COVID-19 SAFETY AND SOCIAL DISTANCING GUIDELINES

The district will implement the following COVID Guidelines in the event that DESE, Board of Health Officials, the Governor, or School Committee direct us to do so

Precautions - Attendance

Students, faculty, and staff should stay home if they are feeling unwell or are experiencing symptoms of illness. The school will provide a safe isolation space for any student who shows COVID-19 symptoms during the school day until they can be picked up by a family member.

Masks/Face Coverings

All students, faculty, and staff must wear a face mask/covering at all times while in the building and on school busses and vans. Face masks/coverings should be provided by the student/family and be replaced or washed after use. The school will have extra disposable face masks available for students who need them. Students who refuse to wear masks may be subject to disciplinary action. Exceptions to these face covering guidelines may be made for those whom it is not possible due to medical conditions, disability impact, or other health or safety factors. Mask breaks will also be provided according to DESE guidelines.

Social Distancing

Students must maintain a distance of 3 feet from fellow students and 6 feet from their teachers while in classes. Students are not to move their seats or desks to ensure that these distances can be maintained throughout the day.

Handwashing/Sanitizing

Students will need to follow all instructions in regards to handwashing and the use of hand sanitizing stations when directed to do so by faculty and staff. Specific handwashing times will include but are not limited to:

- Upon arrival at school
- Before eating
- Before dismissal

Lunches/Schedule Breaks

Students will eat their lunch in their classrooms or other designated areas and may remove their face covering for the purpose of eating/drinking during their lunch period only. However, adherence to the seating guidelines must continue to be followed during lunchtime.

Student Traffic – Halls

While traveling in the hallways, students must follow directional signs that will explain and direct the proper flow of traffic. There should be a distance of 3 feet maintained from peers while walking in the hallways. Arrival and dismissal from school will be staggered and students will need to follow all faculty and staff directions related to safely entering and exiting the building. Since no list of guidelines can cover every possible situation that may arise, students are reminded that they are required to follow all reasonable requests made of them by members of the faculty and staff as per the WPS Handbook.

ABSENCES AND EXCUSES

Regular and punctual school attendance is essential for success in school. The School Committee does recognize, however, that parents of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons:

1. Illness or quarantine
2. Bereavement or serious illness in family
3. Weather so inclement as to endanger the health of the child
4. For observance of major religious holidays
5. Legal responsibilities
6. An absence excused by the administration (such as verified off-campus college visits, field trips, etc.)
7. School suspension

A child may also be excused for other exceptional reasons with approval of the school administrator.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his/her character. Parents can help their children by refusing to allow them to miss school needlessly.

Accordingly, parents will provide a written explanation for the absence and tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justifiable. A child who has been absent from school because of a contagious disease will not be readmitted without permission from the attending physician or the approval of the school nurse. Absence from school for more than three (3) consecutive days requires that the school nurse call the home to inquire as to the reason for the continued absence.

Definitions:

Excused Absence - As outlined above in School Committee Policy

Unexcused Absence - An absence that does not fit any of the criteria that are outlined in the School Committee Policy - EX. Family vacation.

Truancy - Being absent without permission from parent/guardian.

LEGAL REFS: M.G.L. 76:1; 76:16; 76:20

ADVERTISING OR SOLICITING FOR FUNDS

Students shall not in any manner advertise, solicit funds or otherwise promote the interests of any commercial or other non-school agency, individual or organization. Any exception to this policy is at the discretion of the School Committee.

AFFIDAVIT FOR NON-CUSTODIAL PARENTS REQUESTING STUDENT RECORDS

The Massachusetts Legislature recently passed a law, M.G.L. Ch. 71, Sec. 34H, which is designed to standardize the process through which public schools provide access to and copies of student records to parents who do not have physical custody of their children (non-custodial parents). Parents who do not have physical custody, as defined in M.G.L. Ch. 71, Sec. 34H, are now required to complete and notarize the attached form entitled:

Affidavit for Non-Custodial Parent Requesting Student Records Per General Laws Chapter 71, Section 34H

Upon receipt of the ***Affidavit for Non-Custodial Parent Requesting Student Records Per General Laws Chapter 71, Section 34H***, the District is required to immediately notify the custodial parent, by certified mail, in both the primary language of the custodial parent and in English, that a request from the non-custodial parent has been received by the District to access student records.

This notice will inform the custodial parent that information requested pursuant to M.G.L. Ch. 71, Sec. 34H is to be provided to the requesting non-custodial parent *after 21 days, unless the custodial parent provides the District with documentation of an applicable court order restricting the non-custodial parent from student record access.*

For the purposes of this procedure, a student's record is determined to consist of the transcript and the temporary record, including all information -- recording and computer tapes, microfilm, microfiche, or any other materials, regardless of physical form or characteristics concerning a student that is organized on the basis of the student's name or in a way that such student may be individually identified, and that is kept by the public schools of the Commonwealth which include:

- referral for a special needs assessment;
- enrollment in a transitional bilingual education program;
- absences, illnesses;
- detentions, suspensions, or expulsion; and
- permanent withdrawal from school.

The term as used in **603 CMR 23.00** shall mean all such information and materials regardless of where they are located, except for the information and materials specifically exempted by **603 CMR 23.04**.

Each year after the initial request, the eligible parent must submit, in writing, a request for student records to the school Principal. Documentation must indicate that the non-custodial parent continues to be entitled to unsupervised visitation with his/her child and continues to be eligible to receive student information pursuant to M.G.L. Ch. 71, Sec. 34H. Failure to comply will result in the District's refusal to provide information regarding student records to the non-

custodial parent.

If you have any questions or concerns contact the building Principal of the respective school in which your child is enrolled.

BICYCLES, SKATEBOARDS, ROLLER BLADES AND HEELIES

Students who ride bicycles to school are not to ride double on school grounds, and are to park the bicycle when they arrive. Bicycles should be locked in the bicycle rack located at the side or front of the buildings. The school is not responsible for bicycles taken or damaged while on school property. If the bicycle is confiscated, a parent will have to pick it up. Skateboards, roller blades, and Heelies, sneakers with wheels, are not to be carried onto the bus, nor are they allowed on school property. "Massachusetts law requires that bicycle helmets be worn by persons twelve years of age and under who are operators or passengers on a bicycle."

**BREAKFAST AND LUNCH PROGRAM
MEAL CHARGE POLICY
(File: EFD)**

The School Committee is committed to providing students with healthy, nutritious meals each day so they can focus on school work, while also maintaining the financial integrity of meal programs and minimizing any impact on students with meal charges. However, unpaid meal charges place a large financial burden on the school district, as food services is a self-supporting entity within the district. The purpose of this policy is to ensure compliance with federal reporting requirements of the USDA Child Nutrition Program, as well as provide oversight and accountability for the collection of outstanding student meal balances.

The provisions of this policy pertain to regular priced school meals only. The School Committee will provide a regular meal to students who forget or lose their lunch money.

Meal Charges and Balances

Students will pay for meals at the regular rate approved by the School Committee and for their meal status (regular, reduced-price, or free) each day. Payment options will be delineated in student handbooks and provided to parents/guardians of incoming students. After the balance reaches zero and enters the negative, students will not be allowed to purchase a la carte items including but not limited to a second entrée, snack, ice cream, or an additional beverage. The student will still be allowed to take a meal, and that meal will continue to be charged to the account at the standard lunch rate based on their meal status. The parent/guardian is responsible for any meal charges incurred. If there is a financial hardship, a parent/guardian should contact food services directly to discuss payment options such as an individualized repayment plan.

Payments

Parents/Guardians are responsible for all meal payments to the food service program. Notices of low or deficit balances will be sent directly to parent/guardians via email or regular postal mail at regular intervals during the school year. At no time shall any staff member give payment notices to students unless that student is known to be an emancipated minor who is fully responsible for themselves or over the age of 18. If parents/guardians have issues with student purchases they should contact food services for assistance.

Parents/Guardians may pay for meals in advance. Further details are available on the school district webpage and in student handbooks. Funds should be maintained in accounts to minimize the possibility that a child may be without meal money on any given day. Any remaining funds for a particular student, whether positive or negative, will be carried over to the next school year.

All school cafeterias possess computerized point of sale/cash register systems that maintain records of all monies deposited and spent for each student and those records are available to parents/guardians by setting up an online account (see student handbooks for more details) or by speaking with the school's food service manager. The point of sale system is designed to prevent direct identification of a student's meal status. Parents/guardians will receive automated low-balance emails or mailed notices weekly, if applicable. If notices do not result in payment, parents/guardians will receive a phone call from food services. If the phone call does not result in payment the food service manager shall turn the account over to the business office.

Refunds

Refunds for withdrawn and/or graduating students require a written request (email, postal, or in person) for a refund of any money remaining in their account to be submitted. Graduating students also have the option to transfer funds to a sibling's account or to donate to a student in need with a written request.

Delinquent Accounts/Collections

Failure of a parent or guardian to maintain reasonably current accounts may result in a referral to the Superintendent for their review. The Superintendent shall ensure that there are appropriate and effective collection procedures and internal controls within the school district's business office that meet the requirements of law.

If a student is without meal money on a consistent basis, the administration may investigate the situation more closely and take further action as needed. If financial hardship exists, parents/guardians and families are encouraged to apply for free or reduced price lunches for their child. Each school handbook shall contain detailed instructions for family assistance.

Policy Communications

This policy shall be communicated to all staff and families at the beginning of each school year and to families transferring to the district during the year.

LEGAL REFS: MGL 71:72; USDA School Meal Program Guidelines May 2017

BULLYING

(PARTIAL FILE: JICFB)

The civil rights of all school community members are guaranteed by law, and the protection of those rights is of utmost importance and priority to the Ware Public Schools. The District also prohibits bullying, cyber-bullying, and harassment of school community members for reasons related and unrelated to their race, color, religion, national origin, ethnicity, sex, sexual orientation, gender identity, homelessness, pregnancy and pregnancy related conditions, military status, citizenship, familial/marital status, limited proficiency in English, age, or disability. The District will also not tolerate retaliation against persons who take action consistent with this Policy.

The Ware School District will endeavor to maintain learning and working environment free of bullying. Bullying of any type has no place in the Ware School District. The District will not tolerate any unlawful or disruptive behavior, including any form of bullying, cyber bullying, or retaliation, in our school buildings, on school grounds, or in school-related activities. We will investigate promptly all reports and complaints of bullying, cyber bullying, and retaliation, and take prompt action to end that behavior and restore the students' sense of safety. Nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying shall be prohibited.

Reporting, Responding and Intervention

The Superintendent and/or his/her designee shall oversee the development and maintenance of a prevention and intervention plan, in consultation with all district stakeholders, which may include teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians, consistent with the requirements of this policy as well as state and federal laws. The bullying prevention and intervention plan shall be reviewed and updated as needed.

Within two school days, the Ware School District will reasonably investigate, notify parents, and respond to the allegations of harassment, including bullying. Instances of harassment and/or bullying will be reported to the appropriate state and/or federal agencies in accordance with state and/or federal law. Mediation will be offered to students and/or parents.

School personnel will be instructed not to tolerate and to immediately report harassment, hazing or bullying, as defined by this policy, by any student or personnel, or any third party who are participating in, observing, or otherwise engaged in activities, including extracurricular activities, on school property or at school related services, activities or events. Confidentiality shall be maintained to the extent consistent with the school's obligations under law.

STALKING

Whoever (1) willfully and maliciously engages in a knowing pattern of conduct or series of acts over a period of time directed at a specific person which seriously alarms or annoys that person and would cause a reasonable person to suffer substantial emotional distress, and (2) makes a threat with the intent to place the person in imminent fear of death or bodily injury, shall be guilty of the crime of stalking and shall be punished by imprisonment in the state prison for not more than 5 years or by a fine of not more than \$1,000, or imprisonment in the house of correction for not more than 2 ½ years or by both such fine and imprisonment. HARASSMENT

Whoever willfully and maliciously engages in a knowing pattern of conduct or series of acts over a period of time directed at a specific person, which seriously alarms that person and would cause a reasonable person to suffer substantial emotional distress, shall be guilty of the crime of criminal harassment and shall be punished by imprisonment in a house of correction for not more than 2 ½ years or by a fine of not more than \$1,000, or by both such fine and imprisonment. The conduct or acts described in this paragraph shall include, but not be limited to, conduct or acts conducted by mail or by use of a telephonic or telecommunication device or electronic communication device including, but not limited to, any device that transfers signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo-electronic or photo-optical system, including but not limited to, electronic mail, internet communications, instant messages, or facsimile communications.

ELECTRONIC HARASSMENT

For the purposes of this section, "electronic communication" shall include, but not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by wire, radio, cellular, electromagnetic, photo-electronic or photo-optical system.

SEXUAL HARASSMENT

(FILE: ACAB)

All persons associated with the Ware public schools including, but not necessarily limited to, the Committee, the administration, staff, and students, are expected to conduct themselves at all times so as to provide an atmosphere free from sexual harassment. Any person who engages in sexual harassment while acting, as a member of the school community, will be in violation of this policy. Further, any retaliation against an individual who has complained about sexual harassment or retaliation against individuals for cooperating in an investigation of a sexual harassment complaint is similarly unlawful and will not be tolerated.

Because the Ware School Committee takes allegations of sexual harassment seriously, we will respond promptly to complaints of sexual harassment and where it is determined that such inappropriate conduct has occurred, we will act promptly to eliminate the conduct and impose such corrective action as is necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth our goals of promoting a workplace and school environment that is free of sexual harassment, the policy is not designed or intended to limit our authority to discipline or take remedial action for workplace or school conduct which we deem unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment.

Definition of Sexual Harassment: Unwelcome sexual advances; requests for sexual favors; or other verbal or physical conduct of a sexual nature may constitute sexual harassment where:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a person's employment or educational development.
2. Submission to or rejection of such conduct by an individual is used as the basis for employment or education decisions affecting such individual.
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working or educational environment.

AN ACT PROHIBITING THE PRACTICE OF HAZING

M.G.L. Chapter 269 Section 17 – “Whoever is a principle organizer or participant in the crime of hazing as defined herein shall be punished by a fine of not more than one thousand dollars or by imprisonment in a house of correction for not more than one hundred days, or by both such fine and imprisonment.

The term hazing as used in this section and in Sections 18 and 19, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation.

Section 18. Whoever knows that another person is the victim of hazing as defined in Section 17 and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonable practicable. Whoever fails to report such crime shall be punished by a fine of not more than five hundred dollars.

Section 19. Each secondary school and each public and private school or college shall issue to every group or organization under its authority or operating on or in conjunction with its campus or school, and to every member, plebe, pledges or applicant for membership in such group or organization, a copy of this section and sections 17 and 18. An officer of each such group or organization, and each individual receiving a copy of said sections 17 and 18 shall sign an acknowledgment stating that such group, organization or individual has received a copy of said sections 17 and 18.”

