of safety to the alleged target and/or to protect the alleged target from possible further incidents. Responses to promote safety may include, but not be limited to, creating a personal safety plan; pre-determining seating arrangements for the target and/or the aggressor in the classroom, at lunch, or on the bus; identifying a staff member who will act as a “safe person” for the target; and altering the aggressor’s schedule and access to the target. The principal or designee will take additional steps to promote safety during the course of and after the investigation, as necessary.

The principal or designee will implement appropriate strategies for protecting from bullying or retaliation a student who has reported bullying or retaliation, a student who has witnessed bullying or retaliation, a student who provides information during an investigation, or a student who has reliable information about a reported act of bullying or retaliation.

2. Obligations to Notify Others

a. Notice to Parents or Guardians

Once an assessment of bullying, cyberbullying or retaliation has been made and been deemed valid, the Principal or his/her designee will immediately inform the parent(s) or guardian(s) of the target and the aggressor of the investigation determination and any actions taken to prevent further incidents. Notice will be consistent with state regulations at 603 CMR 49.00.

While prior notice of an investigation shall not be required, there may be incidents where parents are notified prior to the Investigation.

In providing notice of investigation findings, the Principal shall maintain the privacy of any child/individual who is not the child of the parents/guardians to whom the notice is provided. The Principal shall not report specific information to the target’s parents/guardians about the disciplinary action taken against an aggressor unless it involves a directive for there to be no communication between the aggressor(s) and victim(s), or another directive that the target must be aware of in order to report violations.

The Principal shall also notify the parents about the Department of Elementary and Secondary Education’s Problem Resolution System and the process for accessing that system, regardless of the outcome of the investigation.

b. Notice to Another School or District

If the reported incident involves students from more than one school district, charter school, non-public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) of the incident so that each school may take appropriate action. All

communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.

c. Notice to Law Enforcement

At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.00 and locally established agreements with the local law enforcement agency. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal or designee shall contact the local law enforcement agency if they have a reasonable basis to believe that criminal charges may be pursued against the student aggressor.

In making this determination, the principal will, consistent with the Plan and with applicable school or district policies and procedures, consult with the school resource officer, if any, and other individuals the principal or designee deems appropriate.

3. Investigation

The principal or designee will investigate promptly all reports of bullying, cyberbullying, or retaliation and, in doing so, will consider all available information known, including the nature of the allegation(s), student developmental factors, and the ages of the students involved.

During the investigation, the principal or designee will, among other things, interview students, staff, witnesses, parents or guardians, and others as necessary. The principal or designee (or whoever is conducting the investigation) will remind the alleged student aggressor, target, and witnesses of the importance of the investigation, their obligation to be truthful and that retaliation against someone who reports bullying or provides information during a bullying investigation is strictly prohibited and will result in disciplinary action.

Interviews may be conducted by the principal or designee, other staff members as determined by the principal or designee, and in consultation with the school counselor, as appropriate. To the extent practicable, and given his/her obligation to investigate and address the matter, the principal or designee will maintain confidentiality during the investigative process. The principal or designee will maintain a written record of the investigation.

Procedures for investigating reports of bullying and retaliation will be consistent with school or district policies and procedures for investigations. If necessary, the principal or designee will consult with legal counsel about the investigation.

4. Determinations

The principal or designee will make a determination based upon all of the facts and circumstances. If, after investigation, bullying, cyberbullying, or retaliation is substantiated, the principal or designee will take steps reasonably calculated to prevent recurrence and to ensure that the target is not restricted in participating in school or in benefiting from school activities. The principal or designee will:

- 1) determine what remedial action is required, if any, and
- 2) determine what responsive actions and/or disciplinary action is necessary.

Depending upon the circumstances, the principal or designee may choose to consult with the students' teacher(s) and/or school counselor, and the target's or student aggressor's parents or guardians, to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

The principal or designee will promptly notify the parents or guardians of the target and the aggressor about the results of the investigation and if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the principal or designee cannot report specific information to the target's parent or guardian about the disciplinary action taken unless it involves a "stay away" order or other directives that the target must be aware of in order to report violations.

The principal or designee shall inform the parent or guardian of the target about the Department of Elementary and Secondary Education's problem resolution system and the process for accessing that system, regardless of the outcome of the bullying determination.

5. Responses to Bullying / Consequences from Findings

Bullying behavior can take many forms and can vary dramatically in its level of seriousness and what impact it has on the target and other students. Accordingly, there is no one prescribed response to verified acts of bullying. While conduct that rises to the level of "bullying," as defined in this Bullying Prevention and Intervention Plan, will generally warrant disciplinary action against the aggressor, whether and to what extent disciplinary actions are imposed (e.g., detention, suspension, etc.) is a matter for the professional discretion of the Building Principal or his/her designee.