CARE OF SCHOOL PROPERTY BY STUDENTS

Students have a responsibility to respect and protect school property and the property of others. The Superintendent of Schools will establish rules and procedures that will hold students responsible for the repair, replacement, and related costs for the willful damage, loss, or abuse of the property of the school or others.

Persons are held responsible for lost or damaged texts and related materials assigned to them even if these materials are taken from lockers. Everyone should take normal precautions needed to protect themselves from loss and should have a lock on their lockers.

CIVIL RIGHTS AND SAFETY POLICIES

It is the policy of the Ware Public Schools not to discriminate on the basis of age, sex, race, color, religion, national origin, ethnicity, disability, sexual orientation, gender identity, homelessness, military service, union activity, genetics, pregnancy or pregnancy related condition in its educational programs, activities, or employment policies as required by Title IX of the 1972 Education Amendments, Chapter 622 of the Massachusetts General Laws, Section 504 of the Rehabilitation Act of 1973, Title VI of the Civil Rights Act of 1964, the Equal Educational Opportunities Act of 1974, Title II of the Americans with Disabilities Act of 1990, M.G.L. c. 71A and c. 76, s. 5

The Ware Public Schools are committed to prevention, remediation, and accurate reporting of bias incidents and civil rights violations, to the end that all students can enjoy the advantages of a safe and tolerant learning environment where individual differences are respected.

CIVIL RIGHTS AND SAFETY—Identification and Definitions of Prohibited Conduct

BIAS INCIDENT means any act, including conduct of speech, directed at or which occurs to a person or property because of actual or perceived age, sex, race, color, religion, national origin, ethnicity, disability, sexual orientation, gender identity, homelessness, military service, union activity, genetics, pregnancy or pregnancy related condition. Bias incidents may or may not be criminal acts.

BIAS INDICATORS are objective facts and circumstances, which suggest that an action was motivated in whole or in part by a particular type of bias.

BIAS MOTIVES recognized at Massachusetts law as causing hate crimes include prejudice based on age, race, color, national origin, religion, ethnicity, disability, sexual orientation and gender identity.

CIVIL RIGHTS VIOLATIONS involve interfering—by threats, intimidation, or coercion—with someone’s enjoyment of constitutional or statutory rights. Rights protected against interference include non-discrimination in access to advantages and privileges of a public school education. The term “civil rights violation” also covers bias-related and sexual harassment and bias crimes, so the term is applied generically to any civil or criminal law infractions.

DISCRIMINATION consists of actions taken against others, that treat others unequally because age, sex, race, color, religion, national origin, ethnicity, disability, sexual orientation, gender identity, homelessness, military service, union activity, genetics, pregnancy or pregnancy related condition.

HARASSMENT consists of unwelcome verbal, written or physical conduct targeting specific person(s), which is sufficiently severe, persistent, or pervasive to create an intimidating, hostile, humiliating, or offensive school environment, or substantially interfere with the progress of a student’s education.

BIAS-RELATED HARASSMENT will present bias indicators, most commonly epithets, or name-calling derogatory to a particular racial, religious, or sexual orientation group.

SEXUAL HARASSMENT covers instances of physical or verbal conduct of sexual nature, not limited to but including sexual advances, which foster a hostile educational environment for the victim.

HATE CRIMES include any criminal acts to which recognized types of bias motives are an evident contributing factor. Criminal bias-motivated conduct entails, at a minimum, threats. Criminal conduct includes acts putting someone in fear of immediate physical harm (assaults), and actual physical violence (assault and battery), and grows most serious if a victim suffers any bodily injury. Repeated threatening or menacing actions like following someone can amount to the crime of stalking.

HOSTILE ENVIRONMENT exists when a student has been or is subjected to threats, intimidation, or coercion by another (or others) or is reasonably in fear for his or her safety. Whether a school environment has become hostile must be evaluated based on the totality of the circumstances. Repeated instances of bias-related and sexual harassment create a hostile environment for the victim. A single act of harassment can also create a hostile or intimidating environment if sufficiently severe. A hostile environment does not necessarily entail that a student exhibits quantifiable harm, such as a drop in grades.

STALKING, a felony, consists of intentional conduct involving:

- a. two or more acts directed at a specific person,
- b. which would cause an average person substantial distress,
- c. where the perpetrator has made threats that cause fear of death or injury.

CIVIL RIGHTS AND SAFETY—Procedures for Responding to/Investigating Incidents

Whenever a staff person witnesses or a third party reports a possible civil rights violation, the school's Principal or designee must be notified. The Principal or civil rights designee, in conjunction with school safety personnel, should immediately begin an investigation. In an emergency, 911 must be called. If the incident involves the administration, the Superintendent is to be notified.

A student coming forward to report a civil rights violation he/she has experienced should be directed to the school's Principal or designated civil rights administrator, once any emergency needs are attended. Consideration should be given to whether immediate or interim steps are needed to ensure the safety of and avert retaliation against the complainant.

The investigation must determine whether a civil rights violation has in fact occurred. An immediate aim of the investigation should be preserving and gathering evidence from the scene of an incident. Bias-related graffiti should be photographed, and then removed. The investigator should seek to interview all victims and witnesses at the scene, or as soon thereafter as possible, and interview others who may have relevant knowledge as well. The investigation may also consist of any other methods and documents deemed relevant and useful.

All circumstances as found should be carefully evaluated for the presence of bias indicators that would characterize the matter as a civil rights violation. The investigation should make a finding as to whether any a civil rights infraction or violation of this policy has occurred, based on the definitions of wrongful conduct.

All incidents must be reported on the "Incident Form" and sent to the Superintendent's Office.

CIVIL RIGHTS AND SAFETY—Consequences for Civil Rights Violations and Failures to Act as Required

Non-Disciplinary Corrective Actions: Potential civil rights violations can be addressed with steps that are not punitive in character, without the necessity of disciplinary proceedings. These steps generally lie within the ordinary discretion of Principals and school officials; examples of non-disciplinary actions appropriate in some instances may include counseling, assignment to participate in diversity awareness training, separating offender and victim, parent conferences, and/or special work assignments such as research and a report on a civil rights-related subject.

Disciplinary Proceedings: After a hearing, found violations of the civil rights of a student or school employee warrant the imposition of sanctions up to and including suspension and expulsion (students), and suspension or termination (employees). Disciplinary actions will be taken toward the goals of eliminating the offending conduct, preventing reoccurrence, and reestablishing a school environment conducive to the victim's learning. The school may consider completion of a youth diversion program—either alone or in conjunction with other disciplinary actions—as an appropriate sanction for student violators of others' civil rights.

CIVIL RIGHTS AND SAFETY—Failure to Act by Administrators and Teachers

Upon completion of policy dissemination, administrators and teachers have a duty to act to stop witnessed sexual or bias harassment and hate crimes, as safely as can be done, and to report occurrences to the civil rights administrators and, as appropriate, the police. A clear failure to act as this policy directs should, in the first instance, entail that the individual undergo

further training in hate crimes, diversity issues, and the requirements of school policy. The school administration will develop further sanctions and actions to address repeated failures to act in accordance with this policy.

CONCUSSION POLICY

The Ware Public School District is committed to ensuring the health and safety of students and recognizes that concussions and head injuries are the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. Concussion, a mild traumatic brain injury, occurs when normal brain functioning is disrupted by a blow or jolt to the head; recovery varies in each injury.

Not only shall this policy be in compliance with the Commonwealth of Massachusetts General Laws Chapter 111: Head Injuries and Concussions in Extracurricular Activities, but it shall also cover the general student population to assist in the proper evaluation and management of head injuries.

Extracurricular Athletic Activities

The Athletic Director(s) shall be the person(s) responsible for the implementation of these policies and protocols as they pertain to the extracurricular athletic activities.

As specified in the law, the Ware Junior Senior High School Athletic Department shall require annual training in the prevention and recognition of a sports-related head injury, including second impact syndrome using DPH approved training materials or programs and documentation of said training kept on file for the following persons:

- Coaches
- Certified Athletic Trainer
- Trainer
- Volunteers
- School Nurse
- Athletic Director(s)
- Parent(s) of a student who participates in an extracurricular activity
- Students who participate in an extracurricular activity

Non-Extracurricular Athletic Activities

The guidance department and the school nurse shall be co-responsible for the implementation of protocols as they pertain to non-extracurricular school and out-of-school occurrences.

Evaluation Guidelines

- When a concussion is suspected during practices or games, the student athlete will be removed from participation and will not be allowed to return the same day.
- A parent/guardian will be notified and student taken to a medical provider for appropriate medical evaluation and treatment. All head injuries and suspected concussions will be reported to the school nurse.
- Evaluation and clearance by the family's medical provider will be required.
- The athlete will return to play only with:
 1. A clearance note from the medical provider and
 2. Verified completion of the return to play protocol followed by the athletic department.
- The guidance counselor will notify the academic teachers of the affected student, both athletic and non-athletic, and provide guidelines for concussion accommodation plans.

DISCIPLINARY PROCEDURES

BEHAVIORAL OFFENSES - TEACHER/OFFICE DETENTIONS

1. Detention: For minor behavioral offenses, teacher detentions and/or office detentions will be issued to students in order to provide more time to practice appropriate behavior and increase learning opportunities.

Students may be detained for either academic or behavioral issues. Twenty-four hours notice will be given to a student (not necessary for make-up of a scheduled office or teacher detention). This notice is given so that parents may make transportation plans, if needed. Unexcused absence from detention will result in a minimum of one additional detention. If a student is absent on the day their detention is to be served, the student is expected to serve on the next scheduled detention day.

2. Verbal Warnings: In most circumstances, the following behaviors will result, at a minimum, in the issuance of a verbal warning to the student:

<ul style="list-style-type: none"> • Minor disruption of class 	<ul style="list-style-type: none"> • Gum chewing/food in classroom area
<ul style="list-style-type: none"> • Uncooperative classroom behavior 	<ul style="list-style-type: none"> • Unsafe corridor behavior or disturbance
<ul style="list-style-type: none"> • Unexcused tardiness to class 	<ul style="list-style-type: none"> • Repeated missing work

Teacher detention is assigned by a teacher and is held at a time determined by the teacher.

Students will serve all teacher/office detentions before participating in any after school activities scheduled on the same day.

3. Office Detentions: The following behaviors are more serious, and in most circumstances will result in an office detention.

- a. Cheating (Students will receive no credit for work which is not their own.)
- b. Repetition of behaviors that led to verbal warning or teacher/team detention
- c. Failure to report to homeroom
- d. Inappropriate cafeteria behavior
- e. Inappropriate detention behavior
- f. Skipping detention
- g. Spitting
- h. Disrespectful behavior to any school staff member or volunteer

Office detention is assigned by a school administrator and is held in an assigned detention room. Students will receive written notice of office detention by an after school notice form to be carried home by the student. This form must be signed by the parent and returned to the school the next regularly scheduled school day. If the signed form is not returned to the school, an additional office detention day will be added to the original detention.

CODE OF CONDUCT

(Adopted July 17, 1997)

The guidelines issued in the Code of Conduct are issued as a general model. The school/administration reserves the right to deviate from the general guidelines based on the specific facts and circumstances of a given situation. Violations will be dealt with according to the procedures outlined under Disciplinary Procedure. The faculty and staff have the initial responsibility concerning discipline. The school administration has the final responsibility and authority on all disciplinary matters.

DISCIPLINE CODE

Obviously, no disciplinary code can specify all infractions. The preceding list is an attempt to be thorough but concise. Any disciplinary infractions not mentioned previously are subject to administrative review and action. It is much preferred that students utilize good common sense in their behavior and avoid any need for disciplinary measures.

VARIETY OF METHODS

Teachers may incorporate the following methods in dealing with inappropriate classroom behavior: verbal reprimand, parental contact, guidance conference, teacher detentions, parental meetings, loss of privileges, administrative conference. Students will be sent to the main office only if there is a serious or repeat disruption in the teaching/learning environment - an administrator will also be notified. The administrator may escort the student out of the classroom to a separate location, such as the main office. If an administrator is not available, the guidance counselor for the student's grade level may escort the student. If the guidance counselor is not available, the School Resource Officer may be called to escort the student.

STUDENT DISCIPLINE (FILE: JIC)

See Discipline Process Flowchart [HERE](#).

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal shall include prohibited actions in the student handbook or other publication and made available to students and parents. The student handbook should be reviewed and approved by the School Committee annually, and, as such, should be considered an extension of School Committee policy.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct.

A student may be temporarily removed from class for the remainder of that day's class if he/she is asked to leave the class and he/she refuses. In this case, the teacher should call the office for an administrator and the student will be removed.

Such a temporary removal from the classroom for the remainder of the day, or removal of privileges, is not subject to the remainder of this policy, law, or regulation.

Due Process for Suspension and Expulsion

In the 1975 case of *Goss v. Lopez*, the United States Supreme Court ruled that a student is entitled to due process before a suspension can take place. "Due Process" itself simply means that before any action is taken against a student in school, he or she must receive some kind of procedural rights such as those described below which now have been established firmly by the courts.

1. A written or oral notice of the charges.
2. An explanation of the facts, which led to the charges.
3. A chance to present his or her side of the story.

In the event the suspension is for more than ten (10) consecutive school days, the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the Principal. These rights of due process are required unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process. Requiring that a procedure be followed helps assure that all the facts of a possible suspension situation will be examined closely before any disciplinary steps are taken. If a student feels that he/she have not received his/her procedural rights of due process he/she may notify the Principal, the Superintendent of Schools, or School Committee.

Expulsion from School

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student alleged to have committed one of these acts shall be afforded the same due process rights as for a long-term suspension. Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress. Section 37H of the Educational Reform Act gives Principals authority to expel students from school for certain serious offenses committed on school premises, at school sponsored, or school related events, including athletic games.

Suspensions

There are some behaviors that are very serious and will result in an office referral. There are some behaviors that will result in suspension. Many of these behaviors are specifically listed in the student handbook.

There are two types of suspensions. These include in-school suspension and out-of-school suspension. A school administrator assigns all suspensions. If a student is suspended from school, an attempt will be made immediately to contact the student's parent/guardian by telephone. Parents/guardians will also be notified of the suspension by mail and in most cases a meeting will be set up with the parent and an administrator to address the problem. The student's guidance counselor will also be notified of the inappropriate behavior and suspension, and may be included in this meeting. When a conflict has led to a suspension, the guidance counselor will be involved in an attempt to resolve the conflict. The police may be involved when serious health or safety issues exist. Sometimes it may be necessary to involve the court system through the use of a Child Requiring Assistance (CRA) petition.

Internal Suspension: Internal suspension may be used as an alternative to external suspension.

External Suspension: The student will not be allowed to return to school for the assigned amount of time. Student's suspended out-of-school may not be on school property at any time during the suspension unless they have permission from an administrator.

In every case of student misconduct for which suspension may be imposed, a Principal shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Students assigned Internal or External Suspension may not participate nor attend any school activities or extracurricular activities (either on or off Ware Public Schools grounds) on the day(s) of the suspension.

Due Process for Suspensions: Notice of Proposed Suspension Under M.G.L. 71 §37H¾

Except in the case of an emergency removal or disciplinary offense defined under M.G.L. c. 71, §37H or 37H½, the school shall provide the student and parent/guardian with written and oral notice of the proposed suspension, an opportunity to be heard at hearing, and the opportunity to participate at the hearing. Notice shall set forth in plain language:

- a. the disciplinary offense;
- b. the basis for the charge;
- c. the potential consequences, including the potential length of the student's suspension;
- d. the opportunity for the student to have a hearing with the Principal concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent/guardian to attend the hearing;
- e. the date, time, and location of the hearing;
- f. the right of the student and student's parent/guardian to interpreter services at the hearing if needed to participate;

The Principal shall make reasonable efforts to notify the parent/guardian orally of the opportunity to attend the hearing. In order to conduct a hearing without the parent/guardian present, the Principal must be able to document reasonable efforts to include the parent/guardian. Reasonable effort is presumed if the Principal sent written notice and documented at least two attempts to contact the parent/guardian in the manner specified by the parent/guardian for emergency situations.

All written communications regarding notice of proposed suspension shall be provided to the student and parent/guardian either by hand delivery or delivered by certified mail, or email to address provided by the student and parent/guardian for school communications (or other method agreed to by the Principal and student/parent/guardian) in English, and in the primary language in the home if other than English, or other means of communication where appropriate.

Due Process for In-School Suspension

An in-school suspension is the removal of a student from regular classroom activities, but not from the school premises, for no more than ten (10) consecutive school days, or no more than ten (10) school days cumulatively for multiple infractions during the school year. Removal solely from participation in extracurricular activities or school-sponsored events, or both, shall not count as removal in calculating school days. In-school suspension for ten days or less, consecutively or cumulatively during a school year, shall not be considered a short-term suspension under these regulations. If a student is placed in in-school suspension for more than ten (10) days, consecutively or cumulatively during a school year, such suspension shall be deemed a long-term suspension for due process, appeal, and reporting purposes.

The Principal may impose an in-school suspension for a disciplinary offense, provided the Principal follows the process set forth and the student has the opportunity to make academic progress.

The Principal shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the Principal determines that the student committed the disciplinary offense, the Principal shall inform the student of the length of the student's in-school suspension, which shall not exceed ten days, cumulatively or consecutively, in a school year.

On the same day as the in-school suspension decision, the Principal shall make reasonable efforts to notify the parent orally as soon as possible of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The Principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the Principal is unable to reach

the parent after making and documenting at least two attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

The Principal shall send written notice to the student and parent/guardian about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the Principal, if such meeting has not already occurred. The Principal shall deliver such notice to the student and parent/guardian on the day of the suspension by either hand delivery or delivered by first-class mail, certified mail, or email to the address provided by the student and parent/guardian for school communications (or other method agreed to by the Principal and student/parent/guardian) in English, and in the primary language in the home if other than English, or other means of communication where appropriate.

Due Process for Short-Term Suspensions: Hearing and Principal Determination

A short-term suspension is the removal of the student from the school premises and regular classroom activities for ten (10) consecutive days or less. Short-term suspensions which do not cumulatively over the course of the school year exceed ten (10) days of suspension shall be conducted in accordance with this section.

Principal Hearing. The purpose of the hearing with the Principal is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student has committed the disciplinary offense, the basis for the charge, and any other pertinent information such as the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. The student shall have an opportunity to present information, including mitigating facts. A parent/guardian present at the hearing shall have the opportunity to discuss the student's conduct and offer information, including mitigating circumstances. The Principal will schedule the meeting with the parent/guardian for the day of the suspension or as soon as possible. Students may serve internal suspension without a hearing if the Principal attempted and documented at least two attempts to reach the parent for the purpose of orally informing the parent. Written notice provided to the student and the parent/guardian about the in-school suspension must also invite the parent to a meeting if such meeting has not occurred, and be delivered on the day of the suspension.

Based on the available information, including mitigating circumstances, the Principal will make a determination whether the student committed the disciplinary offense, and if so, the consequence. The Principal will provide notification in writing of his/her determination in the form of an update to the student and parent/guardian, and provide reasons for the determination. If the student is suspended, the Principal shall inform the parent/guardian of the type and duration of the suspension, and shall provide an opportunity for the student to make up assignments and other school work as needed to make academic progress during the period of removal.

If the student is in grades pre-k through 3, the Principal shall send his/her determination to the superintendent and explain the reasons prior to imposing an out-of-school suspension, before the short-term suspension takes effect.

All written communications regarding the hearing and Principal determination shall be provided to the student and parent/guardian by either hand delivery or delivered by first-class mail, certified mail, or email to the address provided by the student and parent/guardian for school communications (or other method agreed to by the Principal and student/parent/guardian) in English, and in the primary language in the home if other than English, or other means of communication where appropriate.

Due Process for Long-Term Suspensions: Hearing and Principal Determination

A long-term suspension is the removal of a student from the school premises and regular classroom activities for more than ten (10) consecutive school days, or for more than ten (10) school days cumulatively for multiple disciplinary offenses in any school year. The purpose of the hearing with the Principal is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student and parent, if present, an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student has committed the disciplinary offense, the basis for the charge, and any other pertinent information. The student shall have an opportunity to present information, including mitigating facts, that the Principal will consider in determining whether alternatives to suspension such as loss of privileges, detention, an apology, a student contract, restitution, and/or probation are appropriate.

Additionally, the student shall have the following additional rights:

- i. In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal may rely on in making a determination to suspend the student or not;
- ii. The right to be represented by counsel or a lay person of the student's choice, at the student's and or parent's/guardian's expense;

- iii. The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; and
- iv. The right to cross-examine witnesses presented by the school district;
- v. The right to request that the hearing be recorded by the Principal. All participants shall be informed that the hearing is being recorded by audio. A copy of the audio recording will be provided to the student or parent/guardian upon request.

Based on the evidence submitted at the hearing the Principal shall make a determination as to whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension (the use of evidence-based strategies and programs, such as mediation, conflict resolution, restorative justice, and positive interventions and supports) what remedy or consequence will be imposed. If the Principal decides to impose a long-term suspension, the written determination shall:

- i. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;
- ii. Set out key facts and conclusions reached by the Principal;
- iii. Identify the length and effective date of the suspension, as well as a date of return to school;
- iv. Include notice of the student's opportunity to receive a specific list of education services to make academic progress during removal, and the contact information of a school member who can provide more detailed information.
- v. Inform the student of the right to appeal the Principal's decision to the superintendent or his/her designee (only if a long-term suspension has been imposed) within five (5) calendar days, which may be extended by parent/guardian request in writing an additional seven (7) calendar days.

The long-term suspension will remain in effect unless and until the superintendent decides to reverse the Principal's determination on appeal.

If the student is in grades pre-k through grade 3, the Principal shall send his/her determination to the superintendent and explain the reasons prior to imposing an out-of-school suspension, whether short-term or long-term, before the suspension takes effect. All written communications regarding the hearing and Principal determination shall be provided to the student and parent/guardian by either hand delivery or delivered by first-class mail, certified mail, or email to the provided by the parent/guardian for school communications (or other method agreed to by the Principal and student/parent/guardian) in English, and in the primary language in the home if other than English, or by other means of communication where appropriate.

Due Process for Suspensions: Appeal of Long-Term Suspension

A student who is placed on a long-term suspension shall have the right to appeal the Principal's decision to the superintendent if properly and timely filed. A good faith effort shall be made to include the parent/guardian at the hearing. The appeal shall be held within three (3) school days of the appeal, unless the student or parent/guardian requests an extension of up to seven (7) additional calendar days, which the superintendent shall grant.

The student and parent/guardian shall have the same rights afforded at the long-term suspension Principal hearing. Arrangements may be made for an audio recording of the hearing, a copy of which shall be provided to the student and the parent upon request. The superintendent will inform all parties before the hearing that an audio copy will be made of the hearing. Within five (5) calendar days of the hearing the superintendent shall issue his/her written decision which meets the criteria required of the Principal's determination. If the superintendent determines the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than that of the Principal. The superintendent's decision shall be final.

Due Process for Suspensions: Emergency Removal

A student may be temporarily removed prior to notice and hearing when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school and, in the Principal's judgment, there is no alternative available to alleviate the danger or disruption. A student may not be temporarily removed from school under emergency removal until adequate provisions have been made for the student's safety and transportation. The temporary removal shall not exceed two (2) school days, following the day of the emergency removal. The Principal shall immediately notify the Superintendent in writing of the removal including a description of the danger or disruption presented by the student.

During the emergency removal, the Principal shall make immediate and reasonable efforts to orally notify the student and student's parent/guardian of the emergency removal and the reason for the emergency removal.

The Principal shall also provide the due process requirements of written notice for suspensions and provide for a hearing which meets the due process requirements of a long-term suspension within the two (2) school day time period, unless an extension of time for the hearing is otherwise agreed to by the Principal, student, and parent/guardian.

A decision shall be rendered orally on the same day as the hearing, and in writing no later than the following school day. The decision shall meet all of the due process requirements of a Principal's determination in a long-term suspension.

Suspension or Expulsion for Disciplinary Offenses Under M.G.L. 71 §37H and 37H½

1. The due process procedures above do not apply to a) possession of a dangerous weapon; b) possession of a controlled substance; c) an assault on a member of the educational staff; or d) a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony if the Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school, as provided in M.G.L. c.71, §37H or 37H½.
2. The Principal will inform the student of the specific charges in writing, informing the student of the right to be represented by counsel (at the student's expense) and the right to provide evidence and question witnesses, on the proposed hearing date.
3. The student may appeal the Principal's expulsion determination to the Ware Superintendent of Schools within ten (10) days of notification of the expulsion.
4. The superintendent may uphold, reduce, or reverse the disciplinary action after the appeal hearing. Note that a failure to make an appeal to the superintendent within the ten (10)-day period will exhaust any further right of appeal.
5. All students who have been suspended or expelled who remain residents of the District shall have an opportunity to make academic progress during their period of suspension, expulsion, or removal from regular classroom activities.
6. If the superintendent upholds the expulsion decision, if the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student under an education service plan.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal shall inform the student and parent/guardian of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed. Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan. The Principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal shall notify the student and parent/guardian of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal of each school shall periodically review discipline data by selected student populations, including but not limited to age, sex, race, color, religion, national origin, ethnicity, disability, sexual orientation, gender identity, homelessness, socioeconomic status, English language learner status, in accordance with state and federal laws and regulations.

DISCIPLINE-RELATED INFORMATION FOR STUDENTS ON AN IEP OR SEC. 504 PLAN (FILE: JK-R)

When suspension(s) of a student on an IEP or Sec. 504 Plan exceeds ten days per school year:

In general, if a student has violated the school's disciplinary code, the school may suspend or remove the student from his or her current educational placement for a period not to exceed ten (10) consecutive school days in any school year. Any time the school wishes to remove a student from his or her current placement for more than ten (10) consecutive days in any school year, or for more than ten (10) cumulative days when a pattern of removal is occurring, this constitutes a "change of placement." A

change of placement invokes certain procedural protections under the IDEA, the federal special education law, and Sec. 504 of the Rehabilitation Act of 1973. These include the following:

1. Prior to any removal that constitutes a change in placement, the school district must convene an IEP or Sec. 504 Team meeting to develop a plan for conducting a Functional Behavioral Assessment (FBA) that will be used as the basis for developing specific strategies to address the problematic behavior. If a behavioral intervention plan has been previously developed, the Team shall review its implementation and modify it if necessary.
2. Prior to any removal that constitutes a change in placement, the school district must inform the parent/guardian that the IEP or Sec. 504 Team will consider whether or not the behavior that forms the basis for the removal was caused by or had a direct and substantial relationship to the disability or was the direct result of the school's failure to implement the IEP or Sec. 504 Plan. This consideration is called a "manifestation determination." Parent/guardians have the right to participate as members of the IEP or Sec. 504 Team.

Consideration of whether the behavior is a manifestation of the student's disability:

The law provides that the IEP or Sec. 504 Team must consider evaluation information, observational information, the student's IEP or Sec. 504 Plan and placement, and must determine whether the behavior prompting the disciplinary removal was a manifestation of the student's disability. The IEP or Sec. 504 Team considers if the student understood the impact and consequences of the behavior, and further considers if the student's disability impaired the student's ability to control his or her behavior. If the IEP or Sec. 504 Team determines that the behavior was a manifestation of your child's disability, then the child may not be removed from the current educational placement (except in the case of weapon or drug possession or use or serious bodily injury) until the IEP or Sec. 504 Team develops a new IEP or Sec. 504 Plan, decides upon a new placement and receives parental/guardian consent to the new IEP or Sec. 504 Plan and placement.

If the Team determines that the behavior was not a manifestation of the student's disability, the school may suspend or otherwise discipline the student according to the Student Code of Conduct, except that for any period of removal exceeding ten (10) days, the school district must provide the student with a Free Appropriate Public Education (FAPE). The school district must determine the educational services necessary for FAPE and the manner and location for providing those services.

Regardless of the manifestation determination, the district may place the student in an interim alternative educational setting (IAES), as determined by the Team, for up to 45 calendar days:

1. If the student possesses, uses, sells or solicits illegal drugs or another controlled substance on school grounds or at a school-sponsored event, or
2. If the student carries a weapon to school or a school function, or
3. If the student causes serious bodily injury to another at school or at a school-sponsored event, or
4. If the district provides evidence that the student is "substantially likely" to injure him/herself or others and a hearing officer/court orders the alternative placement.

If the student has been placed in an IAES as a result of a disciplinary action, the student may remain in the interim setting for a period not to exceed 45 days. Thereafter, the student will return to the previously agreed-upon educational placement unless either a hearing officer orders another placement or the parent/guardian and the school agree to another placement.

Not later than the date of the decision to take disciplinary action, the school district notifies the parents of that decision and provides them with the written notice of procedural safeguards. If the parent chooses to appeal or the school district requests a hearing because it believes that maintaining the student's current placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.

Regular Education Students Covered by the Discipline Restrictions

The law applies to regular education students if the school system had knowledge prior to the misconduct that the student was disabled. Under the new law, a school district is presumed to have "had knowledge" that a regular education student was disabled, if:

- The parent(s)/guardian(s) of the student has "expressed concern in writing" to the school district that the student is in need of special education and related services;
- The behavior or performance of the student demonstrates the need for special education or related services;
- The parent/guardian(s) of the student have requested a special education evaluation of the child, or

- Teachers or other school personnel have “expressed concern” about the student's behavior or performance.

If there was no knowledge, the parent/guardian(s) may request an expedited evaluation. During this period, the student may be suspended or expelled under normal School Committee policy. Students determined to have a disability must receive appropriate educational services.