District administrators will integrate a range of responses that balance the need for accountability with the need to teach compensatory social-emotional skills and target behaviors. The needs and safety of the target will also be considered as part of restoring resolution to the bullying matter. Verified acts of bullying shall result in intervention by the building Principal or his/her designee and will address the acts of the aggressor and the needs of the target, and assure the sanction against bullying behavior is enforced with the goal that the bullying behavior will cease and desist.

Consequences should be considered with the following factors in mind:

- A. Nature, severity, and chronicity of the behavioral impact on the target
- B. Degree of physical, psychological, social harm on the target
- C. Student's age, development, and degree of maturity
- D. Surrounding circumstances and context in which the incident(s) occurred
- E. Prior disciplinary history and persistent patterns of behavior
- F. Relationship between and among the parties involved
- G. Context in which the alleged incident(s) occurred
- H. The need to balance accountability with the teaching of appropriate behavior and social-emotional skills.

The appropriate range of consequences, subject to due process where appropriate, may include but are not limited to:

- A. Report to law enforcement
- B. Referral to an outside agency
- C. Reassignment of classes
- D. Reassignment of seats in lunch, bus, class, etc.
- E. Out-of-school suspension
- F. In-school suspension
- G. Detention
- H. Loss of privileges (including before and after school activities)
- I. Temporary removal from the classroom

J. Verbal reprimand

In addition, instructional activities designed to develop the skills and proficiencies necessary to avoid engaging in further bullying and/or retaliatory behaviors will be given, which may include, but are not limited to:

- A. Reparation to the target in alignment with the Restorative Practices philosophy and model
- B. Completion of a related curricular based assignment(s)
- C. Meeting with Civil Rights Coordinator
- D. Completion of community service designed to increase the aggressor's skills in empathizing with others
- E. Therapeutic support, including counseling or referral, for both aggressor(s) and target(s)

***** All completed Bullying Reports will be forwarded to Central Office for record-keeping and review. *****

The school or district will post the Plan and related information on its website.

As stated in M.G.L. c.71 Sec.37O nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, witnesses bullying or has reliable information about bullying is also prohibited.

As stated in M.G.L. c. 71, § 37O, nothing in this Plan requires the district or school to staff any non-school related activities, functions, or programs.

APPENDIX B: Research-Based Curricula

Second Step: (K - 8)

Second Step is a universal intervention designed for use with all students in a school. Second Step teaches students how to effectively manage their emotions and demonstrate self-control. Research indicates that children who learn and use these skills do better in school academically. Direct observation of student behavior in various settings (i.e., classroom cafeteria, and playground) during different stages of the intervention (i.e., baseline, two weeks after completion, and 6 months after completion) revealed decreases in physical aggression and increases in neutral and pro-social behavior.

Responsive Classroom: (K - 8)

Responsive Classroom is a research-based approach to K-8 teaching that focuses on the strong link between academic success and social-emotional learning (SEL). We believe that high-quality education for every child is built on the foundation of a safe and joyful learning community.

PBIS:

Positive behavior support is an application of a behaviorally-based systems approach to enhance the capacity of schools, families, and communities to design effective environments that improve the link between research-validated practices and the environments in which teaching and learning occur. Attention is focused on creating and sustaining Tier 1 supports (universal), Tier 2 supports (targeted group), and Tier 3 supports (individual) systems of support that improve lifestyle results (personal, health, social, family, work, recreation) for all children and youth by making targeted behaviors less effective, efficient, and relevant, and desired behavior more functional.

APPENDIX C: Learning & Life Competencies

Positive **MINDSETS** that set the stage for developing Learning and Life Competencies

A **mindset** is a set of deeply held assumptions and beliefs that drive behavior and create powerful incentives to sustain prior habits, choices, and preferred ways of doing things. Mindsets set the stage for academic engagement and developing Learning and Life Competencies. Self-identification with the values of schooling and the roles of a learner will influence the attitudes and perceptions a student holds in relation to his/her learning and academic performance. When students feel that school and school work have value, when they feel a sense of belonging in the classroom, and they approach learning tasks with positive expectations, they have a capacity to sustain their effort over time and express their curiosity, enthusiasm, and personal interest in what they are learning. This boosts students' confidence about their day-to-day experiences and fires up hope in their future. The examples below provide a range of entry points for conversations with students.

EXAMPLES:

- School and school work have value for me.
- I belong to an academic community.
- I approach tasks with positive expectations and an open mind.
- I accept challenges, take academic risks, and push myself to excel.
- My ability and competence grow with my effort.
- I express curiosity, enthusiasm, or personal interest in what I am learning.
- I cultivate personal talents, values, and positive qualities of character.
- I have hope in a positive future I can make for myself.