Referral to and Action by Law Enforcement and Judicial Authorities

School districts are authorized to call police or refer special needs students to juvenile court authorities when these students commit crimes in school or at school functions. Copies of IEP and discipline records must be transmitted to legal authorities.

In case of disagreement with the Team’s determination:

If the parent/guardian disagrees with the Team’s decision on the manifestation determination, with the decision relating to placement of the student in an IAES, or with any other disciplinary action, they have the right to request an expedited due process hearing from the Bureau of Special Education Appeals (BSEA).

Court Order Necessary to Authorize Suspension

A school district may not suspend or in any way exclude a special needs student during the period of a BSEA hearing or judicial proceeding brought to challenge a suspension, proposed suspension or any determination under this policy unless the school district obtains a court order based on a showing that the student's continued presence in school presents a substantial likelihood of injury to the student or to others.

For further information regarding Discipline-related information for students with special needs, please refer to the Student Code of Conduct.

DISMISSAL PROCEDURE

1. Students must have written permission prior stating the reason for the dismissal from their parent or guardian and remit this note to the main office upon entering school. **If a student fails to follow this procedure they will not be able to participate in extra-curricular activities on that day.**
2. Exceptions will be made only by the Administration.
3. Prior to leaving school, all students must sign-out with the main office. The student's parent or guardian may sign him/her out with the main office. Parents/Guardian will need to show proper identification before signing out their children.
4. Leaving the school grounds without permission will result in disciplinary action.
5. Students who are absent or tardy or dismissed from school for legal or medical reasons must notify the office at least (24) twenty-four hours in advance. Exceptions may be made in severe emergencies only. Failure to follow this procedure will result in the student being excluded from extra-curricular activities for that day.

ELECTRONIC DEVICES AND USE OF CELLULAR TELEPHONES

Based upon the general consensus of the community at large, the Ware School Committee believes that cellular telephones in particular are a necessary and relied upon communication device. Therefore, it is the determination of the Ware School Committee that it would be unfair and unrealistic to institute a total ban of such devices.

However, the Ware School Committee believes that it is the responsibility of both the students and the parents/guardians to assure that student use of such devices are the sole responsibility of the user, including an implicit understanding of the potential consequences as shown below.

The Ware School Committee believes that teaching the appropriate use of technology is both important and an essential component of being a part of society. As such a policy to allow structured usage during school hours will be put in place. To ensure that instructional time not be lost as a result, cell phones and electronic devices are to be off and away unless specifically approved by a classroom teacher for their class.* During the 2021-22 academic year, cell phone use during lunch and scheduled breaks will be determined by individual building administrators. As part of this policy, students will follow their specific school policy while traveling on a school bus. We will revisit this at the beginning of the 2022-23 academic year. Students in violation of this policy will be subject to the Discipline Matrix. Students must use headphones to listen to music and/or watch videos to limit disruption of others and to also ensure the student’s ability to respond to notifications on the public announcement system. The recording or picture/video taking is strictly forbidden and prohibited by Massachusetts Law. (M.G.L. Chapter 272, Section 99).

Unauthorized sound recording, still photograph and video is strictly prohibited under Massachusetts Law (M.G.L. Chapter 272, Section 99). Violators may be subject to criminal prosecution or civil action by aggrieved parties. Punishment is a fine of up to \$10,000, up to five years in state prison or both, or two and a half years in a jail or house of correction.

It is also illegal to willfully use or disclose any information concerning the identity of the parties or the existence, contents, substance, purpose or meaning of such a communication if one knows that the information was obtained through illegal interception. Violation of this provision is a misdemeanor, punishable by imprisonment in a jail or house of correction for up to two years, a fine of up to \$5,000 or both.

It is further recommended that a written description of the appropriate protocol be included in the Student Handbook and be posted in classrooms and common areas throughout the buildings as follows:

“In Massachusetts it is illegal to willfully intercept, attempt to intercept or have someone else intercept on one’s behalf any wire or oral communication. To intercept is “to secretly hear, secretly record, or aid another to secretly hear or secretly record the contents of any wire or oral communication through the use of any intercepting device by any person other than a person given prior authority to such communication.”

Any violation of this policy shall result in the immediate confiscation of the device until it is retrieved by an authorized parent/guardian. Administration will then determine that the student will not be allowed to bring such devices onto school grounds for a period of time up to and including the remainder of the school year. Any subsequent violations will result in further disciplinary action.

The School Committee expects the administrators to make it clear to students and staff that this policy must be consistently enforced per protocol.

It is now the sole responsibility of each individual student to abide by the stated protocols so as to avoid the aforementioned penalties.

*Exceptions will be at administrative discretion.

EMERGENCY CARDS

An “Emergency Card” is to be filled out **completely** by the parent/guardian at the beginning of the school year for each child enrolled. All changes should immediately be reported to the school office to ensure safety of the child

EMERGENCY EVACUATION PLANS

If it is necessary for students to be evacuated from the Stanley M. Koziol Elementary School, they will be sent to the Ware Junior Senior High School. Parents will be notified by news, media, radio and/or through the Blackboard Connect (Connect-Ed phone system). Students will be bused home (at the regular dismissal time 3:15 PM) or parents can sign them out at the Junior Senior High School if they choose to do so.

If there should be a need for an emergency evacuation of the Ware Middle School (not to include early dismissal due to snow or inclement weather) the students will be sent to the high school for the rest of the regular school day. Dismissal will take place at the regular time (3:10 for bus students, 3:15 for walking students). Bus students will have regular bus transportation home, and walking students will be released to walk home from the high school.

If there should be a need for an emergency evacuation of the Ware Junior Senior High School (not to include early dismissal due to snow or inclement weather) the students will be sent to the Ware Middle School for the rest of the regular school day. Dismissal will take place at the regular time (2:25PM). Bus students will have regular bus transportation home, and walking students will be released to walk home from the middle school

ENTRY PROCEDURES FOR STUDENTS-REQUIRED

State law mandates the following entry documents:

1. Medical records to include current immunizations
2. Discipline record from transferring school
3. Academic records

Commonwealth for MA Department of Elementary and Secondary Education - Sect.37L Any student transferring into a new school district must provide the new district with "a complete school record," including, but not limited to, "any incidents involving suspensions or violation of criminal acts or any incident reports in which such student was charged with any

suspended act." The responsibility under Sect. 37L rests with the student who is transferring; the student may either get the record from the former school and present them to the new school, or may request that the former school send the records directly to the new school.

4. A signed release form is required for the release of student records. To expedite the admission's process students should provide a copy of their transcript when registering into school.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

- (1) The right to inspect and review the student's education records within 45 days of the day the School receives a request for access.

Parents or eligible students should submit to the School Principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The School officials will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading.

Parents or eligible students may ask the School to amend a record that they believe is inaccurate or misleading. They should write the School Principal (or appropriate official), clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- (2) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Committee; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

In addition, schools may disclose, without consent, "directory" information, such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance, unless the parent and eligible student requests that the school not disclose directory information about them.

- (4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

**Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605**

FEDERAL GUN-FREE SCHOOLS ACT

The federal Gun-Free Schools Act of 1994 is Section 14601 of the Improving America's Schools Act, which took effect in October 1994 and included re-authorization of the Elementary and Secondary Education Act (ESEA). It requires each state, as

a condition of receiving any federal funds under the ESEA, to require school districts and other local educational agencies to expel from school for a period of not less than one year any student who is determined to have brought a firearm to school See Ware School Committee policy JFCJ.

FIRE DRILLS

State law and the school enforce fire drills. Directions to exits are posted in all classrooms. Students are expected to exit the building promptly and in an orderly fashion.

FUNDRAISING ACTIVITIES

(Adopted July 17, 1997)

In general, the Ware School Committee does not encourage fundraising in the community by students for school activities. The Committee does recognize however that there may be times when such activities are necessary. In order to limit the sale of goods by companies for profit, such as magazines, candy and similar items the Building Principal shall coordinate these activities on a system-wide basis.

Other activities may include:

- Sale of tickets to scheduled athletic events and school dramatic and musical performances.
- Sale of advertising space in school publications.
- Proposals to raise funds for charitable purposes or for benefit of the school or community (for example: American Field Service activities, United Nations, or scholarship funds) provided such proposals have been individually approved by the Building Principal and Superintendent. All monies collected shall be deposited in the appropriate student activity account.

Parents and legal guardians may to request, in writing, that their child not participate in the program. Postural Screening for scoliosis - Grades 5 – 9

PHYSICAL EXAMINATIONS

All physical examinations are to be performed at the child's primary care provider's office.

Kindergarten, Grade 3, Grade 7, and Grade 11 students and any students new to the district must present documentation of a current physical examination.

Student athletes are required to provide documentation of an annual physical before being allowed to practice sports (one required every 13 months.)

ILLNESS/INJURY IN SCHOOL

A registered nurse is available at SMK Elementary, Ware Middle and Ware Junior Senior High School on a daily basis. If students become ill or injured during the school day, they should notify the teacher and be sent to the Health Office for assessment and treatment. All minor illnesses and injuries will be treated as necessary and parents/guardians will be notified when warranted. In the event of serious illness/injury requiring emergency treatment, the nurse or designee will attempt to contact the parents/guardians. If the parents/guardians are unavailable, school staff will attempt to notify emergency contacts listed on the student's emergency card. Students requiring urgent medical treatment will be transported via ambulance to the nearest hospital whenever necessary. The cost of emergency transport is the responsibility of the student's parents/guardians.

PLEASE NOTIFY THE SCHOOL OF ANY CHANGES IN HOME OR WORK TELEPHONE NUMBERS AND/OR EMERGENCY CONTACTS.

MEDICATIONS

The school nurse should be notified whenever a student is required to take prescription medication at school. The school nurse can administer prescription medications in school with a written licensed prescriber's order and written parent/guardian consent.

Medication should be in the original prescription container with the student's name, drug name, dose and dosage interval written on the bottle. Prescription medication should be brought to school by the parent/guardian or responsible adult.

The school nurse may administer over-the-counter (OTC) medications in school such as analgesics, antihistamines and antacids with written parent/guardian consent. The annual student emergency health form provides a section for OTC medication consent.

Students should not carry prescription or OTC medications on their person or store them in their lockers. The two exceptions to this are asthma inhalers and epinephrine auto-injectors. The school nurse in conjunction with the school physician and parents/guardians will determine whether a student is permitted to self-administer medications in school. The parent/guardians should provide a medication order from their child's doctor and a signed consent form to self administer medication in school.

SHARING INHALERS WITH CLASSMATES IS PROHIBITED.

ABSOLUTELY NO NARCOTIC MEDICATIONS WILL BE ADMINISTERED AT SCHOOL.

Students requiring the use of narcotics for pain relief (i.e. Percocet, Vicodin, Tylenol # 3, Codeine, etc.) should not take the medication before coming to school or during the school day.

INSURANCE IN SCHOOL

1. School insurance is available to all students.
2. Students using power tools as part of a class for participation must have some form of health insurance. If you are covered by your family's health policy, school insurance will pay only what your family's policy does not cover.
3. School insurance is a supplemental policy only. There are also certain financial limits and exemptions that school insurance will not pay. Please read the insurance form carefully before you buy the insurance.

The School Nurse is available for all medical emergencies that occur. In addition, regular health care including screening is available.

- **Please do not send your child(ren) to school without appropriate and safe footwear.**
- **Wheeled shoes (i.e. Heelies) are not acceptable or safe, therefore are not allowed in the elementary school, the middle or the junior/senior high school.**
- **Flip-flops and open toe shoes are not acceptable or safe, therefore are not allowed in the elementary school and the pre-school. All footwear must securely adhere to the foot.**

INVESTIGATIONS AND SEARCHES

Searches by Staff

(Adopted July 16, 1998)

The right of inspection of lockers and desks used by students and automobiles parked on school grounds is inherent in the authority granted to School Committees and administrators. This authority may be exercised as needed in the interests of safeguarding students, staff, and property and as otherwise appropriate in providing a safe and secure learning environment.

All lockers and desks remain the sole and exclusive property of the Ware Public Schools. The administration reserves the right to search lockers and desks and automobiles on school grounds without advance notice. To the extent that it is practicable and warranted under the circumstances, public schools shall make an attempt to contact the student prior to the search and provide the student with the opportunity to open the locker and/or automobile in the presence of one (1) or more school administrators and allow the student to remove the contents for inspection by the administrator(s).

When the administration provides locks for lockers, the administration will retain keys or combinations for all locks for the purpose of inspecting lockers when appropriate. If students are allowed to provide their own locks, the administration will be given a duplicate key and/or the combination for such lock for the purpose of inspecting lockers when appropriate. Students shall only put school related items and necessary clothing items in their lockers. Students will bring no contraband or other items, which are not appropriate for a public school environment onto school grounds and/or into a school building.

If school staff has reason to believe that a student may have violated a school rule or policy or engaged in criminal conduct, the staff shall immediately report such information to the building Principal or immediate supervisor or, if the building Principal or immediate supervisor is not available, to his/her designee. If the school administrator has credible information to believe that

contraband or other evidence relating to a potential violation of school policy or rules or criminal conduct is on the student's person, in a book bag, in a locker, desk or other area, or a vehicle on school grounds, the school administrator may conduct a search to find such contraband or other evidence provided the search is reasonable under all of the circumstance.

The administrator shall promptly notify the Superintendent of any such search if circumstances do not permit notification prior to the search. If the search yields any contraband or other evidence that indicates that a student has violated a school policy or rule or engaged in conduct, the administrator shall secure such evidence. Any evidence of a crime shall be promptly reported and turned over to law enforcement officials.

INVESTIGATIONS PROCEDURES

1. No student should be interrogated on school premises by law enforcement officials (including local and state police, fire department and/or state fire marshal's office) without the permission of the Principal or his/her designee. The building administrator will promptly notify the Superintendent's office.
2. Interrogation of students on school premises by law enforcement authorities will be conducted in private with a school administrator present. Any responsibility for informing a student of his/her rights or other procedural requirements will be the responsibility of the law enforcement personnel. Any physical searches of students or their belongings will be conducted in accordance with applicable procedures.
3. If law enforcement authorities determine that a crime may have been committed and a criminal investigation is warranted, they will follow their respective department guidelines when investigating a crime. They will conduct themselves in accordance with School Committee policy to the extent that this does not conflict with their Department guidelines.
4. Once law enforcement authorities begin conducting an interrogation of a student suspected in the commission of the crime, then school administrators may be found to be acting as the agent of the law enforcement authorities with respect to the interrogation of a student suspected of criminal activity. Absent exigent circumstances, if the student is under the age of fourteen (14), the student's parent or guardian will be notified and be given the opportunity to be present during any interrogation. Similarly, absent exigent circumstances, a parent or guardian will also be notified, prior to any questioning, if their child is to be questioned in connection with witnessing a crime.
5. It is the role of both the school administration and law enforcement authorities to cooperate and communicate in the investigation of the commission of a crime, which occurs on school premises. If the school administration has any physical evidence that a crime has occurred, such evidence shall be turned over immediately to law enforcement authorities.
6. As a result of its investigation, if the school administration has any written statement from witnesses or alleged perpetrators obtained prior to the police or fire department interrogation or independent of the police or fire interrogation, such statement shall be turned over to the police. However, the names of informants shall be removed from such written statement, if, in the judgment of school officials, the disclosure of names would discourage those individuals or others from making similar disclosures in the future or may result in harassing behavior toward those informant or witnesses. The school administrators shall be responsible for notifying parents of students when written statements are provided to law enforcement officials.
7. Oral statements obtained by school administrators will be relayed to the appropriate law enforcement officials, however, the names of those individuals providing oral statements, as informants shall not be turned over to the law enforcement personnel, unless the individual agrees to disclosure or is so ordered by a court of competent jurisdiction.

GUIDELINES FOR CANINE SEARCHES OF SCHOOLS

1. When using canines to locate controlled substances in a school, the canines may be directed by their handlers to sniff inanimate objects such as desks, lockers, book bags that are not in the immediate possession of students, bathrooms that are not being used by students, classrooms that are not being used by students, and cars parked on school grounds. These types of examinations by canines are not "searches" under the state and federal constitutions.
2. Absent exigent circumstances, canines should not be used to sniff students' persons and belongings in the immediate possession of students, nor should they be used in a manner that causes flight or significant apprehension in students. These types of examinations by canines constitute "searches" and are prohibited under the state and federal constitutions unless probable cause exists to believe that the student being sniffed possesses a controlled substance.
3. If school officials want to search particular classrooms or other areas being used by students, the students must be escorted away from the area by school officials before canines are brought in to the area to look for drugs.
4. School canine searches should be planned and conducted in a manner that leaves open an option for school and police officials to decide to seek criminal complaints against students found in possession of drugs and maximizes the likelihood that drugs found during searches will not be suppressed in court.
5. Although an alert by one canine to the presence of controlled substances may constitute probable cause, if a canine alerts to the presence of a controlled substance in a student's locker, desk, book bag, car or other belongings, a search should not be conducted until a second canine is brought in to examine the same area. We recommend a system of

using canines to corroborate each other. Courts are more likely to conclude that probable cause existed if two canines are independently alerted to the presence of a controlled substance in the same area.

6. If two canines independently alert to the same locker, desk, book bag, car or other area, it is recommended that a search warrant for that area be obtained. Obtaining a search warrant best preserves the option of deciding to seek a criminal complaint if drugs are found. Courts are less likely to suppress drugs that are found during a search conducted pursuant to a warrant. But, if school and police officials decide not to seek a search warrant, the area still may be searched without a warrant. The search should be conducted by school officials, in accordance with school policy. If a controlled substance (or what appears to be a controlled substance) is found, school officials must report such information to the police and permit police officials to take custody of the controlled substance.
7. If the first canine alerts to the presence of a controlled substance in a particular locker, desk, book bag, car or other area, but the second canine does not alert to the same area, we do not recommend seeking a search warrant. In such a case, school officials should be asked to decide whether to conduct a search in accordance with school policy. If a controlled substance (or what appears to be a controlled substance) is found, school officials must report such information to the police and permit police to take custody of the substance.

SEARCH AND SEIZURE

The administration has the legal right to inspect, without notice, lockers, desks and any other facilities or areas that may be assigned to students for individual use. Failure to comply with a request for a search or fleeing will be interpreted as an admission of guilt, and the student will be dealt with accordingly.

LOST AND FOUND

Articles that have been found in the school building or on the school grounds will be placed in the lost and found location. Any item lost or left on a school bus may be claimed by contacting the bus company.

NON-DISCRIMINATION AND GRIEVANCE PROCEDURES PARENT'S AND STUDENT'S RIGHTS UNDER SECTION 504, TITLES II, IV, VI, IX AND THE AMERICANS WITH DISABILITIES ACT

It is the policy of the Ware Public Schools to comply with all applicable provisions of Section 504 of the Rehabilitation Act of 1973, as well as those contained in Title II, Title IV, Title VI, Title IX, and the Americans with Disabilities Act. These Acts prohibit discrimination against persons with a handicap in any program, which receives federal funding. A person with a handicap is defined as one who:

- has a mental or physical impairment, which substantially limits one or more major life activities;
- has a record of such impairment; or
- is regarded as having such impairment.

The Ware Public Schools recognizes its responsibility to avoid discrimination in policies and practices involving both students and staff. No discrimination against anyone who falls under the provisions of Section 504 will knowingly be permitted in any program or practice of the Ware Public Schools. Accordingly, the Ware Public Schools acknowledges that it has specific responsibilities to identify such handicapped persons, to evaluate such persons, and, if they are eligible under Section 504, to provide them with reasonable accommodations to the appropriate educational services.

Any student, parent or legal guardian who believes that he or she has been discriminated against on the basis of a handicap should immediately file a written complaint with the Director of Special Education of the Ware Public Schools, who will then investigate the complaint.

No student, parent or guardian who has filed such a complaint will be subject to coercion, intimidation, interference or retaliation for registering a complaint or assisting in the investigation of the complaint.

Parent(s)/Guardian(s) Notice of Rights under Section 504

9. Examine all relevant records relating to decisions regarding your child's identification, evaluation, educational program and placement;

11. Receive a response from the school district to reasonable requests for explanations and interpretations of your child's records;
12. Request amendment of your child's educational records if there is a reasonable cause to believe that they are inaccurate, misleading, or otherwise in violation of the privacy rights of your child. 13. File a grievance;
14. Request mediation or an impartial due process hearing related to decisions or actions regarding your child's identification, evaluation, educational program, or placement. Address: P.O. Box 240, 239 West Street, Ware, MA 01082
Phone: (413) 967-7261

GRIEVANCES

The Ware Public Schools has established an internal procedure in order to provide for prompt and equitable resolutions of complaints alleging any action prohibited by the United States Department of Justice regulations implementing Title II of the Americans with Disabilities Act. Title II of the ADA regulations largely reinforces Section 504 of the Rehabilitation Act of 1973. This procedure is also to be followed when lodging complaints involving alleged violations of Title IV, Title VI and Title IX.

Title II states, in part, that “no otherwise qualified disabled individual shall, solely by reason of such disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination in programs or activities” sponsored by the public entity.

Title IV of the 1964 Civil Rights Acts provides that no person shall on the ground of race, color, or national origin be excluded from participating in any program receiving federal financial assistance.

Section 901(a) of Title IX of the Education Amendments of 1972 prohibits any educational program or activity from discriminating on the basis of sex.

Section 504 of the Rehabilitation Act of 1973 protects the rights of individuals with disabilities within the work and school setting. Section 504 is a federal civil rights statute.

Section 601 of Title VI prohibits discrimination on the basis of race, color, or national origin.
 (Note: complaints that do not allege discriminatory conduct should be directed to the building Principal.)

GRIEVANCE PROCEDURE

A. Definitions

A “Grievance” is a complaint made pursuant to, and arising out of, the Ware Public Schools obligations under Section 504 of the Rehabilitation Act, Title II, Title IV, VI, Title IX, and the ADA.

An “Aggrieved Party” is a person or persons making the complaint.

B. Purpose

The Purpose of this grievance procedure is to secure prompt and equitable solutions to grievances, which may, from time to time, arise pursuant to Section 504, Title II, Title IV, Title IX, and the ADA

C. General

No aggrieved party will be subject to coercion, intimidation, interference, or discrimination for registering a complaint or for assisting in the investigation of any alleged complaint within the context of this grievance procedure.

All documents, communications, and records dealing with the filing of a grievance will be kept confidential to the full extent provided by law.

Forms for filing grievances will be provided upon request by the Ware Public Schools' Section 504, Title II, Title IV, Title IX and ADA District Coordinator, Director of Special Education

D. Procedure

1. When the aggrieved party is a student or student's parent/guardian: The aggrieved party should complete the Grievance Form and return it to the Section 504 School Coordinator of the school building in which the alleged grievance occurred. The complaint should be filed within fifteen (15) days after the complainant becomes aware of the alleged violation. (Allegations of discrimination occurring before this grievance procedure was in place will be considered on a case-by-case basis). Assistance will be provided, upon request, to enable an individual to complete the Grievance Form and pursue the grievance process.
2. Within ten (10) school days after receiving the grievance, the Section 504 School Coordinator shall meet with the aggrieved party in an effort to resolve the grievance. This investigation into the complaint is contemplated to be thorough, but informal, in nature. All interested persons and their representatives, if any, shall be afforded an opportunity to be heard and to submit evidence relevant to the complaint. If the grievance is not resolved, it will be forwarded to the Section 504 District Coordinator.
3. Within thirty (30) school days of receipt of an unresolved grievance, the Section 504 District Coordinator will conduct a hearing to determine what, if any, action shall be taken in response to the grievance. The hearing shall be held at a time and place mutually convenient to all parties. The hearing procedure will follow appropriate due process procedures, including:
 - a. the opportunity for the aggrieved party to present the grievance in any suitable manner;
 - b. the right of the aggrieved party to an impartial hearing officer;
 - c. the right of the aggrieved party to be represented by counsel or an advocate at the aggrieved party's expense (the aggrieved party should notify the Section 504 District Coordinator if he/she will be represented by counsel);
 - d. the right of the aggrieved party to a prompt decision.
4. A written determination of the validity of complaint and a description of the resolution, if any, shall be issued by the Section 504 District Coordinator and forwarded to the complainant no later than fifteen (15) working days after its filing. The determination of the validity of the complaint and the description of the resolution will be provided in an alternate format, upon request, if needed for effective communication.
5. The complainant can request a reconsideration of the case in instances where he or she is dissatisfied with the resolution. The request for reconsideration should be made within fifteen (15) working days following receipt of the written determination to the Superintendent of the Ware Public Schools.
6. The right of a person to a prompt and equitable resolution for the complaint filed hereunder shall not be impaired by the person's pursuit of other remedies such as the filing of an ADA complaint with the responsible federal department or agency. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies.
7. These rules shall be construed to protect the substantive rights of the interested persons to meet appropriate due process standards and to assure that the Ware Public Schools comply with the ADA and implementing regulations.
8. Copies of all resolutions and findings made under this procedure shall be filed with the Superintendent's office of the Ware Public Schools.

OPEN HOUSE

There will be at least one Open House planned in the fall. It is an opportunity for parents to meet their child's teacher and to learn about the curriculum for the child's grade level. This also provides parents with an opportunity for them to see what will be expected of their child and to see how they, as parents, may help.

This event is not conference time to discuss individual student work or behavior. A separate conference with the child's teacher may be arranged for a mutually convenient time.

PARENTAL NOTIFICATION RELATIVE TO SEX EDUCATION

In accordance with General Laws Chapter 71, Section 32A, the Ware School Committee has adopted this policy on the rights of parents and guardians of our students in relation to curriculum that primarily involves human sexual education or human sexuality issues.

At the beginning of each school year, all parents/guardians of students in our schools will be notified in writing of the courses and curriculum we offer that primarily involves human sexual education or human sexuality issues.

The Superintendent of Schools will designate the building Principals as responsible for sending the notice(s). Parents/guardians of students who enroll in school after the start of the school year will be given the written notice at the time of enrollment.

If the planned curriculum changes during the school year, to the extent practicable, parents/guardians will be notified of this fact in a timely manner before implementation.

Each such notice to parents/guardians will include a brief description of the curriculum by this policy, and will inform parents/guardians that they may:

(1) Exempt their child from any portion of the curriculum that primarily involves human sexual education or human sexuality issues, without penalty to the student, by sending a letter to the school Principal requesting an exemption. Any student who is exempted by request of the parent/guardian under this policy may be given an alternative assignment.

(2) Inspect and review program instruction materials for these curricula, which will be made reasonably accessible to parents/guardians and others to the extent practicable. Parents/guardians may arrange with the Principal to review the materials at the school, and may also review them at other locations that may be determined by the Superintendent of Schools. A parent/guardian who is dissatisfied with a decision of the Principal concerning notice, access to instructional materials, or exemption for the student under this policy may send a written request to the Superintendent for review of the issue. The Superintendent or designee will review the issue and give the parent/guardian a timely written decision preferably within two weeks of the request. A parent/guardian who is dissatisfied with the Superintendent's decision may send a written request to the School Committee for a review of the issue. The School Committee will review the issue and give the parent/guardian a timely written decision, preferably within four weeks of the request. A parent/guardian who is still dissatisfied after this process may send a written request to the Commissioner of Education for review of the issue in dispute.

The Superintendent of Schools will distribute a copy of this policy to each Principal prior to the start of each school year.

PHYSICAL RESTRAINT

In accordance with G.L. Chapter 71, Section 37G and the Department of Elementary and Secondary Education's regulations concerning the Use of Restraint, 603 C.M.R. S 46.00 et seq., the Ware School Committee hereby adopts a Use of Restraint Policy. In the event of any conflict between this policy and the law or regulations, the latter shall prevail. A copy of the Massachusetts Department of Elementary and Secondary Education's Use of Restraint regulations and this policy shall be available for inspection in each school building. This policy applies to all events and activities sponsored by the school district whether or not they occur on school grounds.

USE OF RESTRAINT POLICY

(File: JIF)

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district

may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm.

I. WHAT IS A RESTRAINT? The definitions of forms of restraint shall be as defined in 603CMR 46.02. The use of mechanical restraint, medical restraint, and seclusion is prohibited.

II. WHEN MAY RESTRAINT BE UTILIZED? Physical restraint, including prone restraint where permitted under 603 CMR 46.03, shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

III. WHO CAN ADMINISTER A RESTRAINT? Each building Principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

IV TRAINING Each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

APPROPRIATE AMOUNT OF RESTRAINT, FOLLOW UP PROCEDURES, AND REPORTING:

The Superintendent will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00,
- A process for obtaining Principal approval for a time out exceeding 20 minutes.

PLAGIARISM

Plagiarism is using another's phrasing and/or ideas without giving credit to the source. Whether this is done intentionally or not, plagiarism is a form of stealing – stealing the intellectual product of another.

If a student commits plagiarism, he/she will receive a zero (0) grade on that piece of work and the student's parents will be informed. If plagiarism by a student occurs repeatedly, further disciplinary action will be taken.

PROMOTION AND RETENTION OF STUDENTS

The School Committee is dedicated to the best total and continuous development of each student enrolled. The professional staff is expected to place students at the grade level best suited to them academically, socially, and emotionally.

In evaluating student achievement, each teacher will make use of all available information, including results of teacher-made tests and other measures of skill and content mastery, standardized test results, and teacher observation of student performance. The Principal will direct and aid teachers in their evaluations and review grade assignments in order to ensure uniformity of evaluation standards.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgment of the professional staff, such exceptions are in the best educational interest of the student involved. Exceptions will only be made after prior notification and explanation to each student's parents, but the final decision will rest with the building Principal.

SCHOOL VOLUNTEER POLICY

(File: IJOC)

Volunteers are integral to the success of Ware School District. We deeply respect and encourage the many efforts of our exceptional volunteers who give so willingly of their time to the staff and students of the Ware School District.

The Ware School District encourages and promotes the use of school volunteers in order to expand and enhance parental and community involvement within our schools while maintaining safety and security for students and staff.

The sole purpose of this policy is to assist volunteers in the performance of their support for Ware School District. Nothing in this policy shall be deemed to create a contract between the school volunteer and the Ware School District (Schools) or Town of Ware (Town). Nor shall this policy in any way affect the Schools' or Town's ability or right to terminate its association with any volunteer for any reason with or without cause.

A "school volunteer" is defined as an individual who performs a service functioning within the Ware School District without compensation, remuneration or other consideration, and who shall serve under the immediate supervision and direction of the professional staff of the district to which he/she is assigned. School volunteers shall serve without benefits of any type accorded to employees of the district. Volunteer opportunities include but are not limited to: field trip chaperones (day and overnight), mentoring, tutoring, assisting in a classroom, library, computer lab, cafeteria, or on a playground or other designated duties. Participation in Booster Clubs, School Advisory committees, Parent Teacher Associations, or similar activities that occur outside of school hours and are not school sponsored activities are not covered under the provisions of this volunteer policy. A school volunteer need not be a parent of a student enrolled in the school district. A school volunteer also applies to temporary employees and limit service individuals.

An individual who wishes to volunteer at a school shall apply in writing and be approved by the Principal or assistant Principal prior to serving at the school. All volunteers must complete, sign, and date a Ware Public School Volunteer Program Registration Form, CORI authorization form and participate in the ethics online training program before being placed in a school or beginning service as a school volunteer. No school volunteer may be placed in a school until the Schools have received a CORI. Principals will ensure that an orientation session be provided annually. Each volunteer will receive a Volunteer Handbook.

SELLING OF MERCHANDISE

Students are not permitted to sell anything on school campus for personal profit. All fundraisers must be approved by administration.

STRUCTURED LEARNING CENTER

The Structured Learning Center (SLC) is a regular education therapeutic intervention designed to meet the social, emotional, and behavioral needs of students and achieve the following goals:

- Create a structured, safe and predictable learning environment that supports students in improving their academic skills.
- Maintain students in the public school setting by providing a quiet space to work when overwhelmed.
- Stabilize disruptive behaviors and teach alternative, appropriate behaviors.
- Transition students from out-of-district placements and into the public school environment.

According to their IEP, Sec. 504 plan, Behavior Intervention Plan, and/or District Curriculum Accommodation Plan, students may utilize the SLC on an as-needed, part-time basis, or full-time basis. Classroom teachers maintain the students on their rosters and provide assignments to the SLC.

STUDENT DRESS CODE

(File: JICA)

The responsibility for the dress and appearance of the students will rest with individual students and parents/guardians.

They have the right to determine how the student will dress providing that attire is not destructive to school property, complies with requirements for health and safety, and does not cause disorder or disruption. The administration is authorized to take action in instances where individual dress does not meet the stated requirements.

This does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that students will not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the requirements set forth above.

STUDENT/STAFF USE AND/OR ABUSE OF CONTROLLED SUBSTANCES

Pursuant to the Drug-Free Workplace Act of 1988 and any other appropriate State or Federal Legislation, the Ware School Committee recognizes that it has a duty to take reasonable and responsible measures to prevent the introduction of any and all drugs that may be recreationally used and/or abused into the school environment and to take prompt remedial action should we learn that it has occurred. The term “drug” in this policy applies to, but is not limited to, the following: alcohol, marijuana or marijuana related items containing THC, amphetamines, barbiturates, cocaine, heroin, codeine, hashish, LSD, methadone, organic solvent (glue, cleaner, aerosols), peyote, mescaline, etc., and any and all prescription medication improperly obtained from home or through non-medical transactions (although this does not include any legally obtained prescription or over-the-counter stop-smoking products). There will be absolutely no use of tobacco or nicotine dispensing items (to include, but not be limited to, cigarettes, cigars, rolling papers, chewing tobacco, smokeless tobacco, vaporizers, electronic cigarettes) of any kind on school grounds at any time by students and staff. Violators will be subject to student suspension and disciplinary action for staff. In addition, it should be made clear that students and faculty will be disciplined for possession or use of any of the substances heretofore described. For purposes of clarification, the use and/or abuse of such substances shall be prohibited in school buildings, in school facilities, on school grounds, on school buses at any time or at any school-sponsored event. The Ware School Committee further needs to encourage the school and the community to cooperatively develop and conduct programs that provide every child with a good understanding of the physical, psychological, and social dangers associated with drug abuse. The school administration will work cooperatively with police, medical and social agencies, and other community organizations, in the matter of drug education and drug abuse and prevention.

The Ware School District shall establish and maintain a referral system for any student enrolled in the school and seeking help with a personal problem that involves drug usage. The Ware School District recognizes that rehabilitation and education are the most significant factors in helping individuals. To this end students will have a curriculum that gives proper attention to the issues of drug abuse. All Ware School District faculty and staff shall hold confidential any and all student requests for referral to drug rehabilitation.

The Superintendent of Schools will develop guidelines and procedures, which shall provide a system of discipline and support services for students who possess, use, distribute, or sell drugs on school property and school buses or at any event sponsored by the school system. Such regulations are intended to discipline transgression of school rules, protect non-users of drugs and provide help for drug abusers.

This policy does not create regulations but does provide guidelines and establishes a framework for authority by which those regulations are supported. The administration is guided by the following:

1. Where there is evidence of a violation of this policy, the administration will conduct a thorough investigation of any student/staff, his/her locker or possessions..
2. Where there is evidence of violation of this policy, the administration will notify the parents of the student and the proper authorities for every infraction.
3. Evidence of possession and/or distribution of drugs will be referred to the police department but this shall not, in any way, diminish the right of school officials to take disciplinary action and/or make referral for rehabilitation.
4. For the purposes of this policy, “under the influence” shall mean having made use of any substance prohibited under this policy and includes but is not limited to any perceptible degree of impairment of a student’s functioning.
5. A violation of this policy will be considered grounds for suspension and/or expulsion from school.

6. The Ware School District recognizes that parents have rights and responsibilities in matters that affect their children. The Administration will take reasonable measures to notify students' parents immediately whenever their children are found to be in violation of this drug policy or other drug regulations.
7. Persons who knowingly support or conceal the use, possession of, or distribution of drugs on school grounds shall be deemed to have violated school regulations and shall be subject to disciplinary action.
8. In matters involving student suspension and/or expulsion, the Ware School District will adhere to the District's discipline policies and procedures.
9. Any employee who violates this policy shall be subject to disciplinary action per collective bargaining agreement.

Specifically regarding the use and abuse of non-medicinal tobacco products, it shall be the policy of the Ware School Committee that:

- The school curriculum shall include information on the health risks associated with the use of tobacco products.
- Signs shall be posted at each school building indicating that smoking is prohibited by policy and requirements of state law.
- Any member of the staff who violates this policy shall be subject to disciplinary action up to, and including, discharge.
- Any student who violates this policy shall be subject to student disciplinary procedures up to, and including, expulsion.
- Copies of this policy are available upon request from the Principal of each school.
- This policy shall be promulgated to all staff and students in appropriate handbooks and publications.

1. Permission must be given to use the office telephone by office personnel only.
2. The office phones may be used only in an unusual circumstance. The office staff will place the call for the students.
3. **Cell phones and other electronic devices are to be off and away during school hours!**
4. Ware Junior Senior High School has a building-specific cellular phone use provision. See Ware Junior Senior High School Handbook section.
5. Cell phones are permitted during lunch and scheduled mask breaks for the 2020-2021 school year.

STUDENT RECORDS

Student Transfer: When a student transfers out of the Ware Public Schools, the school will send the student records directly to a public school to which the student seeks or intends to transfer, without consent of the eligible student or parent.

Student Records File: JRA-R

In order to provide students with appropriate instruction and educational services, it is necessary for the school district to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent will provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations. The temporary record of each student enrolled will be destroyed no later than seven years after the student transfers, graduates or withdraws from the School District. Written notice to the eligible student and their parent/guardian of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation, or withdrawal. The student's transcript may only be destroyed 60 years following their graduation, transfer, or withdrawal from the school district.

The Committee wishes to make clear that all individual student records of the school district are confidential. This extends to giving out individual addresses and telephone numbers.

SUPPLEMENTARY MATERIALS SELECTION AND ADOPTION

The school committee recognizes that knowledge is changing and expanding and that it may be necessary to use various types of supplementary materials in addition to the basic and fundamental textbooks.

For the purposes of this policy, supplementary materials shall be defined as any instructional materials other than textbooks including, but not limited to, books, periodicals, newspapers, pictures, diagrams, maps, charts, slides,

filmstrips, films, records, audiotapes, websites and suitable technological applications which relate directly to the adopted curriculum.

The school committee believes that teachers and administrators should have a large role in selection and recommendation of supplementary materials. Teachers are encouraged to use a wide range of learning aids, provided the expense incurred in purchasing these aids remains within the limits of the budget.

Adopted: April 8, 1997

TEXTBOOKS

The school furnishes books to all students. This is done with the expectation that this major investment by the School Committee will be properly cared for. Unreasonable damage to textbooks will result in fines; lost textbooks must be replaced with new texts paid for by the student.

TRANSPORTATION (PARTIAL FILE: EEAA)

The School Committee will provide transportation for students as follows:

Kindergarten: All students, except those living in immediate proximity to the school, as determined by the Superintendent.

Elementary: Students living more than one mile from school.

Middle School: Students living more than one and one-half miles from school.

High School: Students living more than two miles from school.

The Ware Public Schools permits exceptions to these guidelines to be made by the bus contractor with the approval of the Superintendent of Schools. This will apply particularly to any student who must travel on a hazardous road. A determination of a hazardous road is made by an on-site inspection by the Superintendent of Schools, the Town Safety Officer and the bus contractor. A hazardous road is one without sidewalks and has one or more of the following characteristics:

- (a) inadequate room for two vehicles to pass in good weather
- (b) poor visibility over long stretches of the roadway
- (c) posted speeds higher than 40 miles per hour
- (d) an exceptionally heavy flow of traffic.

For purposes of this regulation, crossing a street does not constitute a hazardous situation. Notice of exceptions will be given to the School Committee.

School bus stops are established by the bus contractor to provide a balance between economy of operation, schedules and convenience. No student will be required to walk more than one mile to a bus stop. Every attempt will be made to have bus stops for kindergarten children at or near their home.

Students are reminded that the official school day begins when you board the bus in the morning and ends when you leave the bus at your regular stop at the end of the day. You are under the jurisdiction of the school administration during this entire period, bus rules are also in effect at any time a student is being transported by bus to a field trip destination, after school activity, etc. Remember it is a privilege to ride the school bus. All school rules contained below as well as those listed in your School Code of Conduct are in effect.

1. Be at your bus stop **five minutes** before the designated pick-up time and be ready to board the bus with the least possible amount of delay in order to keep the bus on schedule.
2. Students shall not stand or play in the roadway while waiting for the bus.
3. Remain at least five feet from the bus when it stops to pick-up. Move towards the bus only when the door opens.
4. Once boarded on the bus, take a seat as quickly as possible.

7. Students shall not bring dangerous weapons on the bus. Dangerous weapons are defined as any traditional weapons (knives, gun/firearms, cudgels, brass knuckles, etc.) and any object which, by its use is intended to threaten or cause bodily harm to another. Students caught with such an instrument may be suspended from transportation IMMEDIATELY and transportation for that student will not be resumed until parents or guardians have been in touch with the school Principal.
8. Obey the bus operator at all times while under his/her supervision. The bus driver is in charge of the bus and passengers and is responsible for the safety of pupils and their conduct on the bus.
9. There will be no smoking, vulgarity, and boisterous or other improper conduct allowed. Maintain an acceptable manner or behavior at all times. (i.e. no threats or harassment).

10. All students must remain seated while the bus is in motion or if the bus is delayed on the road.
11. Students shall not extend arms, head, or any other parts of body or any objects out of the window.
12. Keep aisles free from any obstruction, i.e. books, musical instruments, lunch boxes.
13. Students shall not eat or drink while on the bus.
14. Students shall not damage, deface, or letter any part of the bus.
15. In the event that damage occurred to the bus by students, suspension may occur and the students may not be allowed to ride until restitution has been made to the bus company.
16. Remain absolutely quiet when approaching a railroad crossing.
17. Students may not tamper with the operating mechanism on the emergency door.
18. Students may not operate the service door. This is the responsibility of the drivers only.
19. Students loading the bus on a street where the bus passes in both directions are asked to wait until the bus passes on their side so that they will not have to cross the road.
20. Students who must cross the road when loading/unloading are asked to cross in front of the
21. Students may not bring, use, or distribute illegal substances on the bus.
22. Use emergency door in case of emergency only.

These rules and regulations are guidelines issued as a general mode. The Ware Public Schools reserve the right to deviate from the general guidelines based on the specific facts and circumstances of a given situation. Violators of these rules and regulations may be denied the privilege of riding any school bus operated for the Ware Public Schools.

For all bus offenses, a written referral will be submitted by the bus driver to the building Principal. A second offense may result in loss of privilege to ride any school bus for three (3) days. A third offense may result in loss of privilege to ride any school bus for five (5) days. Disrespect, verbal abuse, or use of foul language towards any bus driver may result in loss of the privilege of riding any school bus for five (5) days or more.

Bus Rule offenses, which endanger health and safety, will be referred to the school administrators for action. These would include, but not be limited to, behaviors which normally lead to suspension from school under the School Code of Conduct, e.g., vandalism; insubordination; fighting; assault; possession, distribution, and/or use of illegal substances; possession of a dangerous weapon or incendiary devise; theft; smoking; possession of tobacco paraphernalia; harassment and any other behaviors deemed of a serious or chronic nature.

Students are reminded that the official school day begins when you board the bus in the morning and ends when you leave the bus at your regular stop at the end of the day. Bus rules are also in effect at any time a student is being transported by bus to field trip destination, after-school activity, etc.

Section 3:

Whoever induces or attempts to induce a minor to be absent is subject to a fine. A minor who, while school is in session, is absent unlawfully, shall be punished.

VALUABLES

1. Students are responsible for taking care of any money and other valuables that they bring to school.

2. Valuable items such as iPods, MP3 players, portable CD players etc., are not allowed to be brought to school because the school cannot guarantee their security. If these items are used in school they will be confiscated.
3. Cellular phones are considered detrimental to the educational process and will be turned off and put away during school hours. The school system is not responsible if they are lost or stolen.

WEAPONS

(Adopted July 17, 1997)

The Ware School Committee is concerned over the rising tide of violence in our society and prohibits the use of tobacco products, the possession of and/or the use of illegal substances, the possession of a dangerous weapon, and/or the use of force, vandalism or violations of other student's civil rights. These prohibitions pertain to use and/or possession within the school buildings, the school facilities, on the school grounds, or on school buses by any individual including school personnel. "Illegal substances" are defined as controlled substances including, but not limited to marijuana, cocaine and heroin. "Dangerous weapon" is defined as any traditional weapon (knife, gun/firearm, cudgels, brass knuckles, etc.) and any object which, by its' use was intended to threaten or cause bodily harm to another.

Any Ware School Department personnel shall report in writing to their immediate supervisor any incident involving a student's possession or use of a dangerous weapon on school premises at any time. Such written report of the incident must be submitted before the end of the day of the employee's first knowledge of the incident.

Supervisors who receive such a weapon report from a subordinate shall make a written report of the incident and any investigation conducted into the incident shall transmit both the subordinate's report and the supervisor's report directly to the Superintendent prior to the end of the day of the supervisor's first knowledge of the weapon incident. The Superintendent shall file copies of said weapon report with the local chief of police, the department of social services, the office of student services (i.e. Department of Pupil Personnel Services) in the Ware School District and the Ware School Committee. The Superintendent, Police Chief, and representative from the department of social services, together with a representative from the department of Pupil Personnel Services, shall arrange an assessment of the student involved in said weapon report. Said student shall be referred to a counseling program; provided, however, that said counseling shall be in accordance with acceptable standards as set forth by the board of education. Upon completion of a counseling session, a follow-up assessment shall be made of said student by those involved in the initial assessment.

This policy contains the following provisions:

1. Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon; or a controlled substance including, but not limited to marijuana, cocaine, and heroin, may be subject to expulsion from the school district by the Principal.
2. Any student who assaults a Principal, assistant Principal, teacher, teacher's aide or other educational staff on school premises or at school sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the Principal.
3. Any student who is determined to have brought a gun/firearm to school shall be expelled. The period of expulsion shall be a minimum of one (1) year as a disciplinary sanction, subject to modification by the Superintendent, if warranted on a case-by-case basis.
4. Any student who is charged with a violation of either paragraph (1), (2), or (3) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the Principal. After said hearing, a Principal may, in his/her discretion, decide to suspend rather than expel a student who has been determined by the Principal to have violated either paragraph (1) or (2). Provided, however, that any Principal who decides that said student should be suspended shall state in writing, if necessary, to the school committee his/her reasons for choosing the suspension instead of the expulsion as the most appropriate remedy. In this statement, the Principal shall represent that, in his/her opinion, the continued presence of this student in the school will not pose a threat to the safety, security and welfare of the other students and staff in the school.
5. Any student who is expelled from the Ware School District under the provisions of this section shall have the right to appeal to the Superintendent. The expelled student shall have ten (10) days from the date of the expulsion in which to notify the Superintendent of his/her appeal. The student has the right to counsel at a hearing before the Superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this policy.

6. When a student is expelled from the Ware School District under the provisions of this policy and applies for admission to another school for acceptance, the Superintendent of the Ware School District shall notify in compliance with the Education Reform law the Superintendent of the receiving school of the reason for the pupil's expulsion.
7. A student transferring into the Ware School District must provide the Ware School District with a complete school record as an entering student. Said record shall include, but not be limited to, any incidents involving suspension or violation of criminal acts or any incident reports in which such student was charged with any suspended act.

 3. Prior to dismissal, the student should return this form to guidance and sign out in the withdrawal register. The guidance department will provide a transfer card and accompanying data for admittance to another school system.

All doctor notes or written excuses must be passed in when the student returns to school from the absence. They will not be accepted after the student has exceeded the ten days for the semester.

ABSENCES

Regular attendance and punctuality are necessary ingredients in a student's success in school. We recognize, however, that illness will prevent attendance on occasion. Please notify the office (976-6236) by 9:30 AM on the day when your child is absent.

AFTER SCHOOL PICK-UP

(Student dismissal other than regular bus transportation)

- Those students designated to be parental pick-ups will be released before the first round of buses are dismissed.
- All students to be picked up will be dismissed at 3:10 to the cafeteria. At that time they will be escorted/report to the cafeteria to be signed out by a parent or designee. (Any designee will have to be listed on the student's emergency card.)
- At 3:15 PM, parents/designees will enter through the side door leading into the cafeteria to pick up their children. (Adjacent the football field) Upon entering, a representative from the main office will have parents/designee sign in, and they will be required to present picture identification as well, particularly at the beginning of the school year.

However, once again, they will also need to sign their child (ren) out before taking them out of school. This process will be adhered to consistently. There will be no exceptions, as once again, safety and accountability are the priorities.

- Parents/Designees will park in designated visitor spaces, or to the rear of the building. **Once again, dismissal is at 3:15 PM, and those students being picked up will not be dismissed early to avoid any potential congestion, delays, etc., with bus dismissal.**

PARENT PROCEDURES ON SCHOOL GROUNDS

- **Morning Student Drop Off:** Student drop off in the front circle is between 8:45-9:00 A.M. Teachers and staff are not on duty prior to 8:45 A.M., with the exception of the early breakfast option in the cafeteria at 8:40 A.M. Breakfast is available beginning at 8:40 A.M. Students who are being dropped off and would like to eat breakfast at 8:40 A.M. need to be walked in and brought down to the cafeteria by a parent/guardian. Student drop off in the front circle begins at 8:45 A.M. and is both for students heading to classrooms or eating breakfast. Please do not drop off your child(ren) before 8:40 A.M. unless you are walking them in to breakfast. Please avoid driving to the rear of the building, as that will create congestion and safety issues. If parking is needed, please do so near the playground and escort your child into the building. There is no parking in the front circle.
- **Student Sign-Out:** Parents and guardians must sign their students out of the building. In addition, they must be listed on the emergency card. The district will only release students to individuals on the card.

PARENT TEACHER ORGANIZATION (P.T.O.)

The P.T.O. Is a partnership of parents, teachers, and administrators whose purpose is to enhance and enrich the education of all students. The P.T.O. welcomes everyone with a stake in the education of children: stepparents, guardians, grandparents, aunts, uncles, and others. The diversity of individuals serving on the P.T.O fulfills a central role in completing the mission of S.M.K. Elementary School. The P.T.O. also supports the work of the entire school by publicizing and celebrating the hopes, dreams, and achievements of the school.

In a nutshell, the P.T.O. tries to find creative, enjoyable ways to bring together parents, teachers, administrators, and others invested in raising and educating all students. P.T.O. meetings are held once a month, and membership is open to anyone interested in playing a role in the education and achievements of elementary students. Notice of the meetings and other activities are sent home with students, published on the school pages of the Ware River News, and also posted on the Ware Public Schools website <http://www.warepublicschools.com/districtCalendar.asp>. Free childcare is always provided.

The Massachusetts Department of Elementary and Secondary Education, in accordance with Education Reform, will provide MCAS Tests in the spring. Test results will be shared with students and parents.

TRAFFIC SAFETY

Anyone entering the school grounds must obey the posted signs. When entering the grounds, first stop at the stop sign, and then proceed around the circle to drop students off at the appropriate entrance.

- Names will then be submitted to the Volunteer Coordinators and/or Principal who will place them within the building (other than their child's classroom) where there is a need.

WARE MIDDLE SCHOOL

MISSION STATEMENT

Parents/guardians **MUST** telephone and notify the school immediately whenever their son/daughter is absent or is going to be absent giving the reason for absence, such as illness, etc. Following every absence, the parent/guardian must write a note to the main office stating the reason for the absence.
2. When a child has been absent from school on account of a contagious disease, he/she shall not be readmitted without a permit from the attending physician, or the approval of the school nurse.
3. Whenever a student is absent for three (3) consecutive days, the school nurse will call the home and inquire as to the reason for the continued absences, if and when necessary.
4. Failure to notify the school and/or give reason for absences will be considered truancy.
5. The school will notify Parents/guardians of suspected truants.
6. Chronic absenteeism will result in a parent/guardian notification with a 3-day letter, a 5-day letter, and then a 10-day letter. Excessive absences may result in a student's grade retention. All doctor notes or written excuses must be passed in when the student returns to school from the absence. They will not be accepted after the student has exceeded the ten days for the semester.

INSTRUCTIONAL HOURS: 9AM - 3:15PM

For safety purposes, **CHILDREN SHOULD NOT BE DROPPED OFF BEFORE 8:45 AM** in the front of the building. Students that attend a scheduled before school detention or a scheduled extra help session may be dropped off starting at 8:00AM. Students arriving after 9:00 AM are tardy and parents are required to sign them in with a secretary at the main office. School is dismissed at 3:15 PM. On early release days, students are dismissed at approximately 1:25 PM; on half days, release is approximately 12:00 noon. Exact dates and times are indicated on the district school calendar.

BEFORE/AFTER-SCHOOL EXTRA HELP

WMS teachers will provide extra help to students before and or after school. Extra help sessions vary and will be based on individual teacher schedules. Students should not arrive before 7:45 AM for morning help. Students must be picked-up from after school help by 4:00 PM.

CAFETERIA RULES

The student Code of Conduct rules and consequences hold true in the cafeteria as they do elsewhere on school property and during school functions. Students who fail to abide by these rules will lose privileges, be required to eat at an assigned table, lose an activity, or receive a detention. Repeated incidents will result in parent notification, removal from the cafeteria, office detention, internal suspension or external suspension. Cafeteria rules are posted in the cafeteria.

DANCE REGULATIONS

Dances at the Ware Middle School and Ware Junior Senior High School are open only to students enrolled at their respective schools. Students must be currently enrolled and under the jurisdiction of the school's Principal (ability to discipline and/or suspend) and supervision of the school's Principal (daily attendance and achievement). Students who are serving an internal or external suspension or who have been issued a teacher or office detention the day of the dance, or still owe a detention, are not permitted to attend school dances.

In order to attend a dance during the week, all students must be in school all day the day before the dance as well as all day the day of the dance.

DANCE SPONSORED BY THE PARENT TEACHER ORGANIZATION (P.T.O.)

The officers of the Ware Middle School Parent Teacher Organization, with the support of the Ware Middle School Principal, have developed the following Guidelines and Rules of Conduct for all events that are sponsored by the W.M.S. P.T.O.

Students are not to be dropped off before the event begins. We cannot be responsible for what happens outside of the event. No one is on duty until the event begins.

All students must have a parent come inside the building to pick them up. This is a safety issue and will be adhered to.

- Students who are suspended or have detention the week of the event will not be permitted to attend.
- We have a No Tolerance policy for any physical fighting. The students involved will be asked to call their parent and will be dismissed from the event. If a parent cannot be reached the student/s will remain in the office until a parent arrives.
- The above policy will also be followed in the event any student verbally abuses or is disrespectful to any chaperone during the event.
- Roughhousing is not permitted and the student will be given one verbal warning. The next incident will result in dismissal from the event.
- Photos are not permitted. This is a school policy. We will ask the student/s to refrain from taking photos. If the student/s continues we will ask that they leave camera or cell phone in the office and pick it up after the event ends.
- We ask that students use a cell phone only in the event of an emergency. We are required by law to provide land lines and no student will be denied the use of a phone when necessary.
- Appropriate attire is required. No tank tops will be permitted without a cover up. This applies to both male and female students. We will offer the student a cover up at the event or they may call a parent for a change of clothing. Any dress or skirt deemed "mini" must have leggings worn underneath. Any student wearing clothing that is considered offensive will be asked to change. (They may again call a parent).
- NO outside food is permitted other than what is available at the bake sale. We cannot allow deliveries as those individuals are not CORI'd to be in the building. Any student who is caught will be asked to remain in the office while a parent is contacted. This rule is entirely for the safety of all students.
- Any event that is sponsored by the P.T.O. is only for the students and staff of Ware Middle School.

Parents will be notified of teacher detentions via a school notice form carried home by the student. This form should be signed by the parent and returned to school the next day. Detention dates may be changed only at a parent's request when a prior appointment or emergency exists. Teachers will make time spent in detention educational and related to behavior rather than strictly punitive.

Teacher detentions are forty-five minutes from 3:15-4:00 p.m. Students will receive written notice of the office detention by an after school notice form to be carried home by the student. This form should be signed by the parent and returned to the school the next day. If the student form is not returned to the teacher on the day of the detention the office will place a phone call to the parent/guardian to remind of the detention.

Students will serve all teacher/office detentions before participating in any after school activities scheduled on the same day.

Office Detention Rules

DISMISSAL PRIOR TO CLOSE OF SCHOOL DAY

If a student is to be dismissed before the end of school day, or if there is a change in the way he/she will be going home, this information **MUST** be sent in the form of a parent/guardian note to the school ahead of time. Written permission is required for another adult to pick-up a child. If a child/children will be leaving school early or will be going home other than the usual way (e.g. picked up instead of riding a bus, picked up by a different adult, riding a bus to a friend's house) **A NOTE MUST BE SENT TO SCHOOL** in advance.

ENTERING AND LEAVING SCHOOL

Students have the right to be in the Middle School and on school grounds during the regularly scheduled school day (9:00 a.m. to 3:15 p.m.) and for school-sponsored activities.

FUNDAMENTAL GUIDING PRINCIPLES

1. The most important factor in the development and maintenance of good discipline within a school is a cooperative effort by the entire school staff, parents and students.
2. The welfare of the student is of primary importance. The focus of good discipline should be on helping the student in his/her adjustment and development in school. The welfare of all students must be weighed and disciplinary decisions must be made that are in their best interest.
3. Young people need an atmosphere of structure. They need to know the rules as well as the consequences. They need to know that the rules are enforced and that the consequences will be directly related to the frequency and severity of their actions. Limitations and controls within the school are necessary for the smooth functioning of a school for the students' personal development and safety.
4. The foundation of good discipline is that those who are involved with the student and who participate in the disciplinary process have a positive attitude toward the student and recognize the goals of discipline.
5. A positive school environment involves all members working in a cooperative effort. Members of the school community (students and staff) recognize the importance of showing respect and consideration for each other.

HOMEWORK POLICY

1. Ware Middle School requires students to take homework seriously because it is an extension of the classroom experience.
2. Homework guidelines will be established by the classroom teachers as stated in their course syllabus provided to each student.
3. During an absence a parent/guardian may contact the main office for the student's homework.
- 4.

HONOR ROLL

A list of honor roll students is published at the end of each quarter. To qualify for honor roll, students must have the grade point averages as listed in the Grading Policies section below:

High Honors
Honors

90 average with no mark below A-
85 average with no mark below B-

LOCKERS

1. The school is not responsible for any belongings stored in lockers.
2. Students are not allowed to share or enter any other locker other than their assigned locker.
3. Students are responsible for his/her assigned locker and its contents.
4. It is highly recommended that students do not bring with them large sums of money to school.
5. Students are asked to supply their own locks. A copy of your lock combination must be given to the main office. If you have an extra key (to a key lock) please leave the key in the main office, where it will be labeled and put away in case the students is misplaced.
6. Defacing of school property (writing, stickers, etc.) is not allowed.
7. Backpacks are not allowed in hallways or in classrooms.

LOST AND FOUND

Lost and found items will be located in the cafeteria.

Inquiries about lost and found articles should be made at the main office.

MAKE-UP WORK

Teachers will require students to make up work missed for any reason including truancy and “cut” classes. As a general rule, missed work should be made up within an equal number of school days that were missed. (If a student missed one day, the student has one school day to make up the work. If a student missed two days, the student has two school days to make up the work, etc.) Zero credit will result from failure to make up the schoolwork. It is the responsibility of the student to seek out the teacher(s) to ask for missed assignments and confirm the due dates.

"NO GUM/CANDY" POLICY

The Ware Middle School enforces a "No Gum/Candy" policy. This has become necessary because students have been leaving gum/candy on floors, carpets, stairs, furniture, etc. which causes damage to school property. There have also been incidents when gum was deliberately placed in students' hair. Students will not be allowed to chew gum/candy or have gum/candy with them during any part of the school day, or during any after school-sponsored activity, while they are on school property. This includes the times before the start of the school day, bus time, class time, lunch/recess break, or when students are leaving school at the end of the day. No gum/candy is to be brought to school. Students who bring gum/candy to school will have it taken away and not returned to them. Students who refuse to follow the no gum/candy policy will be issued office detention(s).

OPEN BEVERAGES

Open beverage containers, and glass containers will not be allowed in classrooms or in the hallways. Any student may bring in factory sealed containers of water or juices, and the like for lunch. **No soda, no coffee, no caffeinated drinks and no energy drinks of any kind will be permitted.** Students may have water bottles in the classroom but they must be in a **CLEAR PLASTIC** container, so that the contents may be seen. Teachers will be able to remove containers if they are not in compliance. Containers may also be checked for contents if necessary.

PARENT TEACHER ORGANIZATION (P.T.O.)

The P.T.O. Is a partnership of parents, teachers, and administrators whose purpose is to enhance and enrich the education of all students. The P.T.O. welcomes everyone with a stake in the education of children: stepparents, guardians, grandparents, aunts, uncles, and others. In a nutshell, the P.T.O. tries to find creative, enjoyable ways to bring together parents, teachers, administrators, and others invested in raising and educating all students. P.T.O. meetings are held once a month, and membership is open to anyone interested in playing a role in the education and achievements of elementary students. Notice of the meetings and other activities are sent home with students, published on the school pages of the Ware River News, and also posted on the Ware Public Schools website. Free childcare is always provided.

WJSHS COVID-19 SAFETY AND SOCIAL DISTANCING GUIDELINES

Precautions - Attendance

Students, faculty, and staff should stay home if they are feeling unwell or are experiencing symptoms of illness. The school will provide a safe isolation space for any student who shows COVID-19 symptoms during the school day until they can be picked up by a family member.

Masks/Face Coverings

All students, faculty, and staff must wear a face mask/covering at all times while in the building and on school busses and vans. Face masks/coverings should be provided by the student/family and be replaced or washed after use. The school will have extra disposable face masks available for students who need them. Students who refuse to wear masks may be subject to disciplinary action. Exceptions to these face covering guidelines may be made for those whom it is not possible due to medical conditions, disability impact, or other health or safety factors. Mask breaks will also be provided according to DESE guidelines.

Social Distancing

Students must maintain a distance of 3 feet from fellow students and 6 feet from their teachers while in classes. Students are not to move their seats or desks to ensure that these distances can be maintained throughout the day.

Handwashing/Sanitizing

Students will need to follow all instructions in regards to handwashing and the use of hand sanitizing stations when directed to do so by faculty and staff. Specific handwashing times will include but are not limited to:

- Upon arrival at school
- Before eating
- Before dismissal

Lunches/Schedule Breaks

Students will eat their lunch in their classrooms or other designated areas and may remove their face covering for the purpose of eating/drinking during their lunch period only. However, adherence to the seating guidelines must continue to be followed during lunchtime.

Student Traffic – Halls

While traveling in the hallways, students must follow directional signs that will explain and direct the proper flow of traffic. There should be a distance of 3 feet maintained from peers while walking in the hallways. Arrival and dismissal from school will be staggered and students will need to follow all faculty and staff directions related to safely entering and exiting the building. Since no list of guidelines can cover every possible situation that may arise, students are reminded that they are required to follow all reasonable requests made of them by members of the faculty and staff as per the WJSHS Handbook.

GUIDANCE INFORMATION

GRADES 7-12

Guidance services are available for every student in the school. These services include assistance with educational planning, interpretation of test scores, occupational information, career information, study skills, help with home, school and/or social concerns, or any questions the student may feel he/she would like to discuss with the counselor. Students wishing to visit a counselor should contact the secretary in the guidance office to arrange for an appointment. All students must obtain a pass from their teacher to go to the guidance office.

ADD/DROP COURSES

During the school year, courses may be added/dropped under exceptional circumstances, only if the Principal, teacher, guidance counselor and parent agree that it would be in the best interest of the student. The parent/guardian must verify his/her consent for a drop by signing a Course Withdrawal Form. When a course is dropped, a grade of „W“ will be added to the student’s transcript if the student was passing the course at the time of the withdrawal, or a „WF“ if the student was failing

Students will have five days at the beginning of each semester to change classes. All other requests after the five-day drop/add period must be granted by the Administration. It is recommended that changes for second semester be done at the beginning of the school year to allow more flexibility in course choices.

DUAL ENROLLMENT

Opportunities for juniors and seniors for Dual Enrollment (taking a college level class for both college and high school credit) exist through local colleges/universities. Options vary from taking a college class here at WJSHS, to taking an online course, to attending classes on the actual college campuses. GPA and other requirements vary according to the different institutions. Currently, there is the possibility of state funding being available to cover the cost of tuition and fees for one course/semester for seniors, from the summer session preceding their senior year through their spring semester. Books must be purchased by the student.

Announcements regarding these programs are made through guidance, and posted on the district website under the guidance section. **Initial** info and paperwork will be handled through guidance. However, please note that it is the responsibility of the student to contact the college to follow-up regarding registration, orientation programs and placement testing. See guidance for details.

INTERNSHIP – GRADE 12 STUDENTS WITH ADMINISTRATIVE APPROVAL

Students must complete an application form which is available from the Guidance Department. This course provides students in grade 12 with the opportunity to have a meaningful work experience in a professional setting. Each student will be assigned a "Supervisor" within the school who is a faculty member. The supervisor will oversee the intern's work and will evaluate the student's performance at the end of each marking period based on preset criteria. Students who choose to intern should be dependable and trustworthy.

EXTERNSHIP – GRADE 12 STUDENTS WITH ADMINISTRATIVE APPROVAL

Students must complete an application form which is available from the Guidance Department. This program is an occupational internship which provides students with hands-on work experience. Students are encouraged to locate a site related to their career interests. Students who participate in this program have an opportunity to develop job skills and sound work attitudes which may lead to future employment. Educational and professional as well as occupational experiences are the responsibility of the student. The guidelines for the externship program are:

1. Only seniors who have successfully fulfilled all the requirements for graduation will be eligible for this program.
2. Applications must be submitted prior to the deadline (October 1st each school year) with all applicable signatures in place. Approvals and or denials will be determined by October 31st each school year.
3. Students may not receive any monetary compensation for work completed during externship.
4. Students will be expected to maintain a 90% attendance rate as a minimum standard.
5. The job supervisor must successfully pass a CORI check in order to oversee a student in the workplace.
6. Both the job supervisor and the student must complete the prescribed mid-semester and final evaluations. The program coordinator will work with each participating student to facilitate the completion of these evaluations and the assigning of the final grade. These tasks will be similar to those found on the Massachusetts Work-Based Learning Plan.
7. Permission for travel and workplace liability will be required of all students. These documents must be signed by parents/guardians and relevant parties prior to the student beginning his or her externship.

ENTRY PROCEDURE FOR STUDENTS - REQUIRED

State law mandates the following entry documents:

Medical records (to include current immunizations)

Discipline record from transferring school

Academic records

Commonwealth for MA Department of Elementary and Secondary Education - Sect.37L Any student transferring into a new school district must provide the new district with "a complete school record," including, but not limited to, "any incidents involving suspensions or violation of criminal acts or any incident reports in which such student was charged with any suspended act." The responsibility under Sect. 37L rests with the student who is transferring; the student may either get the record from the former school and present them to the new school, or may request that the former school send the records directly to the new school.

A signed release form is required for the release of student records. To expedite the admissions process, students should provide a copy of their transcript when registering into school.

WITHDRAWAL PROCEDURE FOR STUDENTS – REQUIRED

1. Inform guidance department one week prior to your intended departure. Any student under sixteen years of age must have a parent signature.
2. On day of departure, guidance will provide student with a withdrawal form to be submitted to student's teachers for verification of returned textbooks and to provide grades as of departure.
3. Prior to dismissal, the student should return this form to guidance and sign out in the withdrawal register. Guidance will provide student data for admittance to another school system by fax or mail.

TRANSFER PROCEDURE TO CHAPTER 74 VOCATIONAL TECHNICAL SCHOOLS

April 1st is the date by which the Chapter 74 Vocational Technical Education Program Nonresident Tuition Student Application must be received by the superintendent of the district of residence.

Courses are double-blocked and meet 5 times per week per semester for one credit. GPA is based on a scale of 4.0. Courses are weighted to determine rank and GPA. Advanced and certain upper level classes are weighed by a factor of 1.1 and AP by a factor of 1.25.

Minimum recommended grade point average for Massachusetts public colleges and universities (i.e. Westfield State, UMass Amherst etc.) is a 3.0 which is a B average in the above listed college prep work.

For students whose GPA falls below 3.0, there is a provisional sliding scale utilizing SAT scoring...see your guidance counselor for assistance regarding requirements for specific programs. Four year private colleges may differ in their requirements. Check with counselor regarding specific requirements for individual schools and refer to preceding college prep requirements. Check with college view books and websites for specific program requirements.

TWO-YEAR COLLEGES

Most two-year colleges, such as community colleges, have an open door policy to meet the needs of a diverse population. However, some programs are more competitive and will require specific courses. Health and engineering majors are examples of programs that require three years of college math and two years of a lab science and may require SAT scores. Check with college view books and websites for specific program requirements.

HONOR ROLL

A list of honor roll students is published at the end of each quarter. To qualify for honor roll, students must have the grade point averages listed in the Grading Policies chart above:

High Honors	90 average with no mark below B+
Honors	85 average with no mark below B-

LOSS OF CREDIT

Students absent more than five days in a semester are subject to loss of academic credit due to excessive absences, regardless of whether the absences were excused. The Principal or appointed designee will meet to review the student's individual situation. He/she can allow full credit, deny all or partial credit, or place a student on academic probation. Academic probation involves the student having the semester's credit withheld. Additionally, certain requirements may be made of the student in order for him/her to regain the lost credit. The Principal and the Attendance Review Committee will make the final decision based upon the student's subsequent attendance record and success in meeting the requirements it had set for the student. Parents/Guardians will be notified by mail when a student reaches his/her fifth absence in a semester. The Parents/Guardians will be notified when a student accumulates ten absences and are contacted regarding loss of credit. Students have five (5) school days to appeal in writing to the Principal, who will determine the outcome regarding the loss of credit, restore credit, or probation). Any student who loses credit will automatically become ineligible for extra curricular activities.

NATIONAL HONOR SOCIETY AFFILIATION

Ware Junior Senior High School is a member chapter of the National Honor Society, which is sponsored by the National Association of Secondary School Principals. The purpose of NHS, as found in the national constitution, is to:

- Create enthusiasm for scholarship.
- Stimulate a desire to render service.
- Promote leadership.
- Develop character.

A formal induction ceremony will take place in the spring. Candidates for membership will receive an information packet, due in to the NHS Chapter Adviser, in January. In order to be scholastically eligible, candidates must have the requisite 3.5 cumulative GPA, recalculated at the end of semester one. Additional eligibility determinates are evidence of service, leadership and character, as specified in the chapter by-laws.

PROGRESS REPORTS

Progress reports are issued to all students by mid-quarter (5 weeks). Senior students will not receive fourth quarter progress reports.

FINAL EXAMS

Teachers of senior students may, at their own discretion, exempt seniors from their final exams if the student has an average of 85 or higher. If this is the case, the teacher must insert a grade of “E” for exempt from the final exam.

REPORT CARDS

Report cards are issued four times a year at approximately ten-week intervals.

SUMMER SCHOOL/NIGHT SCHOOL/CREDIT RECOVERY

1. A student with a final grade of 55 or less will not be able to make-up that class in summer school.
2. For any student attending summer school the school/program must be approved by the administration.
3. Only seniors with administrative and teacher approval can make up required courses in a summer school program. If a student fails a required course they must retake it at Ware Junior Senior High School for credit.
4. If a student is allowed to take a summer school course, both the final grade for that course and the final grade for the failed course will appear on student’s transcript. (Both grades will be averaged in for the GPA).
5. If a student passes a class at Ware Junior Senior High School they may not retake that class at summer school for an improved grade without the consent of the teacher and administration.

TESTING GRADES 9-12

SAT Subject Tests: Consists of tests from particular academic subject areas and is required for admission to competitive colleges.

SAT: The SAT is the nation’s most widely used college admission test. It measures the skills you have learned in and outside of the classroom and how well you can apply that knowledge. It tests how you think, solve problems and communicate.

PSAT/NMSQT: The Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test. These tests, taken primarily by high school juniors, not only expose students to college testing procedures, but are also used to identify National Merit Scholars. For the past two years, we have also included the sophomores in this testing.

MCAS: The Massachusetts Comprehensive Assessment System. Ware Junior Senior High School participates in the statewide mandated testing program “MCAS”. All students in grades eight and ten are tested in May in the following subject areas: English language arts, mathematics, science and technology, history and social science. Testing will also be done in grade seven in English and Math. Testing for English MCAS will be in the month of March and math during the month of May. According to Massachusetts state law, students in the Class of 2003 and beyond will need to earn competency determination in English Language Arts, mathematics and science/technology in order to graduate and receive their high school diploma. This means that students will need a score of 220 or higher on each of these exams. Additionally, students who score below 240 (proficient) on the English Language Arts and mathematics tests will be placed on Educational Proficiency Plans. These EPPs, simply stated, prescribe the increasingly rigorous courses in English and or math that the student must continue to take and pass in order to graduate. Parents/guardians will receive notification by mail in October/November informing them if their son/daughter is on an EPP.
